

**MARXISM and
WORKERS'
SELF-MANAGEMENT**

THE ESSENTIAL TENSION

David L. Prychitko

Marxism And Workers Self Management

David Prychitko

Marxism And Workers Self Management:

Marxism and Workers' Self-Management David Prychitko,1991-06-30 Prychitko offers a reinterpretation of Marx's vision of socialism by arguing that Marx's understanding of humankind led him to a utopian goal of decentralized socialism based on the total abolition of market exchange *Marxism and Workers' Self-Management* David Prychitko,1991-06-30 Prychitko offers a reinterpretation of Marx's vision of socialism by arguing that Marx's understanding of humankind led him to a utopian goal of decentralized socialism based on the total abolition of market exchange **Anton Pannekoek and the Socialism of Workers' Self Emancipation, 1873-1960** John P. Gerber,1989 Workers' Self-Management in Argentina Marcelo Vieta,2020-01-07 In *Workers Self Management in Argentina* Marcelo Vieta homes in on the emergence and consolidation of Argentina's empresas recuperadas por sus trabajadores ERTs worker recuperated enterprises a workers occupy movement that surged at the turn of the millennium in the thick of the country's neo liberal crisis Since then around 400 companies have been taken over and converted to cooperatives by almost 16 000 workers Grounded in class struggle Marxism and a critical sociology of work the book situates the ERT movement in Argentina's long tradition of working class activism and the broader history of workers responses to capitalist crisis Beginning with the voices of the movement's protagonists Vieta ultimately develops a compelling social theory of autogestión a politically prefigurative and ethically infused notion of workers self management that unleashes radical social change for work organisations surrounding communities and beyond *Workers Self Management in Argentina* received an Honorable Mention from the 2022 Joyce Rothschild Book Prize See inside the book **Marxism and the Crisis of Development in Prewar Japan** Germaine A. Hoston,2014-07-14 This study is a comprehensive analysis of the Marxist debate in Japan over how capitalism developed in that country Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Palgrave Handbook of Workers' Participation at Plant Level Stefan Berger,Ludger Pries,Manfred Wannöffle,2019-01-21 Comprising the study documentation and comparison of plant level workers participation around the world this volume meets the challenge of offering a global perspective on workers participation representation and models of social partnership Value chains economic life intercultural exchange and knowledge as well as the mobility of persons and ideas increasingly cross the borders of nation states In the knowledge age the active participation of workers in organizations is crucially important for sustainable and long term growth and innovation This handbook offers lessons from historical global accounts of workers participation at plant level even as it looks forward to predict forthcoming trends in participation **Marxism and Democracy** Joseph V.

Femia,1993-06-24 The collapse of the Soviet Union would seem to sound the death knell for Marxism as a blueprint for social change Why has this doctrine the repository of so many hopes and dreams failed in its grand ambition to liberate the human race from poverty and oppression Through a critical and systematic analysis of what Marx and his disciples had to say about democracy Joseph Femia sheds light on the reasons for this failure *The Political Thought of Andre Gorz* Adrian Little,2013-01-11 Andre Gorz is one of the most important contemporary socialist thinkers He has acquired a reputation as an iconoclastic theorist who poses radical questions about the future of the Left This is the first full length assessment of his work which critically evaluates all of his writings from the 1950s to the 1990s **The Dialectics of Liberty** Chris Matthew Sciabarra,Edward W. Younkins,Roger E. Bissell,2019-06-04 This collection of essays explores the ways in which the defense of liberty can be bolstered by use of a dialectical method that is a mode of analysis devoted to grasping the full context of philosophical cultural and social factors requisite to the sustenance of human freedom Its strength lies in the variety of disciplines and perspectives represented by contributors who apply explicitly dialectical tools to a classical liberal libertarian analysis of social and cultural issues In its conjoining of a dialectical method typically associated with the socialist left to a defense of individual liberty typically associated with the libertarian right this anthology challenges contemporary attitudes on both ends of the political spectrum Though this conjunction of dialectics and liberty has been explored before in several works including a trilogy of books written by one of our coeditors Chris Matthew Sciabarra this volume will be the first one of its kind to bring together accomplished scholars in political science economics philosophy aesthetics psychology law history education and rhetoric **Self-management and the Crisis of Socialism** Michael Wayne Howard,2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues Marx, Revolution, and Social Democracy Philip J. Kain,2023 Marx Revolution and Social Democracy argues that Marx should be understood as a social democrat In response to claims that Marx is either totalitarian utopian or not a democrat Philip J Kain presents a four fold argument concerning the relationship between Marx and social democracy that Marxian socialist society is compatible with a market economy as long as markets are controlled to eliminate alienation that markets can be controlled democratically that Marx accepted a democratic electoral theory of revolution and that Marx and Engels worked actively with the Social Democratic Party of Germany *Marxism, Socialism, Freedom* Radoslav Selucky,1979-06-17 **Markets, Planning, and Democracy** David L. Prychitko,2002-01-01 Markets

planning and democracy essays after the collapse of communism edited by David L Prychitko **An Encyclopedic Dictionary of Marxism, Socialism and Communism** J. Wilczynski, 2019-10-08 No detailed description available for An Encyclopedic Dictionary of Marxism Socialism and Communism Professionals, Power and Solidarity in Poland Michael D. Kennedy, 1991-02-14 The Solidarity movement of the early 1980s not only triggered a transformation in Polish society it forced a fundamental reconsideration of the nature of socialism throughout the Soviet Union and Eastern Europe Seen as one of the most important social movements of the century this pathbreaking study analyses Solidarity's significance in Soviet societies **Marx** Kieran Allen, 2017-09-20 If we are serious about finding a different way to run the post credit crunch society we must start by introducing alternatives to undergraduates Kieran Allen begins the task with an accessible and comprehensive look at the ideas of Karl Marx Dispensing with the dryness of traditional explanations of Marx Allen shows how Marx's ideas apply to modern society The first section briefly outlines Marx's life and the development of his work then goes on to clearly explain his key theories including historical materialism and surplus value The second section examines alternatives to capitalism the concept of anti capitalism and provides concrete contemporary examples of Marx's theories being put into practice in today's world **The Red Flag** David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review The Philosophy of Marx (RLE Marxism) William Leon McBride, 2015-04-24 This book first published in 1977 presents for the first time a serious and systematic assessment of Marx primarily as a philosopher It considers all major aspects of Marx's theory its methodology its ontological dimensions its approaches to the descriptions of history and of societies and their economic structures its alleged predictions and its vision of the future as well as some of its intellectual antecedents and twentieth century heirs The presentation of Marx's ideas

attempts to be at once faithful to them as distinguished from their reinterpretations by later Marxists and yet novel in form and language From this unique standpoint the book aims to bring the student of philosophy and of political ideas to a closer understanding of the intellectual foundations of Marx's Capital and his writings in collaboration with Engels **Marxism at Work** Robert Stuart, 2002-05-02 This book examines the socialists who introduced Marxism to France in the decades before the First World War *Marx's Associated Mode of Production* Paresh Chattopadhyay, 2016-07-30 This book aims to restore Marx's original emancipatory idea of socialism conceived as an association of free individuals centered on working people's self emancipation after the demise of capitalism Marxist scholar Paresh Chattopadhyay argues that Marx's and Engels's ideas have been deliberately warped with misinterpretation not only by those who resent these ideas but more consequentially by those who have come to power under the banner of Marx calling themselves communists This book challenges those who have inaccurately revised Marx's ideas justify their own pursuit of political power
