Marxism And Resistance In Burma 1942 1945:

Marxism and Resistance in Burma, 1942-1945 Robert H. Taylor, 1984 The Special Operations Executive (SOE) in Burma Richard Duckett, 2017-10-30 In the mountains and jungles of occupied Burma during World War II British special forces launched a series of secret operations assisted by parts of the Burmese population The men of the SOE trained in sabotage and guerrilla warfare worked in the jungle deep behind enemy lines to frustrate the puppet Burmese government of Ba Maw and continue the fight against Hirohito's Japan in a theatre starved of resources Here Richard Duckett uses newly declassified documents from the National Archives to reveal for the first time the extent of British special forces involvement from the 1941 operations until beyond Burma's independence from the British Empire in 1948 Duckett argues convincingly that Operation Character and Operation Billet large SOE missions launched in support of General Slim's XIV Army offensive to liberate Burma rank among the most militarily significant of the SOE's secret missions Featuring a wealth of photographs and accompanying material never before published including direct testimony recorded by veterans of the campaign and maps from the SOE files The SOE in Burma tells a compelling story of courage and struggle in during World War II

Dadland Keggie Carew, 2017-03-07 As her father's memory fails a daughter explores his military past Part family memoir part history book Compelling and moving from start to finish Financial Times One of the San Francisco Chronicle's Ten Best Books of the Year For most of Keggie Carew's life she was kept at arm's length from her father's personal history But when she is invited to join him for the sixtieth anniversary of the Jedburghs an elite special operations unit that was the first collaboration between the American and British Secret Services during World War II a new door opens in their relationship As dementia begins to stake a claim over Tom Carew's memory Keggie embarks on a quest to unravel his story and soon finds herself in a far more consuming place than she bargained for Tom Carew was a maverick a left handed stutterer a law unto himself As a Jedburgh he parachuted behind enemy lines to raise guerrilla resistance first against the Germans in France then against the Japanese in Southeast Asia where he won the nickname Lawrence of Burma But his wartime exploits were only the beginning A winner of the Costa Book Award Dadland takes us on a journey through peace and war and shady corners of twentieth century politics though the author's English childhood and the breakdown of her family and into the mysterious realm of memory Brings to mind Helen MacDonald's H is for Hawk in the way it soars off in surprising directions teaches you things you didn't know and ambushes your emotions NPR Astonishing Mixes intimate memoir biography history and detective story this is a shape shifting hybrid that meditates on the nature of time and identity Tom Carew was a razzle dazzle character larger than life and anarchically self invented For all its vigor and comic zest Dadland is a careful and tender discovery that patiently circles around a man who spent his life mythologizing and running away from himself The Observer *The Collapse of British Rule in Burma* Michael D. Leigh, 2018-07-26 In May 1942 colonial Burma was in a state of military economic and constitutional collapse Japanese forces controlled almost the whole country and thousands of

evacuees were trapped in a huge area of no man's land in the north. They made their way to India through the so-called jungles of death attempting to trek out of Burma amidst perilous conditions. Drawing on diverse and previously unpublished accounts, Michael D. Leigh analyses the experiences of evacuees in both Burma and India and critically examines the impact of evacuation on colonial and Burmese politics in the lead up to independence in 1948. This study will be of particular interest to students and scholars of Burmese history, 20th-century imperialism and the global reach of the Second World War.

Buddhism, Politics and Political Thought in Myanmar Matthew J. Walton, 2017. Walton explains political dynamics in Myanmar through Buddhist thought, providing a conceptual framework for understanding Myanmar's ongoing political transition.

Forgotten Armies Christopher Alan Bayly, Timothy Norman Harper, 2005. In the early stages of the Second World War, the vast crescent of British-ruled territories stretching from India to Singapore appeared as a massive Allied asset. It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis. Yet within a few weeks in 1941-42, a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier, provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today's Asian world. More than a military history, this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare, nationalist insurgency, disease and famine. It breathes life into the armies of soldiers, civilians, laborers, businessmen, comfort women, doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles, from tropical plantations to the Himalayas. Drawing upon a vast range of Indian, Burmese, Chinese and Malay, as well as British, American and Japanese voices, the authors make vivid one of the central dramas of the twentieth century: the birth of modern south and southeast Asia and the death of British rule.

Who Hollered Fore? Lean: Controlling Processes Don Tapping, 2005. General Ne Win Robert Taylor, 2015-05-25. Robert Taylor, one of the most prominent scholars in Myanmar studies, has written an illuminating study of Ne Win, the most enigmatic and controversial of the first generation of post-independence Southeast Asian leaders and how he steered a then largely unknown country, Burma, now Myanmar, through the Cold War years. This book, by perhaps the only foreign political analyst to live in Burma under Ne Win, is a significant contribution to the historiography of Myanmar and its unnoticed role in the Cold War in Asia. Associate Professor Ang Cheng Guan, Head of Graduate Studies, S. Rajaratnam School of International Studies, Nanyang Technological University, Singapore. This book fills a major gap in the literature on Myanmar by providing the first scholarly account of the life of General Ne Win, its enigmatic ruler for over 25 years. It will be of interest not only to professional Myanmar watchers who have long awaited a detailed and comprehensive study of this important historical figure but to anyone who wants to learn more about this troubled Southeast Asian country where Ne Win's legacy is still being felt today. Andrew Selth, Adjunct Associate Professor, Griffith Asia Institute. The Colonel Ne Win of World War II and

General Ne Win of post independent Myanmar was not the same as Chairman Ne Win of the BSPP Nor was the context of those days similar to the context by which he is normally judged today The present work and Taylor s scholarship in general is acutely aware of such anachronistic projections backward made to commensurate with certain desired academic and political consequences Taylor examines Ne Win s life and career in the context of when it occurred This book returns Ne Win to the period to which he belonged Michael Aung Thwin Professor of South East Asian History University of Hawaii It is difficult to imagine that this study of Ne Win the dominant figure in the politics of Burma through most of the second half of the twentieth century will ever be surpassed Immensely detailed insightful and impressively understanding this is an outstanding work of scholarship Ian Brown Emeritus Professor of the Economic History of South East Asia School of Oriental and African Studies London

Experiments with Marxism-Leninism in Cold War Southeast Asia Matthew Galway, Marc H. Oppen, 2022-09-21 One of the most contentious theatres of the global conflict between capitalism and communism was Southeast Asia From the 1920s until the end of the Cold War the region was racked by international and internal wars that claimed the lives of millions and fundamentally altered societies in the region for generations Most of the 11 countries that compose Southeast Asia were host to the development of sizable communist parties that actively and sometimes violently contested for political power These parties were the object of fierce repression by European colonial powers post independence governments and the United States Southeast Asia communist parties were also the object of a great deal of analysis both during and after these conflicts This book brings together a host of expert scholars many of whom are either Southeast Asia based or from the countries under analysis to present the most expansive and comprehensive study to date on ideological and practical experiments with Marxism Leninism in Southeast Asia The bulk of this edited volume presents the contents of these revolutionary ideologies on their own terms and their transformations in praxis by using primary source materials that are free of the preconceptions and distortions of counterinsurgent narratives A unifying strength of this work is its focus on using primary sources in the original languages of the insurgents themselves

The Oxford Handbook of Comparative Political Theory Leigh K. Jenco, Murad Idris, Megan Christine Thomas, 2020 Chapters emphasize exploration of substantive questions about political life in a range of global contexts with attention to whether and how those questions may be shared contested or reformulated across differences of time space and experience An interdisciplinary volume that bridges the gaps between various traditions regions and concerns regarding political theory Provides tags and keywords to aid navigation of the handbook and help readers trace disruptions thematic connections and conceptual contrasts across entries

State Dominance in Myanmar Tin Maung Maung Than, 2007 Focuses on the state s efforts to industrialize Myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948-88 and lately 1989 onwards through state managed outward orientation

The Novel, Volume 1 Franco Moretti, 2022-04-12 Nearly as global in its ambition and sweep as its subject Franco Moretti's *The Novel* is a watershed event in the understanding of the first truly planetary literary form A translated selection from the epic five volume Italian *Il Romanzo* 2001 2003 *The Novel*'s two volumes are a unified multiauthored reference work containing more than one hundred specially commissioned essays by leading contemporary critics from around the world Providing the first international comparative reassessment of the novel these essential volumes reveal the form in unprecedented depth and breadth as a great cultural social and human phenomenon that stretches from the ancient Greeks to today where modernity itself is unimaginable without the genre By viewing the novel as much more than an aesthetic form this landmark collection demonstrates how the genre has transformed human emotions and behavior and the very perception of reality Historical statistical and formal analyses show the novel as a complex literary system in which new forms proliferate in every period and place Volume 1 History Geography and Culture looks at the novel mostly from the outside treating the transition from oral to written storytelling and the rise of narrative and fictionality and covering the ancient Greek novel the novel in premodern China the early Spanish novel and much else including readings of novels from around the world These books will be essential reading for all students and scholars of literature

Southeast Asia's Cold War Ang Cheng Guan, 2018-02-28 The historiography of the Cold War has long been dominated by American motivations and concerns with Southeast Asian perspectives largely confined to the Indochina wars and Indonesia under Sukarno *Southeast Asia's Cold War* corrects this situation by examining the international politics of the region from within rather than without It provides an up to date coherent narrative of the Cold War as it played out in Southeast Asia against a backdrop of superpower rivalry When viewed through a Southeast Asian lens the Cold War can be traced back to the interwar years and antagonisms between indigenous communists and their opponents the colonial governments and their later successors Burma Malaysia Singapore Brunei and the Philippines join Vietnam and Indonesia as key regional players with their own agendas as evidenced by the formation of SEATO and the Bandung conference The threat of global Communism orchestrated from Moscow which had such a powerful hold in the West passed largely unnoticed in Southeast Asia where ideology took a back seat to regime preservation China and its evolving attitude toward the region proved far more compelling the emergence of the communist government there in 1949 helped further the development of communist networks in the Southeast Asian region Except in Vietnam the Soviet Union's role was peripheral managing relationships with the United States and China was what preoccupied Southeast Asia's leaders The impact of the Sino Soviet split is visible in the decade long Cambodian conflict and the Sino Vietnamese War of 1979 This succinct volume not only demonstrates the complexity of the region but for the first time provides a narrative that places decolonization and nation building alongside the usual geopolitical conflicts It focuses on local actors and marshals a wide range of literature in

support of its argument Most importantly it tells us how and why the Cold War in Southeast Asia evolved the way it did and offers a deeper understanding of the Southeast Asia we know today *Historical Dictionary of Burma (Myanmar)* Donald M. Seekins, 2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma's president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country's pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people's security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country's religious minorities especially Muslims Today Burma's prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the *Historical Dictionary of Burma Myanmar* encompasses not only current developments but also Burma's over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture
