Marx's Capital And One Free World A Fundamental Reappraisal Of His Political Economy:

Marx's Capital and One Free World Tadao Horie,1991-01-01 **Marx's Capital and One Free World** Tadas Horie,1991-06-18 This book aims to clarify what the author believes to be the fallacy of the infallibility of Marx's Capital and Marxist ideology in general Other works by the author include Marxian Economics and Reality and The Critique of Dialectic Economics **Journal of Economic Literature** ,1992 Exporting 'Made in America' Democracy Colin S. Cavell,2002-12-28 Exporting Made In America Democracy examines the various contradictory tensions that democracy promotion produces in the context of an increasingly capitalist globalization of the world that has accelerated in the post Cold War period and into the 21st century According to the author the Cold War between the U S and the Soviet Union 1945 1991 brought the question of democracy to the forefront of modern political debate and the subsequent collapse of the Soviet model was in part a consequence of the U S projection of its own capitalist democracy as a model to be exported and emulated throughout the world Cavell argues the promise of democracy as an Enlightenment ideal has been to transcend the dichotomy of ruler and ruled by establishing self rule of the people themselves as the normative basis of governance in the modern world To the contrary the U S National Endowment for Democracy NED is promoting a market oriented democracy benefiting corporate interests which enhance U S economic and political hegemony 000000000 000000000000,0000000000 00. 000000000,1994 **Agire in comune** Luca Basso,2021-09-18T00:00:00+02:00 La posta in gioco di questo lavoro che costituisce la seconda edizione con una nuova Introduzione del testo uscito nel 2012 consiste nella coimplicazione fra individuale e collettivo in distonia rispetto sia a una lettura individualistica sia a una lettura comunitarista del percorso marxiano Il libro si sofferma per un verso sul Capitale per l'altro sugli scritti diversificati al proprio interno dell'ultima fase viene sottoposta a indagine la relazione fra concetti come individuo forza lavoro classe societ e comunit La riflessione articolata volta a evitare la dicotomia fra oggettivismo e soggettivismo attraverso un rapporto stretto ma non immediato fra la critica dell'economia politica e la politica La questione della natura umana risulta cruciale ma nello stesso tempo non viene mai definita una volta per tutte Cos in questo volume l'antropologia viene intesa non tanto come una disciplina specifica n come una parte della filosofia ma come un problema aperto insieme connesso e disgiunto con la politica Il comune irriducibile sia all'unit superiore dello Stato sia a una societ autonoma da sostituire allo Stato non un dato n pu venir creato in modo volontaristico dal momento che si iscrive materialmente nei rapporti sociali L'agire in comune non costituisce il frutto dell'ipostatizzazione di una dimensione comunitaria risultando connesso a soggettivit che si fanno carico della propria prassi singolarmente e collettivamente Senza voler in alcun modo operare un'attualizzazione immediata del suo pensiero e della sua pratica politica si delinea una prospettiva marxiana tutt'altro che lineare e pienamente compatta ma con una carica critica ancora dirompente nei confronti dello stato di cose presente di un capitalismo sempre pi predatorio

Looking to an increasingly perilous and inequitable future many progressive activists and scholars are seriously questioning the capacity of global capitalism to guarantee the conditions for human well being and sustainability in the 21st century This development inspires the central inquiry of Marxist Phoenix Will the intensifying contradictions and multiple crises of contemporary capitalism incite the emergence of a mass socialist workers movement committed not merely to the reform of capitalism but to its overthrow This collection of new and previously published essays articles and book chapters written over the last two decades makes the case for the indispensability of the Marxist socialist project to the emancipation of humanity from material insecurity and ever worsening social antagonism Only a global workers movement committed to the fundamental tenets of Marxism a triumphant Marxist Phoenix rising from the ashes of the multiple defeats of the 20th century can open the road to real social progress Interdisciplinary rigorous and critically engaged with many currents in contemporary academic discourse this volume is a timely contribution to the rebirth of a Marxist socialism that is at once scientific emancipatory and internationalist in its commitments Whitaker's Book List ,1991 **America** ,1957 The Jesuit review of faith and culture Nov 13 2017 **Evgeny Pashukanis** Michael Head,2007-09-12 A thorough examination of Pashukanis writings this book is a significant contribution to a proper assessment of Pashukanis work the value of his theoretical legacy and the contemporary relevance of Marxist legal theory Interest in the best known Soviet legal scholar Evgeny Pashukanis remains widespread and his work retains considerable relevance His writings provide a rich source of material on the Marxist theory of law and the state as well as the attempts to apply that doctrine in Soviet Russia In this book Michael Head considers Pashukanis work both within its historical context and in relation to contemporary legal theory answering a range of questions including How and why did Pashukanis emerge as the pre eminent Soviet jurist from 1924 to 1930 Why did he come under only minor criticism from 1930 to 1936 and then be denounced and executed in 1937 as a Trotskyite saboteur Why have many Western scholars generally praised the quality and originality of Pashukanis work yet also drawn the conclusion that his fate illustrates the intrinsic impossibility of the entire communist project Serving as an introduction to Pashukanis and Marxist legal theory and a timely contribution in light of the universal assault on civil liberties in the indefinite War on Terror and the constant escalation of law and order measures in Western societies this volume is an invaluable resource for those interested in jurisprudence and critical thought *Bibliographie der Wirtschaftswissenschaften* ,1992
