Child Nurturing in the 1980s Robert Boger,2013-11-11 Child Nurturing in the 1980s follows upon a series of lectures presented at

Michigan State University in conjunction with the university's celebration of the International Year of the Child. The chapters, although far from an inclusive set, outline childrearing perspectives, issues, and concerns relevant to the 80s and beyond. The authors have used different styles ranging from empirical review to essay. The book is designed to provide those concerned with the nurturing of children in the United States with perceptions of what is and what could be. The initial chapter by Edward Zigler sets the stage for comments related to specific areas and modalities of child nurturing concerns for the decade. Some of the chapter authors are more futuristic than others in their perspective, but all have focused upon issues judged to be focal for those concerned with the nurturing of children in this culture during this period of our history. The book is not addressed specifically to those who would set policy or those who would implement it. Rather, it is hoped that it can be read with benefit by a wide range of individuals including but not limited to parents, faculty members, child care workers, and child agency personnel. The editors wish to extend our appreciation to many individuals who made this effort possible. Funding of the IYC program was provided through the International Year of the Child Committee under the most able leadership of Andrew D. Hunt, M.D.

Exploring and Engaging Spirituality for Today's Children La Verne Tolbert, 2014-05-19

Exploring and Engaging Spirituality for Today's Children: A Holistic Approach answers questions about the most effective ways to help children, pre-teens, and teens develop spiritually. This collection of research gleaned from presentations during the Fourth Triennial Children's Spirituality Conference at Concordia University in 2012 is divided into four major sections: 1. theological and historical foundations; 2. engaging parents and congregations; 3. engaging methodologies; and 4. exploring children at risk, child pornography, social justice, intercultural diversity, and abstinence education. Researchers acknowledge that the home is the foundation for Christian nurture. In *Exploring and Engaging Spirituality for Today's Children*, both scholars and ministry leaders come together with parents to promote a holistic environment where children are encouraged to love, respect, and obey God. From birth to high school, children's voices resonate throughout these studies as they are invited to share their reflections and experiences. *Exploring and Engaging Spirituality for Today's Children* is a lively, easy-to-read collection that reflects a broad range of faith traditions and is ideal for all those who are committed to the spiritual development of children.
