Queer Cinema in the World Karl Schoonover, Rosalind Galt, 2016-11-17 Proposing a radical vision of cinema's queer globalism Karl Schoonover and Rosalind Galt explore how queer filmmaking intersects with international sexual cultures geopolitics and aesthetics to disrupt dominant modes of world making Whether in its exploration of queer cinematic temporality the paradox of the queer popular or the deviant ecologies of the queer pastoral Schoonover and Galt reimagine the scope of queer film studies The authors move beyond the gay art cinema canon to consider a broad range of films from Chinese lesbian drama and Swedish genderqueer documentary to Bangladeshi melodrama and Bolivian activist video Schoonover and Galt make a case for the centrality of queerness in cinema and trace how queer cinema circulates around the globe institutionally via film festivals online consumption and human rights campaigns but also affectively in the production of a queer sensorium In this account cinema creates a uniquely potent mode of queer worldliness one that disrupts normative ways of being in the world and forges revised modes of belonging

How to Queer the World Bo Ruberg, 2025-04-22 What video games teach us about building a better world What does it mean to build a world Worldbuilding is traditionally understood as an expression of storytelling across media forms Yet as video games show us worldbuilding does not necessarily need to center narrative elements Instead new worlds can allow us to reimagine existing structures conventions and constants Doing so gives us the tools to queer the world around us *How to Queer the World* argues that video games provide us with keen insight into worldbuilding With these insights come a new understanding of the ever elusive ideals of queer worldmaking Video games challenge us to address how worlds are built through underlying systems rather than surface level representation They also offer opportunities to envision alternate and

queer ways of living loving desiring and being Each of the chapters in this book presents a close reading of a video game that illustrates one way of building worlds and encoding them with meaning focusing on elements of digital media often overlooked as technical rather than cultural From the design of game mechanics and user interfaces to the use of graphics software and physics simulations Bo Ruberg argues that these aspects of video games represent a critical toolkit for seeing the work of worldbuilding differently in video games and beyond Simultaneously each of these video games models an approach to what Ruberg terms queer worldbuilding Queer worldbuilding radically remakes the world by destabilizing the fundamental logics of our own universe who we are what we can do how our bodies move and how we exist within time and space

Polish Literature as World Literature Piotr Florczyk, K. A. Wisniewski, 2022-12-15 This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States Canada Italy and of course Poland An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature Indeed the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions active participants in the global literary network and the conversations of their day The volume features views of Polish literature and culture within theories of world literature and literary systems with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact This perspective is especially important since so much of today s global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes The collection also sheds light on specific issues pertaining to Poland such as the idea of Polishness and

global phenomena including social and economic advancement as well as ecological degradation Some of the authors discussed like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czeslaw Milosz were renowned far beyond the borders of their country while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism seeing as they do in their immediate surroundings a synecdoche of the world at large Nevertheless the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters **Real**
