**Mary** Peter O'Dwyer, 1988      **Mary** Peter O'Dwyer, 1988      Toward a History of Devotion to Mary in Ireland 1100-1600  
Peter O'Dwyer (O.Carm.), 1979      A History of Women in Ireland, 1500-1800 Mary O'Dowd, 2016-02-17 The first general survey of the history of women in early modern Ireland Based on an impressive range of source material it presents the results of original research into women's lives and experiences in Ireland from 1500 to 1800 This was a time of considerable change in Ireland as English colonisation religious reform and urbanisation transformed society on the island Gaelic society based on dynastic lordships and Brehon Law gave way to an anglicised and centralised form of government and an English legal system      Towards a History of Devotion to Mary in Ireland, 1100-1600 Peter O'Dwyer, 1979      **Mary for Earth and Heaven** William McLoughlin, Jill Pinnock, 2002      Irish women and the creation of modern Catholicism, 1850-1950 Cara Delay, 2019-03-26 This is the first book length study to investigate the place of lay Catholic women in modern Irish history It analyses the intersections of gender class and religion by exploring the roles that middle class working class and rural poor women played in the evolution of Irish Catholicism and thus the creation of modern Irish identities The book demonstrates that in an age of Church growth and renewal stretching from the aftermath of the Great Famine through the Free State years lay women were essential to all aspects of Catholic devotional life including both home based religion and public rituals It also reveals that women by rejecting negotiating and reworking Church dictates complicated Church and clerical authority Irish women and the creation of modern Catholicism re evaluates the relationship between the institutional Church the clergy and women positioning lay Catholic women as central actors in the making of modern Ireland      The Sources for the Early History of Ireland: an Introduction and Guide James Francis Kenney, 1929      Goodbye to Catholic Ireland Mary Kenny, 1997 En personlig skildring af 1900 tallets Irlands betydning for den historiske og samfundsmæssige udvikling      **Ireland 1170-1509, Society and History** Desmond Keenan, 2010-09-29 The history of medieval Ireland cannot be understood without some knowledge of the historical and social background Also many concepts familiar to readers in Ireland are not familiar to readers in other countries Therefore I have supposed that many readers will be coming to the subject for the first time I trust that those who are already familiar with the subject will not regard me as condescending Everyone has to start at some point It should be remembered that records were kept and history written about the activities of the chiefs and noblemen Little was written about ordinary people who formed the vast bulk of the population We have to find what we can about them indirectly for example from records of harvests kept on big estates All of western civilization is derived from what happened in the various lands and regions in Western Europe after the decline and fall of the Western Roman Empire Numerous warrior families poured across the old frontiers of the Empire and adapted themselves to the Roman way of life Usually they adopted the Latin language though in England they did not As the political and military power of Rome declined another power developed that of the Christian Church based on Rome It kept literacy

and the art of writing alive The various post Roman states were ruled by kings who depended on the Christian clergy for much of their administration and indeed for their defence This however led to prolonged disputes as to the limits of the authority of the religious and secular powers These states were then subjected to prolonged attacks by pagan peoples like the Vikings and Huns from the north the south and the east They gradually reorganised themselves to beat off the invaders Central to this organisation was the castle and the mounted knight The whole structure of society was re formed on the basis of supporting these At the same time there were attempts to get the clergy to lead lives different from those of knights and more in keeping with their religious vocation The invaders were driven off Those to the north and east accepted Christianity and developed their states on the latest western European lines Only in the south in Spain and Africa did the threat remain England a former province of the Roman Empire was taken over by various Germanic speaking families called Angles and Saxons and they at an early date accepted Christianity England suffered very heavily from the raiders from the north the Vikings but early in the 10th century succeeded in forming a unified kingdom and controlling the Vikings In the 11th century the Anglo Saxon rulers were overthrown by Normans from Normandy who introduced the feudal system of government which had grown up on the Continent Ireland though never a part of the Roman Empire had accepted Christian missionaries in the 5th century and became a Christian country It too suffered from the Viking invasions and succeeded largely in overcoming them Many of the Vikings remained in Ireland and brought many innovations to Ireland As an island beyond an island Ireland was usually the last to keep up with developments The Irish clergy began to try to adapt themselves to the standards of the new reform in Church affairs on the Continent There was a fresh irruption into Irish affairs when some of the Norman king of Englands subjects were invited to take part in a struggle between Irish chiefs and were promised grants of land in Ireland This would effectively have removed them from the authority of their feudal overlord so he too went to Ireland to assert his authority over them He received a general assent from the Norman knights the Gaelic chiefs and the Irish bishops that he would be their feudal overlord and then departed That might have been the end of the matter For various reasons it became necessary to send more knights to Ireland to maintain the peace and to assert the kings authority The knights for their part began to deve

**The Oxford History of British and Irish Catholicism, Volume V** Alana Harris, 2023-09-01 The fifth volume of The Oxford History of British Irish Catholicism covering the period from the Great War through the Second World War and the Second Vatican Council surveys the transformed ecclesial landscape between the papacies of Benedict XV and Pope Francis It explores the efforts of bishops priests and people in Ireland and Scotland Wales and England to respond to modern challenges and reintegrate the experiences and expertise of the laity into the ministry of the Church Alongside the twentieth century s designation as an era of technological innovation war peace globalization decolonization and liberation this period has also been designated the People s Century Viewed through the lens of the Catholic church in Britain and Ireland these same dynamics are explored within thematic synoptic chapters by leading scholars As a century characterized

by the rise or better renewal of the apostolate of the laity this edited collection traces the struggles to reconcile tradition re evaluate hierarchical authority adapt to social and educational mobility as well as to adjudicate serious challenges from outside and within including inflammatory biopolitics and clerical sexual abuse to religious belief and the legitimacy of the Church as an institution Hail Mary? Maurice Hamington,2014-04-23 Hail Mary examines the sexist and misogynist themes that underlie the socially constructed religious imagery of Mary the mother of Jesus Maurice Hamington explores the sources for three prominent Marian images Mary as the the blessed Virgin Mary the Mediatrix and Mary the second Eve Hamington critiques these images for the valorization of sexist forces with the Catholic Church that serve to maintain systems of oppression against women In challenging dominant religious representations of Mary Hamington surveys a variety of emerging reinterpretations of Mary He then provides a framework for further study of non alienating images of Mary

**An Illustrated History of Ireland** Mary-Frances Cusack,Mary Francis Cusack,1868 *Ireland 1509 to 1603, Society and History* Desmond Keenan,2012-01-23 This book presents a picture of Ireland in Tudor times between 1509 and 1603 It deals with Europe in the sixteenth century England Irish Society and Irish history of that period This enables the reader to place Tudor Ireland in it proper context The traditional distortions of nationalist propaganda are weeded out Eighteenth Century Ireland 1703-1800 Society and History Desmond Keenan,2014-11-12 This book presents a picture of Ireland in the 18th century from 1702 to 1800 the era of the so called Protestant Ascendancy and the Penal Laws It deals with Irish Society and Irish history of that period Every effort has been made to remove the traditional distortions of Catholic nationalist propaganda Irish Protestants are regarded as Irishmen and their achievements are regarded as Irish achievements The darker sides of the period are not ignored **The Arma Christi in Medieval and Early Modern Material Culture** Lisa H. Cooper,Andrea Denny-Brown,2016-12-05 The Arma Christi the cluster of objects associated with Christ s Passion was one of the most familiar iconographic devices of European medieval and early modern culture From the weapons used to torment and sacrifice the body of Christ sprang a reliquary tradition that produced active and contemplative devotional practices complex literary narratives intense lyric poems striking visual images and innovative architectural ornament This collection displays the fascinating range of intellectual possibilities generated by representations of these medieval objects and through the interdisciplinary collaboration of its contributors produces a fresh view of the multiple intersections of the spiritual and the material in the Middle Ages and Renaissance It also includes a new and authoritative critical edition of the Middle English Arma Christi poem known as O Vernicle that takes account of all twenty surviving manuscripts The book opens with a substantial introduction that surveys previous scholarship and situates the Arma in their historical and aesthetic contexts The ten essays that follow explore representative examples of the instruments of the Passion across a broad swath of history from some of their earliest formulations in late antiquity to their reformulations in early modern Europe Together they offer the first large scale attempt to understand the arma Christi as a unique cultural phenomenon of its own one that resonated

across centuries in multiple languages genres and media The collection directs particular attention to this array of implements as an example of the potency afforded material objects in medieval and early modern culture from the glittering nails of the Old English poem *Elene* to the coins of the Middle English poem *Sir Penny* from garments and dice on Irish tomb sculptures to lanterns and ladders in Hieronymus Bosch's panel painting of St Christopher and from the altar of the Sistine Chapel to the printed prayer books of the Reformation

**The Oxford History of British and Irish Catholicism, Volume IV** Carmen M. Mangion, Susan O'Brien, 2023-09-01 After 1830 Catholicism in Britain and Ireland was practised and experienced within an increasingly secure Church that was able to build a national presence and public identity With the passage of the Catholic Relief Act Catholic Emancipation in 1829 came civil rights for the United Kingdom's Catholics which in turn gave Catholic organisations the opportunity to carve out a place in civil society within Britain and its empire This Catholic revival saw both a strengthening of central authority structures in Rome creating a more unified transnational spiritual empire with the person of the Pope as its centre and a reinvigoration at the local and popular level through intensified sacramental devotional and communal practices After the 1840s Catholics in Britain and Ireland not only had much in common as a consequence of the Church's global drive for renewal but the development of a shared Catholic culture across the two islands was deepened by the large scale migration from Ireland to many parts of Britain following the Great Famine of 1845 Yet at the same time as this push towards a degree of unity and uniformity occurred there were forces which powerfully differentiated Catholicism on either side of the Irish Sea Four very different religious configurations of religious majorities and minorities had evolved since the sixteenth century Reformation in England Ireland Scotland and Wales Each had its own dynamic of faith and national identity and Catholicism had played a vital role in all of them either as other or in the case of Ireland as the majority's self Identities of religion nation and empire and the intersection between them lie at the heart of this volume They are unpacked in detail in thematic chapters which explore the shared Catholic identity that was built between 1830 and 1913 and the ways in which that identity was differentiated by social class gender and above all nation Taken together these chapters show how Catholicism was integral to the history of the United Kingdom in this period

**Ireland 1603-1702, Society and History** Desmond Keenan, 2013 This book deals with Irish society and history at a turning point At the beginning of the sixteenth century Irish society was just what it always had been from time immemorial It was not a state but a collection of warring states Even that statement is not quite accurate for there were warring statelets within the warring states The attempts by the kings of England from the twelfth century onwards to impose law and order had been little more successful than the attempts of various Irish chiefs before them to establish a single kingdom in Ireland Yet the endeavours of the English kings were not without some improvements They managed chiefly in the eastern half of the island to bring in improvements By the end of the 16th century a Government had been established with a system of central administration based on Dublin and local government and administration based on shires or counties under sheriffs Ireland

might have developed into a centrally managed state with regular parliaments and systems of courts as the old ways were abandoned and forgotten Unfortunately a civil war broke out in England which became mirrored in Ireland In Ireland in addition the civil disputes between the king and the English Parliament were complicated by religious disputes Ireland became polarized on sectarian lines Though a peace of sorts was established after the restoration of the monarchy in 1660 the sectarian struggle broke out again at the end of the century Both sides sought the help of foreign armies and the Protestant armies proved victorious The Catholics paid the inevitable penalty This might have been confined to the history books if the Catholics largely financed from the United States in the 19th century tried to recover their dominance through political and violent means
