Sexuality and the Politics of Violence and Safety Les Moran, Beverley Skeggs, 2014-02-04 *Sexuality and the Politics of Violence* offers a timely and critical exploration of issues of safety and security at the centre of responses to violence. Through a multi-disciplinary analysis drawing on feminism, lesbian and gay studies, sociology, cultural geography, criminology and critical legal scholarship, the book offers to transform the way we understand and respond to the challenges raised by violence. It breaks new ground in its examination of the rhetoric and politics of violence, property, home, cosmopolitanism and stranger danger in the generation of safety and security. Using interviews, focus groups and surveys with lesbians and gay men, *Sexuality and the Politics of Violence* draws upon real life experiences of safety and security. It raises some fundamental challenges to the law and order politics of existing scholarship and activism on homophobic hate crime. *Unplanned Visitors* Olivier Vallerand, 2022-03-30 Sexuality and gender have long been influential in understanding the construction of domestic space, its meanings often revealing a binary division of private and public, female and male. By reconstructing the foundation of queer critiques of space and by analyzing the representation of domesticity in contemporary art and architecture, *Unplanned Visitors* shows the blurring of private and public that can occur in any domestic space and explores the potential of queer theory for understanding and designing the built environment. Olivier Vallerand investigates how queer critiques, building on pioneering feminist work, question the relation between identity and architecture and highlight normative constructs underlying domestic spaces. He draws out a genealogy of queer space in theoretical discourse in

architecture studying projects by Mark Robbins Joel Sanders J Mayer H Elmgreen Dragset Andr s Jaque and MYCKET among others These works blur the traditional borders between architecture and art to emphasize the tensions between private and public and their impact on assumptions about domestic space and family structure The challenges in moving from experimental installations to built environments suggest how designers must acknowledge and respond to the social contexts that shape architecture rethinking how domestic spaces can be designed to allow everyone to better manage the expression of their self identification through their living environments *Unplanned Visitors* poses a challenge to traditional architectural theory and history but also suggests a renewed and more inclusive ethics whereby designers explicitly address social and political power structures The potential of a queer approach to architectural design history theory and education is precisely to enact a method that creates more inclusive buildings and safer neighbourhoods for everyone
