Marx The First:

Early Writings Karl Marx, 2005-11-24 Written in 1833-4 when Marx was barely twenty five this astonishingly rich body of works formed the cornerstone for his later political philosophy In the Critique of Hegel's Doctrine of the State he dissects Hegel's thought and develops his own views on civil society while his Letters reveal a furious intellect struggling to develop the egalitarian theory of state Equally challenging are his controversial essay On the Jewish Question and the Economic and Philosophical Manuscripts where Marx first made clear his views on alienation the state democracy and human nature Brilliantly insightful Marx's Early Writings reveal a mind on the brink of one of the most revolutionary ideas in human history the theory of Communism This translation fully conveys the vigour of the original works The introduction by Lucio Colletti considers the beliefs of the young Marx and explores these writings in the light of the later development of Marxism

Marx: Early Political Writings Karl Marx, 1994-06-24 A newly translated selection of Marx's early political writings

Divergent Paths: The Hegelian foundations of Marx's method Norman Levine, 2006-01-01 Divergent Paths is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx's ideas from Hegel through to the present day and is absolutely essential reading

Back to Marx Yibing Zhang, 2014 Without a doubt Karl Marx philosophical work had a huge impact on western concepts of society and economics that still reverberates in the philosophical discourse In the analysis of this ongoing discourse however the work of Chinese scholars is underrepresented This book is a translation of the reference work Back to Marx first published in 1999 in the PRC The book is a serious inquiry into the interrelationships between Marx's political and economic philosophy based on careful and systematic reading of a wide range of textual sources including in particular the newly published second edition of the Complete Works of Marx and Engels MEGA2 which collects notes drafts manuscripts and excerpts previously unavailable to the scholarly community The author Zhang Yibing teaches philosophy at the University of Nanjing and is one of the foremost scholars of Marxism in the PRC a Marxist analyst of contemporary philosophical issues At the same time he is the Vice Chancellor of the University

The Unknown Marx Takahisa Oishi, 2001-01-20 The Unknown Marx is an incisive critique of the way the West has revised and interpreted Marxist theory Takahisa Oishi argues that Engels and Lenin's summaries of Marx's system have now been taken by Western societies to represent the sum total of Marx's philosophy By returning Marx's original writings Oishi reveals the essential limitations of Engels and Lenin's interpretations and presents a fresh reexamination of the theories of one of the world's most influential political philosophers By departing from Western and Stalinist approaches to Marxism Oishi attempts to see Marx's writing in the way Marx saw it In doing so Oishi gives unique insight into the essence of what we think we know about Marx

evaluating the systematic forms of interpretation which have emerged along with encroaching capitalism An insightful highly controversial interpretation of the grand narratives about Marx Marx's Capital, Method and Revolutionary Subjectivity Guido Starosta,2015-11-24 In Marx s Capital Method and Revolutionary Subjectivity Guido Starosta develops a materialist inquiry into the social and historical determinations of revolutionary subjectivity Through a methodologically minded critical reconstruction of the Marxian critique of political economy from the early writings up to the Grundrisse and Capital this study shows that the outcome of the historical movement of the objectified form of social mediation which has turned into the very alienated subject of social life i e capital is to develop as its own immanent determination the constitution of the self abolishing working class as a revolutionary subject A crucial element in this intellectual endeavour is the focus on the intrinsic connection between the specifically dialectical form of social science and its radical transformative content

Marx's Rebellion Against Lenin Norman Levine,2015-10-29 Marx s Rebellion Against Lenin by negating the Leninist Stalinist theory of dialectical materialism and tracing Marx s political philosophy to the Classical Humanism of Aristotle overthrows the stultifying entrapment of Stalinist Bolshevism and contributes to the revitalization of Marx s method **The Making of Marx's Critical Theory (RLE Marxism)** Allen Oakley,2015-05-08 Marx s written output was massive Much of it remained unpublished in his own lifetime and there is still no complete edition of the extant works although most have been published in one form or another This book first published in 1983 provides an analytical guide to the complex chronological and evolving substantive structure of Marx s main writings in critical theory The format is concise and accessible with each phase of Marx s evolving critical theory of capitalist society being summarized in a diagram An invaluable guide for students of Marx it will lead them through the maze of his works to a potentially deeper understanding of his thought Allen Oakley believes that in order to fully comprehend Marx s critical theory it is essential to trace its complex evolution Any serious study of Marx s critique of capitalism must begin with an appreciation of the bibliographical framework within which his evolving ideas were manifested Oakley is opposed to approaches to the study of Marx s critique which take little account of its chronology such approaches he believes are incomplete and potentially misleading with respect to the meaning and significance of the critique The book includes bibliographical evidence about the unfinished state of Marx s critical project and its ever changing scope and organization It argues therefore that the methodological and substantive status of Capital must be interpreted cautiously for bibliographical evidence shows it to be an unfinished climax to an ambiguous critical theoretical project of uncertain dimensions To read it as in any sense a final and definitive statement of Marx s critical theory is the author believes to be deluded **Marx's Critique of Political Economy Volume One** Allen Oakley,2013-11-05 Volume One analyses the intellectual sources and evolution of Marx s critique of political economy leading up the writing of the main Capital manuscripts 1844 1860 The volume Provides a clear illustration of the contents of the texts in a way that enables readers to understand the intellectual influences on Marx Clarifies Marx s own view of what he was trying to achieve

through his critique of political economy The themes of value income distribution and the law of motion of capitalism are traced to their origins

In Marx's Laboratory, 2013-09-13 In Marx s Laboratory Critical Interpretations of the Grundrisse provides a critical analysis of the Grundrisse as a crucial stage in the development of Marx s critique of political economy Stressing both the achievements and limitations of this much debated text and drawing upon recent philological advances this volume attempts to re read Marx s 1857 58 manuscripts against the background of Capital as a laboratory in which Marx first began to clarify central elements of his mature problematic With chapters by an international range of authors from different traditions of interpretation including the International Symposium on Marxian Theory this volume provides an in depth analysis of key themes and concepts in the Grundrisse such as method dialectics and abstraction abstract labour value money and capital technology the general intellect and revolutionary subjectivity surplus value competition crisis and society gender ecology and pre capitalist forms Contributors include Chris Arthur Luca Basso Riccardo Bellofiore George Caffentzis Martha Campbell Juan I igo Carrera Howard Engelskirchen Roberto Fineschi Michael Heinrich Fred Moseley Patrick Murray Geert Reuten Tony Smith Guido Starosta Massimiliano Tomba Jan Toporowski Peter D Thomas Joel Wainwright and Amy Wendling

Marx's Construction of Social Theory (RLE Marxism) J.M. Barbalet, 2015-04-17 This study first published in 1983 explores the connections between Marx s philosophy and his empirical analysis of society and state by showing the different meanings of many of Marx s concepts as their role in his theory changes and the theory itself develops Beginning with an examination of Marx s search for a sound epistemological basis on which to build a social theory Dr Barbalet then gives an analysis of the way in which Marx continually modifies the concepts he uses and continues with an examination of the different functions they are given in different theoretical settings Various nuances of Marx s thought often obscured by the simplistic early late dichotomy are revealed by Dr Barbalet s close attention to the progressive transformation of Marx s concepts and by his scrupulous analysis of them in not only their textual but also their theoretical context Finally the book examines the manner in which Marx s construction of social theory by its very nature means that some material is replaced by other theoretical fabric as the theoretical structure itself is in different ways dismantled and reorganised as Marx s thought evolves and develops

Marx's Inferno William Clare Roberts, 2018-03-13 Marx s Inferno reconstructs the major arguments of Karl Marx s Capital and inaugurates a completely new reading of a seminal classic Rather than simply a critique of classical political economy William Roberts argues that Capital was primarily a careful engagement with the motives and aims of the workers movement Understood in this light Capital emerges as a profound work of political theory Placing Marx against the background of nineteenth century socialism Roberts shows how Capital was ingeniously modeled on Dante s Inferno and how Marx playing the role of Virgil for the proletariat introduced partisans of workers emancipation to the secret depths of the modern social Hell In this manner Marx revised republican ideas of freedom in response to the rise of capitalism Combining research on Marx s interlocutors textual

scholarship and forays into recent debates Roberts traces the continuities linking Marx's theory of capitalism to the tradition of republican political thought He immerses the reader in socialist debates about the nature of commerce the experience of labor the power of bosses and managers and the possibilities of political organization Roberts rescues those debates from the past and shows how they speak to ever renewed concerns about political life in today's world [Marx's Discourse with Hegel](#) N. Levine, 2012-02-21 The end of Stalinist Russia China's change under Deng Xiaoping and the publication of previously unexplored documents of Marx in the MEGA2 opened a new epoch in the analysis of Marx Marx's Discourse With Hegel is both a product and contribution to this rebirth of Marxism by its reformulation of the relationship between Hegel and Marx [Karl Marx](#) Frank W. Elwell, Brian Andrews, Kenneth S. Hicks, 2020-12-15 Karl Marx A Reference Guide to His Life and Works covers all aspects of his life and works Marx was a philosopher a crusading journalist as well as a political organizer and activist advocating democratic reforms working class political organizations and the establishment of a socialist political order Includes a comprehensive historical timeline of major events involving or related to Marx The A to Z section includes the major events works and concepts related to Marx Bibliography of major works by and about Marx and events surrounding his life and works The index thoroughly cross references the chronological and encyclopedic entries

Marx's Critique of Political Economy Volume Two Allen Oakley, 2013-11-05 Volume Two covers the years 1861-1863 when Marx consolidated and refined the arguments of his critique of political economy in his relatively neglected manuscripts Theories of Surplus Value Special attention is paid to the nature scope and limitations of Marx's critique and to the critique of Ricardo's Principles *Karl Marx's Grundrisse* Marcello Musto, 2008-07-25 Written between 1857 and 1858 the Grundrisse is the first draft of Marx's critique of political economy and thus also the initial preparatory work on Capital Despite its editorial vicissitudes and late publication Grundrisse contains numerous reflections on matters that Marx did not develop elsewhere in his oeuvre and is therefore extremely important [The New Dialectic and Marx's Capital](#) Chris Arthur, 2021-08-04 This book argues that the dialectic of Marx's Capital has a systematic rather than historical character It sheds new light on Marx's great work while going beyond it in many respects *Marx's Concept of the Alternative to Capitalism* Peter Hudis, 2012-07-25 This is the first book length study of Marx's concept of the alternative to capitalism It shows that his critique of capital flowed from a commitment to a specific vision of the kind of human relations that define a new society **Divergent Paths** Norman Levine, 2006-02-13 Divergent Paths is the first volume of a groundbreaking three volume work Its purpose is to explore the relationship between Hegel and Marx to define the relationship between Hegel and Engels and to distinguish between the theories of Marxism and Engelsism Marx used Feuerbach towards the critique and ultimate transformation of Hegel's phenomenology and humanism This transformation which cut out Hegel's idealism by identifying the environment in which people produced their sustenance as the subject of history marks the genesis of historical materialism Marx continued to use Hegel's logical categories In chapter three of Divergent Paths Norman Levine

conducts an in depth study of Marx s 1841 doctoral dissertation *The Difference Between Democritus and Epicurus* *Philosophy of Nature* It is the center of gravity and controversy of Levine s study Placed alongside Hegel s *Philosophy of History* Levine isolates the categories Marx appropriated from Hegel to show conclusively that Marx was not a dialectical materialist Levine then claims that Engels totally distorted the Hegelian legacy and this debasement is enshrined in his 1887 essay *Ludwig Feuerbach and The End of Classical German Philosophy* Levine brilliantly locates Marxism as the theory of Marx and Engelsism the theory of Engels According to Levine both embodied a separate view of history and society and their contradictions are expressive in part of their divergent receptions of Hegel This is an analysis like no other published to date with two more volumes planned Philosophers sociologists anthropologists and historiographers of Marx and Engels cannot afford to miss this study
