PERU 1965: NOTES ON A GUERRILLA EXPERIENCE

by Héctor Béjar

TRANSLATED BY WILLIAM ROSE

Héctor Béjar is a guerrilla commander who has been in Lima's San Quintín prison since 1966, when he was captured. His book describes and analyzes the Peruvian guerrilla experience and, because of the unusual abilities and qualifications of the author, represents a document of the first importance in the various areas of revolution, guerrilla warfare, and Latin American society.

Peru 1965 was the 1969 non-fiction winner of the coveted Casa de las Américas prize. This award, given annually by the famed Cuban publishing house, brought immediate international attention to Béjar's book, and it has already been issued in many languages.

Béjar sets himself the task of analyzing a political experience in which he himself was one of the main figures, but he has been careful to avoid the pitfalls of subjectivism. His comrades were exterminated by the army, and the

guerrillas acquire military strength and why they do or do not secure substantial support from the peasantry in rural areas

Militarism and Politics in Latin America Daniel Masterson, 1991-08-26 This comprehensive case study of the modern Peruvian military examines the professional development of South America's most controversial military establishment from the early 1930s to the present. Based on extensive research in Peruvian military archives and numerous interviews with active and retired members of the Peruvian armed forces, this study is placed in the context of Peruvian national politics and South American military affairs. Particular emphasis is given to the impact of France and U.S. military theory upon the Peruvian military mentality. Revolutionary politics from the Alianza Popular Revolucionaria Americana (APRA) in the 1930s to the present day's Sendero Luminoso also figure prominently. This study also explores the rationale behind General Velasco's social and economic reforms, 1968-1975, and assesses the Velasco government's legacy for contemporary Peru. For the first time, the Soviet Union's heavy involvement in Peru is examined. As the only comprehensive case study in English of the modern Peruvian military, this volume will be of interest to students and scholars of contemporary Latin America. This is a detailed historical study of the highly complex Peruvian military establishment and its place in Peruvian society. It includes a review of the 1930s, an in-depth analysis of the armed forces from the late 1930s to the first Belaunde regime, 1963-1968, the immediate antecedents of Peru's 12-year military government, 1968-1980, known as the Docenio, a preliminary overview of the Docenio and its troubled legacy, an assessment of the Sendero Luminoso Shining Path insurgency, and a critique of the armed forces' counterterrorism campaign. **Militarism and Politics in Latin America** draws extensively on Latin American and U.S. archival sources and personal interviews and includes rare photographs.

Latin America in the Era of the Cuban Revolution and Beyond Thomas C. Wright, 2025-07-10 Examining how the Cuban Revolution dictated Latin American politics and U.S. Latin American relations from the 1950s to the present, this fourth edition engages with the question: Is the Cuban Revolution dead? Fidel Castro's ascent to power and the revolution he led in Cuba not only catalyzed a wave of revolutionary activity; it also set off a wave of reaction that led to widespread military dictatorships and severe repression culminating in state terrorism. Both revolution and reaction were essentially over by 1990, and yet long-term effects of the Cuban Revolution continue to influence the modern era. **Latin America in the Era of the Cuban Revolution and Beyond** covers the events of the Cuban Revolution itself, the resulting radicalization of Latin American politics, the United States' responses to the threat of communist expansion in the region, and rural and urban guerrilla warfare that were spawned by the Cuban Revolution. It also addresses the very different but incomplete revolutions in Peru, Chile, and Nicaragua; the rise of state terrorism in response to the threat of revolution; and major developments after 1990. This fourth edition includes a new chapter with expanded coverage of women's political representation, the continued rise of authoritarianism, Mexican democratization, the Pink Tide of recent leftist governments including those of Hugo Chávez in Venezuela and Evo Morales in Bolivia, and Cuban politics in the post-Castro era. The revised edition features maps of the region as well as updated further

Politics after Violence Hillel Soifer, Alberto Vergara, 2019-01-14 Between 1980 and 1994 Peru endured a bloody internal armed conflict with some 69 000 people killed in clashes involving two insurgent movements state forces and local armed groups In 2003 a government sponsored Truth and Reconciliation Committee reported that the conflict lasted longer affected broader swaths of the national territory and inflicted higher costs in both human and economic terms than any other conflict in Peru's history Of those killed 75 percent were speakers of an indigenous language and almost 40 percent were among the poorest and most rural members of Peruvian society These unequal impacts of the violence on the Peruvian people revealed deep and historical disparities within the country This collection of original essays by leading international experts on Peruvian politics society and institutions explores the political and institutional consequences of Peru's internal armed conflict in the long 1980s The essays are grouped into sections that cover the conflict itself in historical comparative and theoretical perspectives its consequences for Peru's political institutions its effects on political parties across the ideological spectrum and its impact on public opinion and civil society This research provides the first systematic and nuanced investigation of the extent to which recent and contemporary Peruvian politics civil society and institutions have been shaped by the country's 1980s violence

My Life as a Colombian Revolutionary María Eugenia Vásquez

Perdomo, 2005 In *My Life as a Colombian Revolutionary* María Eugenia Vásquez Perdomo presents a gripping account of her experiences as a member of M 19 one of the most successful guerrilla movements in Colombia's tumultuous modern history Vásquez's remarkable story opens with her happy childhood in a middle class provincial household in which she was encouraged to be adventurous and inquisitive As an eighteen year old university student in Bogotá María Eugenia embraced radical politics and committed herself to militant action to rid her country of an abusive government Dedicated and daring Vásquez took part in some of the M 19's boldest operations in the 1970s and 1980s and became one of its leaders She was able to avoid detection for nearly twenty years in the movement because she was both clever and considered too attractive to be a guerrillera Her vivid narrative brings to life the men and women who were her comrades and conveys their anxiety and exhilaration as they carried out their actions When she tells of her love affairs with some of M 19's top leaders she cannot separate romance from camaraderie or escape a sense of impending tragedy If Vásquez gave us only a rare insider's account of youth culture and a guerrilla movement in a Latin American country this would be a book well worth reading But she also gives us an unsparing analysis of what it meant to be a woman in the movement and how much her commitment to radical politics cost her

The New Authoritarianism in Latin America David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic authoritarian model there has been growing dissatisfaction with various elements of this model In light of this dissatisfaction a group of leading economists political scientists and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman Jose Serra Robert Kaufman and Julio Coder In Part Three Guillermo O Donnell James Kurth and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism opportunities for extending the analysis to Europe and priorities for future research The book includes a glossary and an extensive bibliography

How Is World Literature Made? Gesine Müller, 2021-11-22 The debate over the concept of world literature which has been taking place with renewed intensity over the last twenty years is tightly bound up with the issues of global interconnectedness in a polycentric world Most recently critiques of globalization related conceptualizations in particular have made themselves heard to what extent is the concept of world literature too closely connected with the political and economic dynamics of globalization Such questions cannot be answered simply through theoretical debate The material side of the production of world literature must therefore be more strongly integrated into the conversation than it has been Using the example of Latin American literatures this volume demonstrates the concrete construction processes of world literature To that purpose archival materials have been analyzed here notes travel reports and correspondence between publishers and authors The Latin American examples provide particularly rich information about the processes of institutionalization in the Western world as well as new perspectives for a contemporary mapping of world literature beyond the established dynamics of canonization
