The Oxford Illustrated History of World War Two Richard Overy, 2015-04-09 World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In The Oxford Illustrated History of World War Two a team of leading historians re assesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy's expert editorial guidance the contributions take us from the genesis of war through the action in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history

The Origins of World War II Keith Eubank, 2014-09-11 More than 60 years have passed since the outbreak of the most catastrophic conflict the world has known 30 million people dead and unbelievable devastation In the 3rd edition of this popular volume Keith Eubank seeks answers to the questions that have plagued us Why after the ghastly ordeal of World War I did Western powers undervalue the threat from Hitler Why was there so much reluctance on the part of Britain and France to confront Germany Why had Germany been permitted to rearm and to occupy independent

nations without a struggle What was the policy of appeasement Why did the appeasers fail to perceive Hitler s intentions In addition to a re examination of these questions and an effort to dispel the enduring myths surrounding the history of this era Keith Eubank has enhanced this new edition by including an analysis of the motivations and actions of central figures such as Neville Chamberlain and Joseph Stalin as well as a re assessment of Soviet policies in the light of recent research that reveals their leaders as far less altruistic than some have imagined With an expanded conclusion a new photo section and an updated bibliographic essay this book remains an excellent brief overview of the period between 1918 and 1939 The Origins of World War Two Robert Boyce, Joseph A. Maiolo, 2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two **The Foreign Office's War, 1939-41** Keith Neilson, 2022 Provides a forceful corrective to the idea that Britain stood alone until the invasion of the Soviet Union and the attack on Pearl Harbor brought about the Grand Alliance Based on extensive archival research the book demonstrates that 1939 to 1941 was a period of intensive diplomatic activity by the British Foreign Office designed to ensure that Britain s potential enemies especially Soviet Russia Italy and Japan remained neutral and that its most desirable potential ally the United States remained as friendly as possible until it could be persuaded to join in the conflict The book highlights the importance of diplomacy towards neutrals for British policy considers the complexities of the situation tying together issues such as blockade and the disposition of British forces in various theatres explores decision making within the British government examining how the diplomatic considerations of the Foreign Office played into wider debates amongst ministers and senior civil servants and discusses the various courses towards neutrals including alternatives advocated within the Foreign Office Overall the book provides a rich highly nuanced view of British policy in this crucial period *Cambridge International AS Level: International History 1870-1939* David Williamson, Andrew Gillespie, Malcolm Surridge, George
