**Costumers at Work: The Collaborative Creativity, Emotional Labour, and Technical Skill of Costume Creation** Madeline Taylor, 2025-06-23 *Costumers at Work: The Collaborative Creativity, Emotional Labour, and Technical Skill of Costume Creation* explores the various forms of work carried out in the costume workshop by the myriads of skilled professionals who transform ideas and sketches into the wearable costumes seen on stage. Costume work as collective collaborative and material labour produced by a predominantly female workforce has been long overlooked by the performance industry and those who study it. This book exposes the inherent tensions between theatre's strict hierarchies and collaborative ideology and how these inform the structures negotiated day to day by costumers as they carry out their work. Through close attention to their work, the book establishes costume work as collaborative and complex, a creative and emotional labour that contributes to enhanced storytelling, actor performance, and audience experience. Using extensive ethnographic observation conducted over 14 months at three professional theatre costume workshops around Australia, combined with extant interviews and research from across the globe, *Costumers at Work* provides explicit theories and guidance about the behaviours, skills, and communication modes that make costume collaboration more effective and enjoyable. This book is written for costume researchers, practitioners, and students of theatrical costume design and construction, along with theatre scholars broadly.

Darcy was to discover in the weeks and months to come that her mother had made a far greater impact on the world than either of them realized. What she didn't know was just how much that impact was yet to be felt. Anyone who reads this moving and heart-warming story will come away with a greater appreciation for those who have blessed their lives.

As in the first edition, the author examines the state of our food protection readiness. The battle plan against our food supply is examined, and a blueprint for defense is included. From the farm to the highways, readers can examine what the federal government is doing to protect our food supply, as well as study actual cases of domestic-related contamination and terrorism and identify potential targets. *Food Supply Protection and Homeland Security* presents commonsense methodologies in a straightforward but engaging manner. It was written in response to the critical needs of food production managers, agricultural managers, students, and anyone with a general interest in the security of their food supply system. Other books in the Homeland Security Series include *Energy Infrastructure and Protection* and *Homeland Security Water Infrastructure*.

**The Children's Friend** Berquin (M., Arnaud), 1788 *Descendants of Richard Cheney* R.L. Orrell, *How to Revise a True War Story* John K. Young, 2017-01-15 You can tell a true war story if you just keep on telling it Tim O'Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Viet Nam O'Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non-fictional versions of the war's defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post-publication variants in reprints *How to Revise a True War Story* is the first book-length study of O'Brien's archival papers at the University of Texas's Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O'Brien's works John K. Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published but also the versions they could have been Young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Viet Nam The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways In their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Viet Nam Perhaps in this case you can tell a true war story if you just keep on revising it
