Marxism Beyond Marxism:

Marxism Beyond Marxism Saree Makdisi, Cesare Casarino, Rebecca Karl, 2012-11-12 These essays critically rethink Marxism in the light of the disintegration of communist regimes Eastern Europe and the Soviet Union Containing essays from a group of internationally distinguished writers and intellectuals this collection addresses Marxism as a cultural political problematic Contending that Marxism is deeply embedded in specific cultural practices the contributors illuminate Marxism s contribution to discussions of labour in post industrial capitalism to controversies surrounding compulsory heterosexuality and queer theory and to debates about the institutionalization and academicization of the New Left In examining Marxism s relationship to cultural practices the contributors make a case for Marxism s continued relevance By combining a diversity of perspectives these essays demonstrate that Marxism addresses urgent needs that are often forsaken by other political and ideological practices They show how now more than ever Marxism s reaffirmation can serve as a sophisticated and cunning response to the latest global developments and travesties

Marx and Europe Matthieu de Nanteuil, Anders Fjeld, 2024-04-10 This book provides a unique scientific contribution to the debate on Marx's legacy in proposing to critically articulate two lines of discussion which are most often kept apart On the one hand it reassesses the place of Marxian thought in the construction of Europe seeking to revitalize the European political debate On the other it situates Marx thought in the perspective of postcolonial and decolonial studies with particular attention to their effort to overcome the indisputable limits of the Marxian legacy In asking whether Marx thought was too European or not European enough the book examines internationalist emancipatory politics and eurocentrism class struggle and finance in the shaping of the European institutions migration identity and violence as well as Marxian critiques of colonialism both within and beyond Europe At a time of extreme tension also within leftist politics this book provides a precise and rigorous argument on what continues to make Marx's thought relevant in grappling with social domination in the era of global capitalism while also exploring the limits of Marxism today both at the European level and worldwide

Historical Materialism and Globalisation Mark Rupert, Hazel Smith, 2016-04-29 Now that Soviet style socialism has collapsed upon itself and liberal capitalism offers itself as the natural necessary and absolute condition of human social life on a worldwide scale this book insists that the potentially emancipatory resources of a renewed and perhaps reconstructed historical materialism are more relevant in today's world than ever before Rather than viewing global capitalism as an eluctable natural force these essays seek to show how a dialectic of power and resistance is at work in the contemporary global political economy producing and contesting new realities and creating conditions in which new forms of collective self determination become thinkable and materially possible It will be vital topical reading for anyone interested in international relations international political economy sociology and political theory
