Nutritional Evaluation of Long-chain Fatty Acids in Fish Oil S. M. Barlow, 1982-01-01 *Edible Fats and Oils Processing* David R. Erickson, 1990 **Marine Biogenic Lipids, Fats and Oils** Robert George Ackman, 1989-04-30 This monograph will put the biogenic marine lipids of many organisms in perspective Up to 100 years ago fish and shellfish were frequent and major components of our western diet In search of progress and convenience we have given up many such foods in favor of those produced by agribusiness interests There are different viewpoints on the merits of the marine omega 3 fatty acids and of the terrestrial omega 6 fatty acids in human nutrition and every individual may have different needs This monograph should help researchers relate these basic building blocks of lipids in the fascinating world of marine organisms to our contemporary interest in human biochemistry nutrition and health *Marine Fisheries Review*, 1988 **Fats in Animal Nutrition** J. Wiseman, 2013-10-22 Fats in Animal Nutrition provides a useful text containing information from many diverse disciplines that discuss the nutritional utilization of lipids of domesticated animals The book is divided into seven parts Part I covers the chemistry and biochemistry of animal and plant fats and their nutritional importance Part II discusses the general principles involved in the transport and absorption of fats and how this process is facilitated in ruminant and non ruminant animals The book also deals with the role of essential fats in the nutrition of different animals as well as the protective functions of fat soluble vitamins Part IV discusses the use of fats as an energy source for animals Part V deals with the inclusion of fats in animal feeds and their uses The deposition of fat in different meats and the practical applications of fat utilization in animals are covered as well The text is recommended for agriculturists veterinarians and zoologists who would like to know more about the importance of the inclusion of fats in animal diets Modifying Lipids for Use in Food F. D. Gunstone, 2006-09-28 Oils and fats have a major impact on the nutritional and sensory quality of many foods Food manufacturers must often modify lipid components or ingredients in food to achieve the right balance of physical chemical and nutritional properties Modifying lipids for use in foods reviews the range of lipids available techniques for their modification and how they can be used in food products Part one reviews vegetable animal marine and microbial sources of lipids and their structure The second part of the book discusses the range of techniques for modifying lipids such as hydrogenation fractionation and interesterification Finally part three considers the wide range of applications of modified lipids in such areas as dairy and bakery products confectionary and frying oils With its distinguished editor and international range of contributors Modifying lipids for use in foods is a standard reference for dairy and other manufacturers using modified lipids Reviews the range of lipids available Assesses techniques for modifying lipids such as fractionation and interesterification Considers the wide range of applications of modified lipids Textbook of Perinatal Medicine Asim Kurjak, Frank A. Chervenak, 2006-09-25 Pregnancy childbirth and being a newborn are not diseases they are special periods in human life when the risk of death or disability can be very high Recognizing this the last decade has brought enormous
