Marxism And Revolution Karl Kautsky And The Russian Marxists 1900 1924:

Marxism and Revolution Moira Donald, 1993 Offers an interpretation of the origins of Russian Marxism placing it within the fold of the Western European socialist movement Donald argues that the German Karl Kautsky was a primary influence on Lenin and the Russian Social Democratic Party *The New Reformism and the Revival of Karl Kautsky* Douglas Greene, 2024-06-06 This text offers an authoritative historiography of German socialist theorist Karl Kautsky and his impact on debates about the Russian Revolution and the contemporary left Known as the Pope of Marxism Douglas Greene examines the totality of Kautsky's political career and dissects the fundamental opportunism and passive radicalism that defined his Marxism He later examines the most substantive Marxist critics of Kautsky namely Rosa Luxemburg V I Lenin and Leon Trotsky while offering a critical assessment of the work produced by scholars and activists Lars Lih Eric Blanc and Mike Mcnair seeking to revive Kautsky *The New Reformism and the Revival of Karl Kautsky* is an important addition to scholarship on the subject and a valuable resource for those interested in the Russian Revolution German politics socialism Marxism and contemporary left wing debates *The American Worker and the Absurd Truth about Marxism* Alan Johnson, 2023-03-20 In 1906 Werner Sombart famously quipped that the ship of American socialism had crashed on the reefs of roast beef and apple pie Why did socialism never take ground in the USA This volume opens with the first English translation of Karl Kautsky's 1906 long essay *The American Worker* an extended response published in *Die Neue Zeit* to Sombart's 1905 essay *Why Is There No Socialism in the United States* Other essays and reviews are each marked by an effort to come to terms with the fact that Friedrich Engels's optimism that History would take care of class consciousness in the USA has been proven misplaced Originally published as issue 4 of Volume 11 2003 of Brill's journal *Historical Materialism* For more details on this journal please click here *History and the Formation of Marxism* Bertel Nygaard, 2022-09-19 This book redefines the relationship between Marxism and history At its roots Marxism was aimed at analyzing society in order to change it reflecting on the past to create the poetry of the future No single event of the past was as important to early Marxists as the French Revolution of 1789 Studying the varying uses of the history of that past event among Karl Marx Friedrich Engels and prominent European Marxists before 1914 Karl Kautsky V I Lenin and others this book argues that we should take the historiography of concrete past events seriously It was not only an auxiliary element of Marxism but a core constitutive element in its formation Thus this book calls for transcending traditional approaches to Marxism as a fixed set of social theories combined with strategies for the present and future Important to students of Marxism the labor movement and the French Revolution alike this study contains refreshing perspectives on the interplay between past present and future and on the role of states social classes socio economic determination and political organization in history **Marx and Marxism** Gregory Claeys, 2018-04-24 A new biography of Karl Marx tracing the life of this titanic figure and the legacy of his work Karl Marx remains the most influential and controversial political thinker in history He died quietly in 1883 and a mere eleven

mourners attended his funeral but a year later he was being hailed as the Prophet himself whose name and writings would endure through the ages He has been viewed as a philosopher economist historian sociologist political theorist even a literary craftsman But who was Marx What informed his critiques of modern society And how are we to understand his legacy In Marx and Marxism Gregory Claeys a leading historian of socialism offers a wide ranging accessible account of Marx's ideas and their development from the nineteenth century through the Russian Revolution to the present After the collapse of the Soviet Union his reputation seemed utterly eclipsed but now a new generation is reading and discovering Marx in the wake of the recurrent financial crises growing social inequality and an increasing sense of the injustice and destructiveness of capitalism Both his critique of capitalism and his vision of the future speak across the centuries to our times even if the questions he poses are more difficult to answer than ever *Routledge Handbook of Marxism and Post-Marxism* Alex Callinicos, Stathis Kouvelakis, Lucia Pradella, 2020-12-29 In the past two decades Marxism has enjoyed a revitalization as a research program and a growth in its audience This renaissance is connected to the revival of anti capitalist contestation since the Seattle protests in 1999 and the impact of the global economic and financial crisis in 2007 8 It intersects with the emergence of Post Marxism since the 1980s represented by thinkers such as Jürgen Habermas Chantal Mouffe Ranajit Guha and Alain Badiou This handbook explores the development of Marxism and Post Marxism setting them in dialogue against a truly global backdrop Transcending the disciplinary boundaries between philosophy economics politics and history an international range of expert contributors guide the reader through the main varieties and preoccupations of Marxism and Post Marxism Through a series of framing and illustrative essays readers will explore these traditions starting from Marx and Engels themselves through the thinkers of the Second and Third Internationals Rosa Luxemburg Lenin and Trotsky among others the Tricontinental and Subaltern and Post Colonial Studies to more contemporary figures such as Huey Newton Fredric Jameson Judith Butler Immanuel Wallerstein and Samir Amin The Routledge Handbook of Marxism and Post Marxism will be of interest to scholars and researchers of philosophy cultural studies and theory sociology political economics and several areas of political science including political theory Marxism political ideologies and critical theory *Marxism and the Leninist Revolutionary Model* W. of a new world **The Political Thought of Joseph Stalin** Erik van Ree, 2003-08-27 This book presents a comprehensive analysis of the political thought of Joseph Stalin Making full use of the documentation that has recently become available including Stalin's private library with his handwritten margin notes the book provides many insights on Stalin and also on western and Russian Marxist intellectual traditions Overall the book argues that Stalin's political thought is not primarily indebted to the Russian autocratic tradition but belongs to a tradition of revolutionary patriotism that stretches back through revolutionary Marxism to Jacobin thought in the French Revolution It makes interesting comparisons between Stalin Lenin Bukharin and Trotsky and explains a great deal about the mindset of those brought up in the Stalinist era and about the era's many key problems including the industrial revolution from above socialist cultural policy Soviet treatment of nationalities pre war and Cold War foreign policy and the purges *European Communism* Ronald Kowalski, 2017-09-16 The course of modern European History has been influenced greatly by the challenge of Communism In theory it promised equality and freedom for all In practice it spawned inegalitarian authoritarian and in some instances monstrous regimes in the former Soviet Union and East Europe This study re-examines the history of European Communism from its theoretical origins in the work of Marx and Engels in the mid nineteenth century until the dramatic collapse of the Soviet Union in 1991 Ronald Kowalski reappraises Marx's thinking and points out that his intellectual legacy was open to a variety of interpretations often at odds with his own views Kowalski also questions Lenin's professed Marxist credentials and the extent to which his additions to Marxist theory were central to the key issue in the history of Communism why did the egalitarian and libertarian dreams raised by the Russian Revolution degenerate into Stalinist authoritarianism and terror Furthermore why did Communism fail in West Europe while it was able to come to power in East Europe Concluding with an analysis of the revolutions which swept away the Communist regimes in East Europe and two years later in the Soviet Union itself this is an essential introduction to the history of a political force that dominated parts of Europe until the end of the twentieth century
