Marxism And The Great French Revolution:

Marxism and the Great French Revolution Paul McGarr, Alex Callinicos, John Rees, 1989 *Rethinking the French Revolution* George C. Comninel, 1987 Historians generally and Marxists in particular have presented the revolution of 1789 as a bourgeois revolution one which marked the ascendance of the bourgeois as a class the defeat of a feudal aristocracy and the triumph of capitalism Recent revisionist accounts however have raised convincing arguments against the idea of the bourgeois class revolution and the model on which it is based In this provocative study George Comninel surveys existing interpretations of the French Revolution and the methodological issues these raise for historians He argues that the weaknesses of Marxist scholarship originate in Marx's own method which has led historians to fall back on abstract conceptions of the transition from feudalism to capitalism Comninel reasserts the principles of historical materialism that found their mature expression in *Das Kapital* and outlines an interpretation which concludes that while the revolution unified the nation and centralized the French state it did not create a capitalist society *Marxism and History* Matt Perry, 2021-08-16 This textbook examines Marxism's enormous impact on the way historians approach their subject Tackling current historiographical questions in an accessible way the author offers a clear introduction to Marxist views of history key Marxist historians and thinkers and the relevance of Marxist theory and history to students own work This is a concise thorough overview of an important area of historiography The second edition incorporates significant new developments in research including Marxist contributions to the emergence of global maritime and transnational history the discovery of Marx's ecologism and the historical critique of fossil capitalism as a source of environmental disaster a reassessment of gender oppression through social reproduction theory and the contribution of Marxism to debates on race Eurocentrism and whiteness **Marx and the French Revolution** François Furet, 1988-12-14 Throughout his life Karl Marx commented on the French Revolution but never was able to realize his project of a systematic work on this immense event This book assembles for the first time all that Marx wrote on this subject François Furet provides an extended discussion of Marx's thinking on the revolution and Lucien Calvi situates each of the selections drawn from existing translations as well as previously untranslated material in its larger historical context With his early critique of Hegel Marx started moving toward his fundamental thesis that the state is a product of civil society and that the French Revolution was the triumph of bourgeois society Furet's interpretation follows the evolution of this idea and examines the dilemmas it created for Marx as he considered all the faces the new state assumed over the course of the Revolution the Jacobin Terror following the constitutional monarchy Bonaparte's dictatorship following the parliamentary republic The problem of reconciling his theory with the reality of the Revolution's various manifestations is one of the major difficulties Marx contended with throughout his work The hesitation the remorse and the contradictions of the resulting analyses offer a glimpse of a great thinker struggling with the constraints of his own system Marx never did elaborate a theory of an autonomous state but he never stopped

wrestling with the challenge to his doctrine posed by late eighteenth century France whose changing conditions and successive regimes prompted some of his most intriguing and until now unexplored thought **The French Revolutionary Tradition in Russian and Soviet Politics, Political Thought, and Culture** Jay Bergman, 2019-08-14 Because they were Marxists the Bolsheviks in Russia both before and after taking power in 1917 believed that the past was prologue that embedded in history was a Holy Grail a series of mysterious but nonetheless accessible and comprehensible universal laws that explained the course of history from beginning to end Those who understood these laws would be able to mould the future to conform to their own expectations But what should the Bolsheviks do if their Marxist ideology proved to be either erroneous or insufficient if it could not explain or explain fully the course of events that followed the revolution they carried out in the country they called the Soviet Union Something else would have to perform this function The underlying argument of this volume is that the Bolsheviks saw the revolutions in France in 1789 1830 1848 and 1871 as supplying practically everything Marxism lacked In fact these four events comprised what for the Bolsheviks was a genuine Revolutionary Tradition The English Revolution and the Puritan Commonwealth of the seventeenth century were not without utility the Bolsheviks cited them and occasionally utilized them as propaganda but these paled in comparison to what the revolutions in France offered a century later namely legitimacy inspiration guidance in constructing socialism and communism and not least useful fodder for political and personal polemics **History and the Formation of Marxism** Bertel Nygaard, 2022-09-19 This book redefines the relationship between Marxism and history At its roots Marxism was aimed at analyzing society in order to change it reflecting on the past to create the poetry of the future No single event of the past was as important to early Marxists as the French Revolution of 1789 Studying the varying uses of the history of that past event among Karl Marx Friedrich Engels and prominent European Marxists before 1914 Karl Kautsky V I Lenin and others this book argues that we should take the historiography of concrete past events seriously It was not only an auxiliary element of Marxism but a core constitutive element in its formation Thus this book calls for transcending traditional approaches to Marxism as a fixed set of social theories combined with strategies for the present and future Important to students of Marxism the labor movement and the French Revolution alike this study contains refreshing perspectives on the interplay between past present and future and on the role of states social classes socio economic determination and political organization in history **Selected Writings on Soviet Law and Marxism** P.I. Stuchka, Robert Sharlet, Peter B. Maggs, Piers Beirne, 2019-07-23 The Latvian born legal theorist P I Stuchka 1865 1932 generally recognized as one of the principal architects of modern Soviet legal theory and the Soviet legal system itself was a prodigious author and editor Twenty essays by Stuchka written between 1917 and 1931 were selected for translation **The French Revolution and the Russian Anti-Democratic Tradition** Dmitry A. Likhachev, 1997-01-01 The political uncertainty following the collapse of the Soviet Union and the rejection of the revolutionary model has brought Russian political thought full circle as democratic

forces contend with authoritarian nationalism This volume is essential to understanding the antidemocratic tradition in Russia and the persistent danger of totalitarianism **The World of the French Revolution** Robert R Palmer, 2016-06-10 This book examines the European world before 1789 recounts the history of the revolution in France itself and then explores its monumental impact on European society The book focusses on the causes of this impact and discusses the levels of thinking communication social political and economic conditions in France at the time which combined to make the revolution possible and which were similar to those developments elsewhere in Europe Karl Marx and the Philosophy of Praxis (RLE Marxism) Gavin Kitching, 2015-04-17 In this major study first published in 1988 Professor Kitching builds on recent scholarship on Marx and Wittgenstein to provide an incisive readable account and critique of the whole of Marx's work He presents the philosophical economic and political Marx as one thinker and argues that the key to understanding Marx is his commitment to a philosophy of praxis This sees thought as just part of that purposive activity or praxis which distinguishes human beings from other creatures This is the first book to analyse all of Marx's thought from a Wittgenstein perspective in doing so it clarifies and deepens our understanding of Marx *Revolutionary Jews from Spinoza to Marx* Jonathan I. Israel, 2021-06-06 Defines how Jewish intellectuals of the Enlightenment influenced later European revolutionary movements In the eighteenth and early nineteenth centuries a small but conspicuous fringe of the Jewish population became the world's most resolute intellectually driven and philosophical revolutionaries among them the pre-Marxist Karl Marx Yet the roots of their alienation from existing society and determination to change it extend back to the very heart of the Enlightenment when Spinoza and other philosophers living in a rigid hierarchical society colored by a deeply hostile theology first developed a modern revolutionary consciousness Leading intellectual historian Jonathan Israel shows how the radical ideas in the early Marx's writings were influenced by this legacy which he argues must be understood as part of the Radical Enlightenment He traces the rise of a Jewish revolutionary tendency demanding social equality and universal human rights throughout the Western world Israel considers how these writers understood Jewish marginalization and ghettoization and the edifice of superstition prejudice and ignorance that sustained them He investigates how the quest for Jewish emancipation led these thinkers to formulate sweeping theories of social and legal reform that paved the way for revolutionary actions that helped change the world from 1789 onward but hardly as they intended **The French Revolution and Social Democracy** Jean-Numa Ducange, 2018-11-26 Beyond France's own national historiography the French Revolution was a fundamental point of reference for the nineteenth century socialist movement As Jean Numa Ducange tells us while Karl Marx never wrote his planned history of the Revolution from the 1880s the German and Austrian social democrats did embark on such a project This was an important moment for both Marxism and the historiography of the French Revolution Yet it has not previously been the object of any overall study The French Revolution and Social Democracy studies both the social democratic readings of the foundational revolutionary event and the place of this history in militant

culture as seen in sources from party educationalists to leaflets and workers calendars First published in 2012 as *La Révolution française et la social-démocratie Transmissions et usages politiques de l'histoire en Allemagne et Autriche 1889-1934* by Presses Universitaires de Rennes in 2012 The Routledge Companion to the French Revolution in World History Alan Forrest, Matthias Middell, 2015-09-16 The Routledge Companion to the French Revolution in World History engages with some of the most recent trends in French revolutionary scholarship by considering the Revolution in its global context Across seventeen chapters an international team of contributors examine the impact of the Revolution not only on its European neighbours but on Latin America North America and Africa assess how far events there impacted on the Revolution in France and suggest something of the Revolution's enduring legacy in the modern world The Companion views the French Revolution through a deliberately wide lens The first section deals with its global repercussions from the Mediterranean to the Caribbean and includes a discussion of major insurrections such as those in Haiti and Venezuela Three chapters then dissect the often complex and entangled relations with other revolutionary movements in seventeenth century Britain the American colonies and Meiji Japan The focus then switches to international involvement in the events of 1789 and the circulation of ideas people goods and capital In a final section contributors throw light on how the Revolution was and is still remembered across the globe with chapters on Russia China and Australasia An introduction by the editors places the Revolution in its political historical and historiographical context The Routledge Companion to the French Revolution in World History is a timely and important contribution to scholarship of the French Revolution Karl Marx's Theory of Revolution III Hal Draper, 1986 In this third volume of his definitive study of Karl Marx's political thought Hal Draper examines how Marx and Marxism have dealt with the issue of dictatorship in relation to the revolutionary use of force and repression particularly as this debate has centered on the use of the term dictatorship of the proletariat Writing with his usual wit and perception Draper strips away the layers of misinterpretation and misinformation that have accumulated over the years to show what Marx and Engels themselves really meant by the term *The Political Ideas of Marx and Engels* Richard Norman Hunt, 2016-01-08 A History of Economic Thought, 10th Edition Lokanathan V., This book provides a comprehensive coverage of the origin and development of economic thought from the ancient times to the present day It documents the contributions of major thinkers from the time of Hebrews to Maurice Dobb and the perspectives that influenced the economic thought The book also provides an account of the recent trends in Indian economic thought and will be of interest and relevance to all students and scholars of the subject It covers the syllabus of economic thought of major Indian universities

Imperialism and Resistance John Rees, 2006-09-27 A unique critique of the new economic and military imperialism of the United States and its allies in the twenty first century Inspired by the anti globalization and anti war movements in which the author himself has played a crucial role this is also an accessible introduction to the huge changes in global politics since the dominance of the American Empire with the end of the Cold War It covers the key areas of the nature of the new

imperialism the economic power of the US globalization and inequality wars in the post Cold War era oil and empire resisting the new imperialism This lively provocative and practical book is an essential guide to the politics of the new world order which also offers constructive suggestions on how the global resistance movement should develop It is important new reading for activists students and all those wanting to understand and challenge the new imperialism

Marxism and Modern Thought (Routledge Revivals) N.I. Bukharin,A.M. Deborin,Y.M. Yuranovsky,S.I. Vavilov,V.L. Komarov,A.I. Tiumeniev,2013-09-05 First published in English in 1935 this is a vital and stimulating critical appraisal of contemporary thought in the post World War One era Written by a selection of leading Marxist thinkers including Nikolai Bukharin who would later become one of the most famous victims of Stalin s show trials this work offers a Marxist critique of contemporary thought relating to philosophy science and history The authors all lean towards the view that the general tendency of modern thought is to abandon the historical method and to deny progress with the conclusion that Marxism was the only historical and progressive outlook in science philosophy and history in the period following the First World War and the Communist revolution in Russia A fascinating document of great historical and political interest which offers an invaluable insight into contemporary thought in the Soviet Union of the 1930s

Marxism Michael Curtis,1997-01-01 Marxism The Inner Dialogues covers a wide range of basic issues and problems arising from what has been said for against and about Marxism This is a rich and systematic collection of writings by the foremost authorities on the subject in the world The book provides the most inclusive and lasting analysis of Marxist thought available Curtis has confronted current problems in Marxist studies in the context of the classic concerns of Western thought

Austro-Marxism: The Ideology of Unity Mark E. Blum,William T. Smaldone,2015-09-29 This volume offers the essential theoretical thought of the Austro Marxist thinkers Otto Bauer Max Adler Karl Renner Friedrich Adler Rudolf Hilferding and Otto Neurath over the span of their Austrian Social Democratic careers from the decades before World War I until the mid 1930s Austro Marxist theoretical perspectives were conceived as social scientific tools for the issues that faced the development of socialism in their time The relevance of their thought for the contemporary world inheres in this understanding

Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Marxism And The Great French Revolution full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Marxism And The Great French Revolution eBooks, including some popular titles.

FAQs About Marxism And The Great French Revolution Books

What is a Marxism And The Great French Revolution PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Marxism And The Great French Revolution PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Marxism And The Great French Revolution PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Marxism And The Great French Revolution PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Marxism And The Great French Revolution PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
