Nuits Magiques:

Finish Your Film! Tips and Tricks for Making an Animated Short in Maya Kenny Roy, 2014-04-29 *Finish Your Film* Tips and Tricks for Making an Animated Short in Maya is a first of its kind book that walks the reader step by step through the actual production processes of creating a 3D Short film with Maya Other books focus solely on the creative decisions of 3D Animation and broadly cover the multiple phases of animation production with no real applicable methods for readers to employ This book shows you how to successfully manage the entire Maya animation pipeline This book blends together valuable technical tips on film production and real world shortcuts in a step by step approach to make sure you do not get lost Follow along with author and director Kenny Roy as he creates a short film in front of your eyes using the exact same methods he shows you in the book Armed with this book you ll be able to charge forth into the challenge of creating a short film confident that creativity will show up on screen instead of being stifled by the labyrinth that is a 3D animation pipeline

China on Video Paola Voci, 2010-06-10 *China On Video* is the first in depth study that examines smaller screen realities and the important role they play not only in the fast changing Chinese mediascape but also more broadly in the practice of experimental and non mainstream cinema At the crossroads of several disciplines film media new media media anthropology visual arts contemporary China area studies and cultural studies this book reveals the existence of a creative humorous but also socially and politically critical China on video which locates itself outside of the intellectual discourse surrounding both auteur cinema and digital art By describing smaller screen movies moviemaking and viewing as light realities Voci points to their insignificant weight in terms of production costs distribution size profit gains intellectual or artistic ambitions but also their deep meaning in defining an alternative way of seeing and understanding the world The author proposes that lightness is a concept that can usefully be deployed to describe the moving image beyond the specificity of recent new media developments and which can in fact help us rethink previous cinematic practices in broad terms both spatially and temporally
