Child Abuse, Child Exploitation, and Criminal Justice Responses Daniel G. Murphy, April G. Rasmussen, 2020-01-08

There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens through visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population Child Abuse Child Exploitation and Criminal Justice Responses is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in the field from this wonderful collaboration of criminal investigator and forensic nurse Thus providing much personal insight and demonstrating how these two areas of expertise can join forces to achieve the objective of working as a team to facilitate safeguarding children The authors also present the research on this complex yet worthy topic by identifying the unique challenges of investigating these offenses while ultimately bringing the perpetrators to justice and presenting the research from various perspectives of child abuse including both national and international issues and responses

Victimology Ann Burgess, Cheryl Regehr, Albert Roberts, 2010 Victimology Theories and Applications introduces readers to the study of victimization crime typologies and the impact of crime on victims offenders and society at large Each chapter provides a typology of the offender to analyze motivation and includes an overview of the issues related to people who become victims of a wide variety of traditional and contemporary crimes such as child maltreatment intimate partner violence elder abuse cyber crime and hate crimes The history and theories of victimology are explored as well definitive laws and policies strategies for intervention and future research areas

Forensic Nursing Quinnipiac University School of Nursing Hamden Connecticut Rita Hammer, Barbara Moynihan, PhD, APRN, BC, Elaine M. Pagliaro, Elaine M. Pagliaro, JD, MS, 2009-02-15 Developed within a holistic caring framework and well grounded in theory and research Forensic Nursing is based on the Standards of Forensic Nursing Practice developed by the International Association of Forensic Nursing A unique comprehensive reference text on forensic nursing the book provides an interdisciplinary perspective and addresses the need for collaborative practice and skill in caring for victims of violence and disaster as well as in competently assisting

in investigations **Forensic Victimology** Brent E. Turvey, 2013-08-08 Published in 2009 the first edition of Forensic Victimology introduced criminologists and criminal investigators to the idea of systematically gathering and examining victim information for the purposes of addressing investigative and forensic issues The concepts presented within immediately proved vital to social scientists researching victims offender relationships investigators and forensic scientists seeking to reconstruct events and establish the elements of a crime and criminal profilers seeking to link pattern crimes This is because the principles and guidelines in Forensic Victimology were written to serve criminal investigation and anticipate courtroom testimony As with the first this second edition of Forensic Victimology is an applied presentation of a traditionally theoretical subject written by criminal justice practitioners with years of experience both in the field and in the classroom It distinguishes the investigative and forensic aspects of applied victim study as necessary adjuncts to what has often been considered a theoretical field It then identifies the benefits of forensic victimology to casework providing clearly defined methods and those standards of practice necessary for effectively serving the criminal justice system 30% new content with new chapters on Emergency Services False Confessions and Human Trafficking Use of up to date references and case examples to demonstrate the application of forensic victimology Provides context and scope for both the investigative and forensic aspects of case examination and evidence interpretation Approaches the study of victimology from a realistic standpoint moving away from stereotypes and archetypes Useful for students and professionals working in relation to behavioral science criminology criminal justice forensic science and criminal investigation *A Community Health Approach to the Assessment of Infants and their Parents* Kevin D. Browne, Jo Douglas, Catherine Hamilton-Giachritsis, Jean Hegarty, 2006-10-02 This book is a practical guide to the CARE programme a home visiting programme that aims to assess infants growth development and psycho social transitions in their first year of life and that together with the Index of Need checklist aims to engage parents in risk assessment It provides evidence based research for the programme and gives clinical examples of how to use the assessment tools including the Index of Need and how to work with parents The authors take a partnership with parents approach throughout while bearing in mind the practical workload issues that practitioners face
