

NUESTRA ECONOMÍA DE CADA DÍA

ECONOMÍA APLICADA AL ALCANCE DE TODOS

Este libro está dirigido a tres grupos de lectores: Primera, los estudiantes de cualquier carrera que sin ningún conocimiento previo, se encuentran ante un primer curso de economía, que les parece árido y aburrido, quienes encontrarán aquí que no es así: la economía es súperentretenedora. Aplicando el análisis económico encontrarán respuestas a sus preguntas:

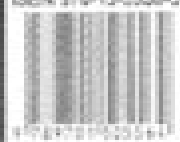

- ¿La enseñanza universitaria gratuita beneficia principalmente a los más pobres?
- ¿Es rentable eliminar completamente el crimen y la contaminación ambiental?
- Si el Gobierno fija el salario mínimo, ¿subirá o bajará la tasa de desempleo de analfabetas, lisados, muy jóvenes o demasiado viejos?

El segundo grupo de lectores ni son economistas, ni estudian para serlo, pero se cuestionan la razón o sin razón de lo que dicen los economistas. Para ellos también hay respuestas:

- ¿Por qué hay especies en peligro de extinción, mientras que vacas y pollos no?
- ¿A quién protegen los altos aranceles aduaneros?
- ¿La vida no tiene precio; su valor es infinito?
- ¿Por qué hay menos divorcios entre personas mayores?

Por último, el tercer grupo de lectores: economistas, catedráticos y profesionales, quienes, si están de acuerdo con las premisas expuestas, pueden utilizar parte o todo este material para sus cursos de economía.

Nuestra Economía De Cada Día:

Nuestra economía de cada día Ernesto R. Fontaine, Osvaldo H. Schenone, 2000 Un libro dirigido a profesionales de la economía así como a estudiantes que están iniciando en ella y piensan en el aburrimiento que les espera pero también está dirigido a lectores en general que quieren conocer cómo se aplican los conceptos de la ciencia económica en la vida diaria en nuestra economía de cada día. Todos ellos encontrarán análisis artísticos reflexiones anecdóticas y relatos escritos con humor e inteligencia sin olvidar el análisis económico y el rigor que exige esta ciencia social. Este es un panorama completo que permite visualizar problemáticas económicas y sus alternativas de solución. Encontrar respuestas a preguntas que nos hacemos cotidianamente como es verdad que la enseñanza universitaria gratuita beneficia a los más pobres o porque hay menos divorcios entre personas mayores que entre personas jóvenes o a quienes protegen los aranceles aduaneros o si el gobierno fija el salario mínimo la tasa de desempleo de los analfabetos los lisiados los muy jóvenes o muy viejos subir o bajar. Aborda mitos y realidades sobre el comercio exterior y la protección e integración económica por parte del Estado. Resumen del contenido. Precios hay en todas partes. Las dos funciones de los precios. A veces el gobierno permite que algunos precios nos engañen y otras veces el gobierno hace mentirosos a algunos precios. El objeto de estudio de la economía. Crecimiento económico. Comercio exterior. Protección e integración económica. El economista y la política. La piedra de la discordia. La distribución personal del ingreso y la pobreza.

Cervantes y la economía Miguel Ángel Galindo Martín, 2007 En este libro se cuenta con un plantel de expertos de distintas universidades que desarrollan distintos aspectos de la obra cervantina desde la perspectiva económica y social. A lo largo de los capítulos que lo componen el lector podrá darse cuenta de la riqueza de la aportación cervantina en este ámbito. A diferencia de otros literatos Cervantes consideró distintos elementos y relaciones económicos que siguen siendo actuales y de interés para el lector contemporáneo. Como es sabido Cervantes no era una persona ajena al entorno económico ya que realizó a lo largo de su vida negocios y actuó como arbitrajista. No cabe duda que en sus obras nos ofrece su visión particular del país y las circunstancias de la época en la que vivió sino que asimismo expuso las lecciones que extrajo de su propia experiencia. Junto al análisis económico también se contemplan las distintas circunstancias socioeconómicas por las que atravesaba España en la época que le tocó vivir a Cervantes lo que permite profundizar y conocer mejor las ideas expuestas en su obra. Los temas analizados por especialistas españoles y extranjeros son muy diversos: la pobreza, el consumo, el dinero, el arbitraje, la economía castellana, etc.

El poder nuestro de cada día Gabriel Salazar, 2017 Cuando las organizaciones sociales de pobladores vieron la necesidad de tener una carta de navegación histórica para participar en las asambleas populares de base que les permitiera orientar la discusión en torno a una nueva Constitución acudieron al historiador Gabriel Salazar quien les contestó con el documento que llamó Dispositivo Histórico para Asambleas Populares de Base. El texto releva el capital social acumulado, define metas sin dejar de admitir los límites y sugiere que se necesitan cambios culturales importantes para producir las transformaciones que permitan abrir un proceso constituyente.

desde la base Se ala as que este es un proceso de largo aliento y de riguroso trabajo de base siendo una etapa fundante el desarrollo del poder local y desde all paso a paso lento pero rme seguro y bien hecho cuando los ciudadanos hayan ejercitado su poder soberano se puede pensar en el nivel regional y nacional Sin duda el texto entrega muchos insumos para la re exi n y la discusi n as como para la reconstrucci n de una comunidad deliberante interesada en recuperar su poder soberano en cuanto ciudadan a e involucrada activamente en el devenir de su comunidad

Juntos estamos avanzando a gran velocidad por el carril r pido de una autopista que cruza la frontera de las creencias tradicionales las religiones y los h bitos del pasado Al hacerlo estamos consiguiendo que desaparezcan los l mites de lo que en su d a pens bamos que era imposible Estas experiencias tan importantes son nuestro pasaporte de entrada a un nuevo mundo que emerge ante nuestros ojos Entre las muchas incertidumbres que traen sin embargo hay una cosa que podemos saber con absoluta certeza nuestras vidas est n cambiando de tal manera y a tanta velocidad que no estamos preparados para ello Y el mundo que veo emerger es un mundo donde la guerra ha quedado obsoleta y donde el uso de amenazas para solventar nuestros problemas ya no tiene sentido Un mundo donde el deseo de cooperaci n es mayor que el miedo que nos conduce a la compentencia violenta Y tambi n veo un cambio en nuestra manera de pensar que hace de todo esto algo verdaderamente posible Sin embargo para lograr ese cambio antes debemos empezar a reconocer las realidades que tenemos ante nosotros as como la promesa que stas esconden Un buen punto de partida es agradecer el hecho de estar viviendo en una poca de extremos
