## **Marxism The Inner Dialogues:**

**Marxism**, 1997      **Mainlining Marx** John Stanley, In recent years a host of Western Marxists have tried to emancipate Marx from responsibility for various unsavory doctrines Political theorists have argued that Marx can avoid the weight of Stalinism and also the various theories such as positivism naturalism Darwinism technological determinism and the dialectics of nature that support Marxism In the course of building up their defense of Marx these modern critics have developed an elaborate but often confusing rationale whose premise consists of attributing many of the nefarious tendencies of Marxism to Engels particularly the latter's philosophy of nature In *Mainlining Marx* John L Stanley sets Marx's view of nature back in its proper perspective Stanley challenges the new orthodoxy of prominent Marxist scholars who see a fundamental dichotomy between Marx and Engels with the latter believing in cosmic superlaws and the former adhering to historically grounded ones Stanley argues both Marx and Engels used historical and transhistorical laws at various times He is highly critical of those who abstract theoretical principles out of texts Marx wrote with specific and historical political goals in mind He takes issue as well with critics who posit a Marxian belief in communism as against natural needs and further challenges the new orthodoxy in his analysis of Marx's dissertation showing that from the beginning Marx's thought was grounded in materialist determinism Supplementing the chapters on Marx and his critics the volume concludes with an essay on Georges Sorel's approach to textual analysis and interpretation showing how Sorel far in advance of his time realized the impossibility of completely objective analysis and the inevitable distortion of the subject under study Throughout this volume Stanley's critical approach utilizes Sorel's illuminating insights to point out the distortions in modern Marxian analysis Challenging and original *Mainlining Marx* is a major contribution to the study of Marxism It will be read by economists political scientists and intellectual historians John L Stanley 1937-1998 was professor of political science at the University of California at Riverside He was the author of *The Sociology of Virtue* *The Political and Social Theories of Georges Sorel* and the translator and editor of *The Illusions of Progress* by Georges Sorel and *From Georges Sorel Essays in Socialism and Philosophy*      *Marxism* Catherine Paradeise, 2022-01-19 This volume which initially appeared in 1970 constitutes a major set of statements by leading social scientists historians and philosophers to explain the continuing impact of Marxism 150 years after its emergence The second edition is graced with a stunning new 50 page essay by the editor on the Asiatic mode of production what has been called the Achilles heel of Marxism by some and its limiting case by others *Marxism The Inner Dialogues* covers a wide range of basic issues and problems arising from what has been said for against and about Marxism This is a rich and systematic collection of writing by the foremost authorities on the subject in the world The book provides the most inclusive and lasting analysis of Marxist thought available Professor Curtis has confronted current problems in Marxist studies in the context of the classic concerns of western thought In addition to new material the book includes discussions of the meaningfulness of Marxist theory Marxist doctrine as ideology the unity or lack thereof in Marxism claims to the true

inheritance of Marx alienation in Marxist thought the ethical bases of Marxism the sociological worth of Marxist analysis the validity of the dialectic the materialist conception of history Marxism and economic analysis political theory and the proletariat socialism and state power and Marxist doctrine and modernization Marxism The Inner Dialogues with contributions from major figures such as George Lichtheim Lewis Coser T B Bottomore Daniel Bell Alasdair MacIntyre Oskar Lange Ralf Dahrendorf Seymour Martin Lipset and Robert Tucker among others provides a highly useful compendium that can be extremely valuable in courses in general political theory and the theories driving modern social movements

Marxism Michael Curtis, 1997-01-01 Marxism The Inner Dialogues covers a wide range of basic issues and problems arising from what has been said for against and about Marxism This is a rich and systematic collection of writings by the foremost authorities on the subject in the world The book provides the most inclusive and lasting analysis of Marxist thought available Curtis has confronted current problems in Marxist studies in the context of the classic concerns of Western thought

Marx, Revolution, and Social Democracy Philip J. Kain, 2023 Marx Revolution and Social Democracy argues that Marx should be understood as a social democrat In response to claims that Marx is either totalitarian utopian or not a democrat Philip J Kain presents a four fold argument concerning the relationship between Marx and social democracy that Marxian socialist society is compatible with a market economy as long as markets are controlled to eliminate alienation that markets can be controlled democratically that Marx accepted a democratic electoral theory of revolution and that Marx and Engels worked actively with the Social Democratic Party of Germany **Marx and We** Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **Marxism and the**

**Philosophy of Language** V. N. Voloshinov, 1986 V N Volosinov's important work first published in Russian in 1929 had to wait a generation for recognition This first paperback edition of the English translation will be capital for literary theorists philosophers linguists psychologists and many others Volosinov is out to undo the old disciplinary boundaries between linguistics rhetoric and poetics in order to construct a new kind of field semiotics or textual theory Ladislav Matejka and I R Titunik have provided a new preface to discuss Volosinov in relation to the great resurgence of interest in all the writing of the circle of Mikhail Bakhtin **The Information Nexus** Steven G. Marks, 2016-07-25 Capitalism is central to our

understanding of contemporary economic and political life and yet what does it really mean If as has now been shown to be the case capital and property rights existed in pre modern and pre capitalist societies what is left of our understanding of

capitalism Steven G Marks provocative new book calls into question everything we thought we knew about capitalism from the word's very origins and development to the drivers of Western economic growth Ranging from the Middle Ages to the present *The Information Nexus* reveals that the truly distinctive feature of capitalism is business's drive to acquire and analyze information supported by governments that allow unfettered access to public data This new interpretation of capitalism helps to explain the rise of the West puts our current information age into historical perspective and provides a benchmark for the comparative assessment of economic systems in today's globalized environment Ibss: Political Science: 1997 British Library of Political and Economic Science,1999-01-14 Provides an unrivalled overview of intellectual development in political science *Asianism and the Politics of Regional Consciousness in Singapore* Leong Yew,2013-11-20 Over the last two decades Singapore has undergone a substantial degree of Asianization Apart from participating in the Asian values debate of the 1990s re-visioning itself as New Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts However even in recent times Singapore continues to vacillate ambivalently between identifying with and differentiating itself from Asia Responding to the challenges Singapore faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore's mainstream discourse on Asia Indeed it argues that its legacy as a colonial port city the exigencies of managing the post independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism Taking a thoroughly interdisciplinary approach that spans history cultural studies postcolonialism and cultural geography Leong Yew reveals how Asia has been used to narrate Singapore's beginnings revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification This book will be welcomed by students and scholars working across a range of fields including Asian culture and society Asian politics cultural theory and postcolonial studies Global Inequalities Beyond Occidentalism Manuela Boatcă,2016-04-22 Based on theoretical developments in research on world systems analysis transnational migration postcolonial and decolonial perspectives whilst considering continuities of inequality patterns in the context of colonial and postcolonial realities *Global Inequalities Beyond Occidentalism* proposes an original framework for the study of the long term reproduction of inequalities under global capitalism With attention to the critical assessment of both Marxist and Weberian perspectives this book examines the wider implications of transferring classical approaches to inequality to a twenty first century context calling for a reconceptualisation of inequality that is both theoretically informed and methodologically consistent and able to cater for the implications of shifts from national and Western structures to global structures Engaging with approaches to the study of class gender racial and ethnic inequalities at the global level this innovative work adopts a relational perspective in the study of social inequalities that is able to reveal how historical interdependencies between world regions have translated as processes of inequality production and reproduction As such it

will be of interest to scholars of sociology political and social theory and anthropology concerned with questions of globalisation and inequality "Weltbeziehung" Bettina Hollstein,Hartmut Rosa,Jörg Rüpke,2023-08-31 Die Soziologie der Weltbeziehungen untersucht wie Menschen sich in der Welt verorten und mit ihr in Verbindung treten Auf welche Weise dieser Ansatz für unterschiedliche Disziplinen fruchtbar gemacht werden kann zeigt dieser Band Dabei widmen sich die Autorinnen einer Analyse grundlegender Konzepte der westlichen Moderne etwa den Praktiken des Teilens und Tauschens Darüber hinaus eröffnen sie eine historisch sowie global vergleichende Perspektive anhand vielfältiger Themen etwa dem Verständnis von Markt und Eigentum in China oder der Dekolonisierung von Forschung in Indien Hieran anschließend formulieren sie konkrete Vorschläge zu einer Neuausrichtung der Sozial und Kulturwissenschaften <https://creativecommons.org/licenses/by-sa/4.0/>

**Regime Change** Patrick J. Deneen,2023-06-06 From Notre Dame professor and author of *Why Liberalism Failed* comes a provocative call for replacing the tyranny of the self-serving liberal elite with conservative leaders aligned with the interests of the working class Classical liberalism promised to overthrow the old aristocracy creating an order in which individuals could create their own identities and futures To some extent it did but it has also demolished the traditions and institutions that nourished ordinary people and created a new and exploitative ruling class This class's economic libertarianism progressive values and technocratic commitments have led them to rule for the benefit of the few at the expense of the many precipitating our current political crises In *Regime Change* Patrick Deneen proposes a bold plan for replacing the liberal elite and the ideology that created and empowered them Grass roots populist efforts to destroy the ruling class altogether are naive what's needed is the strategic formation of a new elite devoted to a pre-postmodern conservatism and aligned with the interest of the many Their top-down efforts to form a new governing philosophy ethos and class could transform our broken regime from one that serves only the so-called meritocrats Drawing on the oldest lessons of the western tradition but recognizing the changed conditions that arise in liberal modernity Deneen offers a roadmap for these changes offering hope for progress after progress and liberty after liberalism

**Key Concepts in Philosophy** Paddy McQueen,2010-07-14 An accessible account of philosophical concepts theories and key thinkers with an emphasis on recent developments in the field Containing over 300 entries the terms are ordered alphabetically and cross-referenced for ease of use Suggestions for further reading follow the explanations encouraging further reflection and independent learning

**The Sociology-philosophy Connection** Mario Bunge,2017-07-12 Most social scientists and philosophers claim that sociology and philosophy are disjoint fields of inquiry Some have wondered how to trace the precise boundary between them Mario Bunge argues that the two fields are so entangled with one another that no demarcation is possible or indeed desirable In fact sociological research has demonstrably philosophical pre-suppositions In turn some findings of sociology are bound to correct or enrich the philosophical theories that deal with the world our knowledge of it or the ways of acting upon it While Bunge's thesis would hardly have shocked Mill Marx Durkheim or Weber it is alien to the current sociological mainstream

and dominant philosophical schools Bunge demonstrates that philosophical problematics arise in social science research A fertile philosophy of social science unearths critical presuppositions analyzes key concepts refines effective research strategies crafts coherent and realistic syntheses and identifies important new problems Bunge examines Marx's and Durkheim's thesis that social facts are as objective as physical facts the so called Thomas theorem that refutes the behaviorist thesis that social agents react to social stimuli rather than to the way we perceive them and Merton's thesis on the ethos of basic science which shows that science and morality are intertwined He considers selected philosophical problems raised by contemporary social studies and argues forcefully against tolerance of shabby work in academic social science and philosophy alike

**The Final Keystone** John Kevin Crowley, 2021-03-04 The Final Keystone By John Kevin Crowley Every case in the history of Jurisprudence involves three things Trust Betrayal and Accountability Through his education studies and observations and experiences author John Kevin Crowley has learned the interconnection of history law philosophy and religion with the human condition How that relationship has played out in human history leading to present day is a focus of The Final Keystone This treatise is the story of us and the source of the lessons left unlearned It is a reminder of what does not work and how what does work must be ever vigilantly guarded

**The Shi'ites of Lebanon** Rula Jurdi Abisaab, Malek Abisaab, 2014-12-09 The complex history of Lebanese Shi'ites has traditionally been portrayed as rooted in religious and sectarian forces The Abisaabs uncover a more nuanced account in which colonialism the modern state social class and provincial politics profoundly shaped Shi'i society The authors trace the sociopolitical economic and intellectual transformation of the Shi'ites of Lebanon from 1920 during the French colonial period until the late twentieth century They shed light on the relationship of contemporary Islamic militancy with traditions of religious modernism and leftism in both Lebanon and Iraq Analyzing the interaction between sacred and secular features of modern Shi'ite society the authors clearly follow the group's turn toward religious revolution and away from secular activism This book transforms our understanding of twentieth century Lebanese history and demonstrates how the rise of Hizbullah was conditioned by Shi'ites consistent marginalization and neglect by the Lebanese state

*Dialogues of Paul Tillich* Mary Ann Stenger, Ronald H. Stone, 2002 The broad impact of Paul Tillich on present day philosophical theological thoughtforms especially of Protestant Christianity continues unabated into the new century Dialogues of Paul Tillich presents Tillich's conversations with past religious thinkers basic to Tillich's thought but also carries the dialogue beyond Tillich's own formulations into conversations with current issues regarding feminism liberation theology fundamentalism world religions and Christian realism
