## **Queen Of The States The Womens Press Science Fiction Series:**

Queen of the States Josephine Saxton, 1986 Science fiction roman *More Than 100 Women Science Fiction Writers* Sharon Yntema, 1988 *Chained to the Alien* Damien Broderick, 2009-01-01 This selection of the best critical articles from the well known literary magazine Australian SF Review includes essays by John Bangsund John Baxter Martin Bridgstock Jenny Blackford Russell Blackford Damien Broderick John Foyster Bruce Gillespie Yvonne Rousseau Norman Talbot Michael J Tolley George Turner and Janeen Webb discussing the fiction of Robert A Heinlein Samuel R Delany George Turner Wynne Whiteford Keith Taylor John Calvin Batchelor J R R Tolkien Joanna Russ and Josephine Saxton among others Complete with Introduction Selected Bibliography and Index *The Hidden Side of the Moon* Joanna Russ, 1989 St. James Guide to Science Fiction Writers Jay P. Pederson, 1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts **Where No Man has Gone Before** Lucie Armitt, 2012-11-12 How do women writers use science fiction to challenge assumptions about the genre and its representations of women To what extent is the increasing number of women writing science fiction reformulating the expectations of readers and critics What has been the effect of this phenomenon upon the academic establishment and the publishing industry These are just some of the questions addressed by this collection of original essays by women writers readers and critics of the genre But the undoubted existence of a recent surge of women s interest in science fiction is by no means the full story From Mary Shelley onwards women writers have played a central role in the shaping and reshaping of this genre irrespective of its undeniably patriarchal image Through a combination of essays on the work of writers such as Doris Lessing and Ursula Le Guin with others on still neglected writers such as Katherine Burdekin and C L Moore and a wealth of contemporaries including Suzette Elgin Gwyneth Jones Maureen Duffy and Josephine Saxton this anthology takes a step towards redressing the balance Perhaps above all what this collection demonstrates is that science fiction remains as particularly well suited to the exploration of woman as alien or other in our culture today as it was with the publication of Frankenstein in 1818 *Science Fiction, Fantasy & Horror*, 1991 A comprehensive bibliography of books and short fiction published in the English language
