Marx's Concept Of Man:

Marx's Concept of Man Erich Fromm, 2013-03-26 An exploration of how Marx's ideas have been misused and misunderstood from the New York Times bestselling author of *Escape from Freedom* In the Western world and especially in the United States Karl Marx is perceived as the spiritual godfather of Lenin and Stalin someone bent on creating a state where everyone worships a centralized bureaucracy Social philosopher Erich Fromm argues that Marx has been entirely misrepresented and misunderstood and that Marx's ideas have been misappropriated to further causes antithetical to his true intentions Fromm's study presents Marx as a humanist and social scientist Painstakingly traveling through Marx's oeuvre Fromm shows how Marx's real goal was to eliminate man's alienation and allow individuals to live and appreciate a life of freedom Furthermore Fromm believes Marx would have considered the Communist governments of Russia and Cuba as wrong headed Marx's Concept of Man also includes a selection of Marx's Early Writings brought to English speaking readers for the first time in 1961 This ebook features an illustrated biography of Erich Fromm with rare images and never before seen documents from the author's estate

Individual in the Thought of Karl Marx Zhi Li, 2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx's philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx's concept of the individual with that of liberalism and between Western

and Eastern Marxism Marx's Concept of Man William Hinton,1966 **Understanding Ideology** Warren Frederick Morris,2010 Herein the reader is enabled to recognize public expressions of an ideology thereby avoiding gullibility and the consequences of ignorance Of Karl Mannheim s classic dual conception of ideology a Marxist Freudian orientation is adopted Supporting this is a critical conception of social alienation with aggressivity narcissism and socialization providing the psychological foundation for establishing any ideology Operative in ideology are the same psychically defensive mechanisms Freud found in wishful dreams neurotic repression paranoia and mythology Various forms of fallacious reasoning and propaganda sustain ideology Finally dealt with is the possibility of escaping ideology as well as its difference from science From years past Mr Morris holds the equivalent of a 1963 undergraduate degree in philosophy a 1970 MA degree in philosophy and successfully completed in 1980 a Ph D requirement in philosophical anthropology Currently retired from a federal government career and academically unaffiliated Mr Morris has Published two previous books *Escaping Alienation A Philosophy of Alienation and Dealienation* 2002 and *Emotion and Anxiety A Philosophic Inquiry* 2006 Book jacket Marx's Concept of Man Erich Fromm,1966 Karl Marx's Concept of Man and Alienation Douglas R. Marx for Today Marcello Musto,2013-09-13 Since the onset of global crisis in recent years academics and economic theorists from various political and cultural backgrounds have been drawn to Marx s analysis of the inherent instability of capitalism The rediscovery of Marx is based on his continuing capacity to explain the present In the context of what some commentators have described as a Marx renaissance the aim of this book is to make a close study of Marx s principal writings in relation to the major problems of our own society and to show why and how some of his theories constitute a precious tool for the understanding and critique of the world in the early twenty first century The book brings together varied reflections on the Marxian oeuvre drawing on different perspectives and fields and argues its case in two different parts The first will encompass such diverse areas and themes as political thought economics nationalism ethnicity post capitalist society freedom democracy emancipation and alienation showing in each case how Marx has still today an invaluable contribution to make The second presents a complete and rigorous account of the dissemination and the reception of Marx s work throughout the world in the last decade Both parts make a significant contribution to the current research on Marx and Marxisms This book was originally published as a special issue of *Socialism and Democracy* *Marx`s concept of man* ,1961 **Marx's Concept of Money** Anitra Nelson,2012-11-12 This work relates Marx s theory of money to his overall political economy and places it firmly within the wider context of his political and philosophical thought It has for some time been held that there exists an epistemological break between the early humanist and later scientific Marx However in this

ground breaking study Anitra Nelson links Marx's concept of money to his early key concepts with particular reference to alienation Structure of Marx's World-View John McMurtry, 2015-03-08 This book sets forth a clear and systematic approach to Marx's thought that finally makes possible a coherent interpretation of all of his published works Although Marx's philosophy is usually regarded as one of the most influential ever written its seeming ambiguities and contradictions have long puzzled readers By uncovering the framework that unifies the writings of Karl Marx John McMurtry has made an advance of signal importance for all areas of Marxian studies The many valuable features of Professor McMurtry's analysis include clear coordinated definitions of all concepts central to Marx's thought Closely reasoned explanations illuminate such controversial theories and positions as economic determinism ideology and the laws of society and history Here too are definitive formulations of Marx's generally neglected or denied theories of human nature technological determinism and mind plus precise delineations of his stands on traditional political and philosophical questions The author contrasts Marx's ideas with those of other important thinkers and provides a systematic survey of standard objections that refutes many of Marx's best known critics and disciples In addition Professor McMurtry offers a precise critique of the historical genesis and economic and political structures of Marxist societies Throughout direct reference to the texts and concrete illustrations explain all relevant concepts positions and issues Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Karl Marx and the World Socialist Panorama Louis Patsouras, 2022-01-26 This work on socialism and its near variants is a comprehensive study of its history from the Old Stone Age to the present employing the disciplines of history economics anthropology sociology and psychology This work features mainly the thought of Karl Marx and Fredrick Engels but it does not neglect other socialists and anarchists including Plato Pierre Joseph Proudhon Michael Bakunin Peter Kropotkin V I Lenin Thorstein Veblen Jean Paul Sartre and many others Through the work Patsouras examines prominent socialist thinkers within the world's great religions placing emphasis on Jesus of Nazareth who expressed the wishes of the oppressed poor to rid themselves of their rulers and usher in a society of equality and prosperity The work sketches the class struggles of the peasants in Europe in the late middle Ages and Early Modern Times as well as the great Taiping Rebellion in China Patsouras examines and compares socialism in the U S Western Europe Russia and China Attention is also paid to Russia the former Soviet Union and China and their socialist and near socialist systems inspired by Marx as well as the changing composition of the working classes throughout the world and their efforts to survive and prosper in a capitalist hegemony **Karl Marx in America** Andrew Hartman, 2025-05-27 The vital and untold story of Karl Marx's stamp on American life To read Karl Marx is

to contemplate a world created by capitalism People have long viewed the United States as the quintessential anti Marxist nation but Marx s ideas have inspired a wide range of people to formulate a more precise sense of the stakes of the American project Historians have highlighted the imprint made on the United States by Enlightenment thinkers such as Adam Smith John Locke and Thomas Paine but Marx is rarely considered alongside these figures Yet his ideas are the most relevant today because of capitalism s centrality to American life In Karl Marx in America historian Andrew Hartman argues that even though Karl Marx never visited America the country has been infused shaped and transformed by him Since the beginning of the Civil War Marx has been a specter in the American machine During the Gilded Age socialists read Marx as an antidote to the unchecked power of corporations In the Great Depression communists turned to Marx in hopes of transcending the destructive capitalist economy The young activists of the 1960s were inspired by Marx as they gathered to protest an overseas war Marx s influence today is evident too as Americans have become increasingly attuned to issues of inequality labor and power After decades of being pushed to the far left corner of intellectual thought Marx s ideologies have crossed over into the mainstream and are more alive than ever Working class consciousness is on the rise and as Marx argued the future of a capitalist society rests in the hands of the people who work at the point of production A valuable resource for anyone interested in Marx s influence on American political discourse Karl Marx in America is a thought provoking account of the past present and future of his philosophies in American society Marx in Context Louis Patsouras,2005-04 Since their first collaborative appearance in the mid 1840s Marx and Engels have become central players in the western intellectual tradition They have inspired two significant Communist revolutions of the 20th century the Russian and Chinese Marx in Context delineates the principal ideas of Marx and Engels as it pertains to such subjects as human exploitation alienation the sufferings of the 19 century working class in England and their human condition imperialism the women s question and religion Marx s ideas are discussed in precise detail with other socialist and conservative thinkers including classical English economist Adam Smith Thomas Robert Malthus David Ricardo anarchists Pierre Joseph Proudhon Michael Bakunin and Peter Kropotkin also included are Max Weber V I Lenin Thorstein Veblen Vilfredo Pareto William Graham Sumner Jean Paul Sartre Simone Weil Paul Tillich Carl Barth Walter Rauchenbusch Gustavo Gutierrez Harry Braverman and other significant thinkers who together help produce the necessary contrast that brings the ideas of Marx and Engels alive Being the first work to depict the similarities and differences of Marx and Engels with other prominent thinkers Marx in Context seeks to reaffirm the purpose behind their vision **Selected Works.
