Blakeley,2012-12-06 The Soviet philosophical scene has

experienced remarkable growth since the innovations of the 50 s and the renovations of the 60 s This volume of Sovietica is intended by the editors as a finger on the pulse of the Marxist Leninist corpus philosophicum as we enter the 1970 s Published in the years between 1960 and 1970 the Filosofskaja en ciklopedija FE has replaced the Kratkij filosofskij slovar Short Philo sophic Dictionary 1939 1941 1951 and 1954 and the Filosofskij slovar Philosophic Dictionary 1963 It is an impressive work 2994 pages in five volumes I 1960 504 pp II 1962 575 pp III 1964 584 pp IV 1967 591 pp V 1970 740 pp with the editors and authors representing all the contemporary Soviet philosophers of note The FE has been extensively reviewed in Kommunist 1972 5 119 127 and in Studies in Soviet Thought beginning with SST 12 1972 4 Restrictions of space have forced us to omit much that was originally to be included The same limitations have obliged us to deviate from the initial methodological rule which was to include only complete un abridged articles in order to avoid distortion by selection Only two articles have been shortened only the basic portion of science has been included we have dropped natural science sciences on man and society and classification of sciences a total of thirteen pages in Russian this last with regret and with apologies to Professor Kedrov Aesthetic Marx Samir Gandesha,Johan F. Hartle,2017-10-19 The whole of Marx s project

confronts the narrow concerns of political philosophy by embedding it in social philosophy and a certain understanding of the aesthetic. From those of aesthetic production to the poetry of the future as Marx writes in the Eighteenth Brumaire, from the radical modernism of bourgeois development to the very idea of association which defined one of the main lines of tradition in the history of aesthetics, steady references to Dante, Shakespeare and Goethe, and the idea that bourgeois politics is nothing but a theatrical stage, the aesthetic has a prominent place in the constellation of Marx's thought. This book offers an original and challenging study of both Marx in the aesthetic and the aesthetic in Marx. It differs from previous discussions of Marxist aesthetic theory as it understands the works of Marx themselves as contributions to thinking the aesthetic. This is an engagement with Marx's aesthetic that takes into account Marx's broader sense of the aesthetic as identified by Eagleton and Buck-Morss as a question of sense perception and the body. It explores this through questions of style and substance in Marx and extends it into contemporary questions of how this legacy can be perceived or directed analytically in the present. By situating Marx in contemporary art debates, this volume speaks directly to lively interest today in the function of the aesthetic in accounts of emancipatory politics and is essential reading for researchers and academics across the fields of political philosophy, art theory and Marxist scholarship. **Marxist Hermeneutics** Richard Claypool Evans, 1979

Marxism and Art Maynard Solomon, 1979. *Marxism and Art* is a book of basic readings in Marxist criticism and aesthetics. Maynard Solomon, through his selections and critical introductions, shows connections between the arts and society, between imagination and history, and between art and revolution. He selects from thirty-six authors to reveal the range of opinion from dogma to heresy, beginning with excerpts from the works of Marx and Engels that are pertinent to an understanding of Marxist philosophy. The book traverses a wide range of subjects from the origins of art to the nature of creativity, the aesthetic experience, the dialectics of consciousness, the psychology of art, and the evolution of art forms. The sources of art in ritual, in the labor process, in the play drive, and in social conflict are explored. **Aesthetics and Marxism**

Kang Liu, 2000-03-10. Liu's study examines writers, philosophers, and political leaders in China and the West and reveals the extent to which they incorporate ideas about culture and aesthetics in their theories and practices. **The A to Z of Aesthetics** Dabney Townsend, 2010-04-01. *Aesthetics* is not a factual discipline; there are no aesthetic facts. The word itself is derived from the Greek word for feeling, and the discipline arises because of the need to find a place for the passions within epistemology, the branch of philosophy that investigates our beliefs. *Aesthetics* is more than just the study of beauty; it is a study of that which appeals to our senses, most often in connection with the classification, analysis, appreciation, and understanding of art. *The A to Z of Aesthetics* covers its history from Classical Greece to the present, including entries on non-western aesthetics. The book contains a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the main concepts, terminology, important persons, philosophers, critics, and artists, and the rules and criteria we apply in making judgments on art. By providing concise information on aesthetics, this dictionary is not only

accessible to students but it provides details and facts to specialists in the field **Marxism and Culture** Lawrence H. Schwartz, 2000-09 Marxism and Culture attempts a history of the approach to literature as practiced by the Communist Party of the United States during the 1930s It also attempts to set aside the distortion of cultural cold war which routinely labeled anything communist as tendentious and tainted **Themes in Soviet Marxist Philosophy** Thomas J. Blakeley, 1975-11-30 The Soviet philosophical scene has experienced remarkable growth since the innovations of the 50 s and the renovations of the 60 s This volume of Sovietica is intended by the editors as a finger on the pulse of the Marxist Leninist corpus philosophicum as we enter the 1970 s Published in the years between 1960 and 1970 the Filosofskaja en ciklopedija FE has replaced the Kratkij filosofskij slovar Short Philosophic Dictionary 1939 1941 1951 and 1954 and the Filosofskij slovar Philosophic Dictionary 1963 It is an impressive work 2994 pages in five volumes I 1960 504 pp II 1962 575 pp III 1964 584 pp IV 1967 591 pp V 1970 740 pp with the editors and authors representing all the contemporary Soviet philosophers of note The FE has been extensively reviewed in Kommunist 1972 5 119 127 and in Studies in Soviet Thought beginning with SST 12 1972 4 Restrictions of space have forced us to omit much that was originally to be included The same limitations have obliged us to deviate from the initial methodological rule which was to include only complete unabridged articles in order to avoid distortion by selection Only two articles have been shortened only the basic portion of science has been included we have dropped natural science sciences on man and society and classification of sciences a total of thirteen pages in Russian this last with regret and with apologies to Professor Kedrov **The Aesthetic Dimension** Herbert Marcuse, 2014-11-18 Developing a concept briefly introduced in Counterrevolution and Revolt Marcuse here addresses the shortcomings of Marxist aesthetic theory and explores a dialectical aesthetic in which art functions as the conscience of society Marcuse argues that art is the only form or expression that can take up where religion and philosophy fail and contends that aesthetics offers the last refuge for two dimensional criticism in a one dimensional society Karl Marx's Social and Political Thought Bob Jessop, Russell Wheatley, 1999 **Art and Society** Adolfo Sánchez Vázquez, 1974 Analysis of the aesthetic ideas of Karl Marx and examination of several questions vital to a Marxist aesthetic **The Philosophical Foundations of Soviet Aesthetics** Edward M. Swiderski, 2012-12-06 0 1 GENERAL DESCRIPTION OF THE PROBLEMATIC This study is devoted to an examination of a concept of crucial significance for Soviet aesthetics the concept of the aesthetic estetskoe Soviet aestheticians have for some time already been trying to design a concept of the aesthetic that would satisfy on the one hand the requirements of aesthetic phenomena and on the other hand the principles of the Marxist Leninist world view The first part of this work shows how the concept of the aesthetic has been and continues to be problematic for Soviet aestheticians This task is carried out by dwelling first of all on the controversies among Soviet aestheticians concerning meta aesthetic issues viz the nature and scope of aesthetics as well as its place among other philosophical and non philosophical disciplines A particularly clear view of the problems that have traditionally preoccupied Soviet

aestheticians is provided by an examination of what they standardly call the method of aesthetics where method is understood in the sense of an explanatory framework rather than in the strict logico scientific sense of the term This discussion will provide the occasion to pass in review the main periods of Soviet aesthetics and the characteristic aspects of each The chapter on the sources of contemporary Marxist Leninist aesthetics brings into relief the lack of a homogeneous tradition in the question of the nature of the aesthetic and other related problems

The Marxist Theory Of Art Dave Laing, 2019-07-11 This book is intended as a structured presentation of the major ideas of the most important trends of thought in the Marxist theory of art and is constructed as a map of the field of Marxist aesthetics

The Aesthetic State Josef Chytry, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytry provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytry takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller s formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytry concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytry indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989
