The Gunning of America Pamela Haag, 2016-04-19 Americans have always loved guns This special bond was forged during the American Revolution and sanctified by the Second Amendment It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation Or so we're told In *The Gunning of America* historian Pamela Haag overturns this conventional wisdom American gun culture she argues developed not because the gun was exceptional but precisely because it was not guns proliferated in America because throughout most of the nation's history they were perceived as an unexceptional commodity no different than buttons or typewriters Focusing on the history of the Winchester Repeating Arms Company one of the most iconic arms manufacturers in America Haag challenges many basic assumptions of how and when America became a gun culture Under the leadership of Oliver Winchester and his heirs the company used aggressive sometimes ingenious sales and marketing techniques to create new markets for their product Guns have never sold themselves rather through advertising and innovative distribution campaigns the gun industry did Through the meticulous examination of gun industry archives Haag challenges the myth of a primal bond between Americans and their firearms Over the course of its 150 year history the Winchester Repeating Arms Company sold over 8 million guns But Oliver Winchester a shirtmaker in his previous career had no apparent qualms about a life spent arming America His daughter in law Sarah Winchester was a different story Legend holds that Sarah was haunted by what she considered a vast blood fortune and became convinced that the ghosts of rifle victims were haunting her She channeled much of her inheritance and her conflicted conscience into a monstrous estate now known as the Winchester Mystery House where she sought refuge from this ever expanding army of phantoms In this provocative and deeply researched work of narrative history Haag fundamentally revises the history of arms in America and in so doing explodes the cliché that have created and sustained our lethal gun culture

Gringo go home! Jay Horowitz, 2018-12-17 Un Gringo universitario de NYC visita a Colombia durante los años 60 Lo vio como el paraíso del mundo con oportunidades económicas abundantes La industria estaba aproximadamente 20 años atrás y parecía la oportunidad de la vida para establecer una fábrica de juguetes moderna con modelos mercadeo y tecnología de EE UU Su teoría fue válida y su marca se convirtió a la más conocida sin embargo la vida y cultura de Colombia no fue como la de NYC El paraíso de los años 60 cambió a la poca de la

violencia de los años 70 Se presentaron aventuras inesperadas como la estafa sobrevivir a la extorsión el secuestro un desfalco el atentado y demás eventos que formaron parte de la vida en Colombia en los años 70 Por seguridad regresó con su familia a los EE UU donde inició otro modelo de negocio exitoso ofreciendo los moldes maquinaria y tecnología para las fábricas de juguetes A través de los años este negocio lo proyectó hacia México Desafortunadamente México pasó a vivir la misma situación en los años 2000-2020 que Colombia vivió durante los años 70-80 donde la corrupción y la violencia son parte de la vida cotidiana Además de mostrar este episodio de su vida el libro da la inside story de cómo realmente funcionan los negocios Son modelos de negocios originales La historia también analiza qué parte juega la suerte o la providencia en la vida Finalmente la emoción de nostalgia reconoce con cariño la música películas programas de TV de nuestra juventud pero especialmente los juguetes Los niños de Colombia de la Generación Toyco reconocen sus favoritos Una historia verídica palabra por palabra

Kids' Stuff Gary Cross, 1999-11-15 To sort out who s who and what s what in the enchanting vexing world of Barbies R and Ninja Turtles R Tinkertoys R and teddy bears is to begin to see what s become of childhood in America It is this changing world and what it unveils about our values that Gary Cross explores in *Kids Stuff* a revealing look into the meaning of American toys through this century Early in the 1900s toys reflected parents ideas about children and their futures Erector sets introduced boys to a realm of business and technology while baby dolls anticipated motherhood and building blocks honed the fine motor skills of the youngest children *Kids Stuff* chronicles the transformation that occurred as the interests and intentions of parents children and the toy industry gradually diverged starting in the 1930s when toymakers marketing playthings inspired by popular favorites like Shirley Temple and Buck Rogers began to appeal directly to the young TV advertising blockbuster films like *Star Wars* R and Saturday morning cartoons exploited their youthful audience in new and audacious ways Meanwhile powerful social and economic forces were transforming the nature of play in American society Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in
