Property in Social Continuity Franz von Benda-Beckmann, 2013-11-11 Learn the laws of inheritance and teach them to the people for they are one half of useful knowledge t 1ohannned Fyze 1955 329 When the prophet created this aphorism he had in mind the rules of inheritance law revealed to him by Allah We could apply it to social anthropology as well since the inheritance of property and the succession to positions of socio political authority are among the most important elements of social organization They are the vehicles of continuity which maintain property and authority through time In many societies and particularly in those generally studied by anthropologists inheritance and succession are closely interconnected with kinship and descent and provide the economic and political substance for the existence and continuity of kinship or descent based social groups They are as it were the flesh on the bare bones of kinship relations The importance of inheritance has of course not escaped the notice of social and legal anthropologists and in recent years several studies have ably demonstrated the point Radcliffe Brown 1952 Goodenough 1951 Leach 1961 b Goody 1962 Lloyd 1962 Gray and Gulliver eds 1964 Derrett ed 1965 Gluckman 1972 Moore 1969 Burling 1974 Yet in general property and inheritance have rather been treated as an appendix to economic and kinship studies

Marx's Ghost Thomas C. Patterson, 2020-08-06 How did our current society come into being and how is it similar to as well as different from its predecessors These key questions have transfixed archaeologists anthropologists and historians for decades and strike at the very heart of intellectual debate across a wide range of disciplines Yet scant attention has been given to the key thinkers and theoretical traditions that have shaped these debates

and the conclusions to which they have given rise This pioneering book explores the profound influence of one such thinker Karl Marx on the course of twentieth century archaeology Patterson reveals how Australian archaeologist V Gordon Childe in the late 1920s was the first to synthesize discourses from archaeologists sociologists and Marxists to produce a corpus of provocative ideas He analyzes how these ideas were received and rejected and moves on to consider such important developments as the emergence of a new archaeology in the 1960s and an explicitly Marxist strand of archaeology in the 1970s Specific attention is given to the discussion arenas of the 1990s where archaeologists of differing theoretical perspectives debated issues of historic specificity social transformation and inter regional interaction How did the debates in the 1990s pave the way for historical archaeologists to investigate the interconnections of class gender ethnicity and race In what ways did archaeologists make use of Marxist concepts such as contradiction and exploitation and how did they apply Marxist analytical categories to their work How did varying theoretical groups critique one another and how did they overturn or build upon past generational theories Marx's Ghost Conversations with Archaeologists provides an accessible guide to the theoretical arguments that have influenced the development of Anglophone archaeology from the 1930s onwards It will prove to be indispensable for archaeologists historians anthropologists and social and cultural theor

Evolutionism and Its Critics Stephen K. Sanderson, 2015-12-03 Evolutionism and Its Critics is a critical history of evolutionary theories in the social sciences and a defense of them against their many critics Sanderson deconstructs not only the wide array of social evolutionary theories but the criticisms of the antievolutionists Deconstructing evolutionary theories means laying bare their fundamental epistemological methodological conceptual and theoretical assumptions and principles Deconstructing antievolutionism means showing just where and how the critics have for the most part gone wrong But Evolutionism and Its Critics aims to reconstruct as well as deconstruct and does this by building on the shoulders of past giants of evolutionary theorizing a comprehensive evolutionary interpretation of human society based on abundant scientific and historical evidence

Marxist Perspectives in Archaeology Matthew Spriggs, 1984-02-23 Marxist theory has been an undercurrent in western social science since the late nineteenth century It came into prominence in the social sciences in the 1960s and 1970s and has had a profound effect on history sociology and anthropology This book represents an attempt to gather together Marxist perspectives in archaeology and to examine whether indeed they represent advances in archaeological theory The papers in this volume look forward to the growing use of Marxist theory by archaeologists as well as enriching archaeology as a discipline they have important implications for sociology and anthropology through the addition of a long term historical perspective This is a book primarily for undergraduates and research students and their teachers in departments of archaeology and anthropology but it should also be of interest to historians sociologists and geographers

Clarke, Ian Hodder, Glynn Llywelyn Isaac, Norman Hammond, 1981-01-29 The book will be of importance for archaeologists and of interest to anthropologists **Ranking, Resource and Exchange** Colin Renfrew, Steven Shennan, 1982-09-02 Ranked societies are characterized by disparities in personal status that are often accompanied by the concentration of power and authority in the hands of a few dominant individuals They stand between the sophistication of developed states and the relative simplicity of most hunter gatherer groups and early agriculturalists In some places and times they represented relatively brief phases of transition to more complex forms of organization in others they existed as stable forms of adaptation for thousands of years They are thus of great interest for archaeologists seeking to understand the dynamics of cultural evolution **British Sociology Seen from Without and Within** A H Halsey, W G Runciman, British Academy, 2005-11-24 1 Introduction W G Runciman The View from Within 2 The History of Sociology in Britain A H Halsey 3 What Should be Done About the History of Sociology Jennifer Platt 4 Sociology in Britain in the Twentieth Century Differentiation and Establishment Martin Bulmer The View from Without 5 Sociology and Social History Partnership Rivalry or Mutual Incomprehension Roderick Floud and Pat Thane 6 Not Really a View from Without the Relations of Social Anthropology and Sociology J D Y Peel 7 Demography s British History and its Relation to Sociology John Ermisch The View from Abroad 8 The View from a French Sociologist Dominique Schnapper 9 A View from Sweden Robert Erikson 10 A View from Europe Colin Crouch 11 Some General Remarks John Scott **Fourth World Conflicts** Janusz Bugajski, 2019-03-07 This study consists of a comprehensive examination of Communist policies toward rural populations and indigenous societies in a cross section of developing Third World states It explores the universal threads and national adaptations of Communist or Marxist Leninist theory and praxis **Contesting Malaysia's Integration into the World Economy** Rajah Rasiyah, Azirah Hashim, Jatswan S. Sidhu, 2021-05-15 This book brings together a set of incisive essays that interrogate Malaysian history and social relations which began during pre colonial times and extended to colonial and post colonial Malaysia It addresses economic misinterpretations of the role of markets in the way colonial industrialisation evolved the nature of exploitation of workers and the participation of local actors in shaping a wide range of socioeconomic and political processes In doing so it takes the lead from the innovative historian Shaharil Talib Robert who argued that the recrafting of history should go beyond the use of conventional methodologies and analytic techniques It is in that tradition that the

chapters offer a semblance of causality contingency contradictions and connections With that the analysis in each chapter utilises approaches appropriate for the topics chosen which include history anthropology sociology economics politics and international relations The collection of chapters also offer novel interpretations to contest and fill gaps that have not been addressed in past works The book is essential reading for history students and those interested in Malaysian history in particular

Cunningham, 2017-05-15 This volume challenges the historical materialistic non capitalist modes that are used by archaeologists as not all that useful and instead considers how social labor is organized to transform nature into culturally refined and useful resources and how this can either maintain or change a culture Rather than describe what a society is using the theoretical framework of Marx and materialism a mode of production approach explores what a society does in a more dynamic sense
