Children in the Urban Community Barbara L Mercer,Tricia Fong,Erin Rosenblatt,2015-12-22 This book illuminates the process of child psychological assessment in community psychology through discussion theory and case studies of collaborative systemic treatment of children and their parents Assessing Children in the Urban Community presents a semi structured form of collaborative psychological assessment designed to help clients gain new insights and make changes in their lives Traditional psychological assessment focuses on diagnosis and treatment but has been slow to include contextual elements particularly social and cultural contexts into the assessment process and psychological report Clients receiving services in a community psychology clinic pay for their treatment through state welfare coverage They cannot choose their providers they cannot always determine the length and course of their mental health care they often do not have access to transportation to begin services to continue them or to take advantage of follow up recommendations The Therapeutic Assessment model is particularly adaptable to community psychology because it allows maximum interaction in the assessment process and promotes participation and collaboration in an often dis empowering system This book will be relevant to clinical psychologists community psychologists social workers family therapists graduate students in psychology social work marriage and family therapists and counseling programs **International Community Psychology** Stephanie

Reich,Manuel Riemer,Isaac Prilleltensky,Maritza Montero,2007-07-03 Community psychology CP has a rich history and presence internationally that many people may not be aware of Today s increasingly global environment encourages reviewing the world wide goals and practices of CP The desire to promote collective well being clearly transcends geographical boundaries The goal of developing a global perspective and discourse between countries has been delayed by the lack of a single accessible source for information This book provides the first in depth guide to global community

psychology research and practice history and development theories and innovations presented in one field defining volume Included are contributions from countries with long histories of oppression social movements and political turmoil long time democracies and former dictatorships Fully formed CP establishments compare with fledgling ventures into the field The contributors document the complex relationships between CP and ideological currents other strands of psychology and social science cultural and historical traditions and economic developments The goals of this book are several Promote international collaboration enhance theory utilization and development identify biases and barriers in the field accrue critical mass for a discipline that is often marginalized minimize the pervasive US centric view of the field Practitioners and researchers will find in International Community Psychology new perspectives on the communities they serve As a text for advanced and graduate level courses it depicts a robust field with a legitimate mission When concepts of community and sometimes even of psychology may not always translate from one nation to the next this book provides a world of needed context
