Smolin,2005-02-21 Nutrition Everyday Choices provides students with the decision making skills needed throughout their  
lifespan to navigate the myriad of choices they will face in promoting their good health and in preventing disease A critical  
thinking approach and a solid underpinning of the process of science empowers students to be knowledgeable consumers  
when faced with diverse information about emerging diseases such a SARS biotech foods and gene therapy As students apply  
the thought processes and decision making skills learned throughout the course they come to understand that there are not  
good foods and bad foods but rather that each choice is only part of an overall healthy diet and that it is the sum of those  
choices that determines good nutrition
