Gems in Experimental Mathematics Tewodros Amdeberhan,Luis A. Medina,Victor H. Moll,2010

These proceedings reflect the special session on Experimental Mathematics held January 5 2009 at the Joint Mathematics

Meetings in Washington DC as well as some papers specially solicited for this volume Experimental Mathematics is a recently

structured field of Mathematics that uses the computer and advanced computing technology as a tool to perform experiments

These include the analysis of examples testing of new ideas and the search of patterns to suggest results and to complement

existing analytical rigor The development of a broad spectrum of mathematical software products such as MathematicaR and

MapleTM has allowed mathematicians of diverse backgrounds and interests to use the computer as an essential tool as part

of their daily work environment This volume reflects a wide range of topics related to the young field of Experimental

Mathematics The use of computation varies from aiming to exclude human input in the solution of a problem to traditional

mathematical questions for which computation is a prominent tool

The Dark Side of Valuation Aswath

Damodaran,2018-04-24 The Definitive Guide to Valuing Hard to Value Companies Fully Revised for Today s Financial

Markets Valuing money making companies that have long histories and established business models is straightforward It is

when you encounter difficult to value companies that you feel the urge to go over to the dark side of valuation where you

abandon first principles and create new metrics Aswath Damodaran looks at a range of these companies from start ups in

new businesses to distressed companies from banks facing regulatory turmoil to commodity firms and from emerging market

upstarts to multinationals that spread across geographies and businesses With each grouping he helps you examine the call

of the dark side and its practices and frameworks to value these firms To answer these questions Aswath looks at companies

across the life cycle and in different markets from Uber and Shake Shack at one end of the spectrum to Vale Royal Dutch and United Technologies at the other end In the process you learn how to Deal with abnormally low and negative risk free rates in valuation Adapt to dynamic and changing risk premiums Value young companies that are disrupting existing businesses Analyze commodity and cyclical companies across cycles Value a company as the sum of its parts or as an aggregation of its users subscribers and customers Determine the difference between pricing and valuation and why some investments can only be priced
