Division of Cancer Research Resources and Centers,1979 *Cancer and Nutrition* J. Mason,G. Nitenberg,2000-07 Estimates suggest that approximately 35% of cancers are a consequence of suboptimal diet In this publication epidemiologists basic scientists and clinicians review both the epidemiology and mechanistic aspects of nutrition in the prevention of lung breast colorectal and prostate cancer Moreover an update on the status of the European EPIC study is given Protein calorie malnutrition of a clinically significant degree is common among cancer patients and contributes significantly to both morbidity and mortality Besides causing death solely from progressive cachexia malnutrition leads to diminished cardiac performance an increased susceptibility to infection and a diminished response to chemotherapy Reversing or even attenuating this cachexia is an extremely problematic issue Topics covered here include mechanisms by which malnutrition evolves in cancer patients animal models of cancer wasting controversial nutritional interventions in cancer patients and nutritional support in pediatric patients and bone marrow transplantation It has become clear that nutritional oncology must be regarded as a part of oncology and that it should be integrated with genetics and molecular biology in the care of the cancer patient This book will appeal to a wide spectrum of professionals concerned with the prevention and treatment of cancer especially clinical and basic researchers

and clinicians **Fear Cancer No More** Mauris L. Emeka, 2002 Fear Cancer No More is a well documented self help book explaining the nature of cancer at the cellular level It explains that a plant based diet along with exercise introduces crucial enzymes and oxygen into the body and this creates an environment in which cancer cells cannot survive Indexed illustrated and written in layman s language this book takes a close look at why healthy cells become cancerous and more importantly what can be done about it in terms of diet and lifestyle Fear Cancer No More is a must read for those seeking to take greater responsibility for their own health See www.cancernomore.com
