Quest For Self Determination:

The Quest for Self-determination Dov Ronen, 1979 Dov Ronen proposes in this interpretive essay that ethnic nationalism is simply the newest form of a basic human drive for self determination that has been manifested in four other movements since the French Revolution nineteenth century nationalism Marxist Leninist class self determination self determination for minorities as espoused by Wilson and decolonization Ronen s intention in this book is to explain what self determination is why people fight for it and what the implications of the struggle may be Though Ronen s approach is primarily analytical and philosophical he uses four cases the Scots Biafra the Palestinians and South Africa to illustrate the application of his thesis to current events **Quest** ,1987

Rules of the Game Mark R. Amstutz, 2015-12-03 Anyone interested in the forces behind globalization terrorism job outsourcing or the price of gas needs at least a fundamental understanding of international relations Using the relevant and accessible metaphor of a game *The Rules of the Game* provides an introductory explanation of international relations The book is broken into three inviting parts First it examines the basics of the international relations game by explaining the nature of the game its players its goals and its strategies Then the book looks at the rules of the game from the perspectives of politics economics law and morality The book ends with a pertinent discussion of the future of the international relations game in the context of globalization Intended for general readers this book provides a succinct jargon free framework for understanding contemporary international relations **Autonomy of Migration?** Stephan Scheel, 2019-03-20 Examining how migrants appropriate mobility in the context of biometric border controls this volume mobilises new analytics and empirics in the debates about the politics of migration and provides an analytically effective and politically significant tool for the study of contemporary migration Drawing from the tension between the EU s attempt to achieve watertight border controls by means of biometric technologies and migrants persistence to move to and live in the EU the volume pursues two interrelated objectives first it studies the encounters between migrants and the Visa Information System VIS one of the largest biometric databases in the world from the perspective of mobility in order to investigate how migrants appropriate mobility via Schengen visa within and against this biometric border regime Second it addresses criticisms of autonomy of migration in order to develop it as a viable approach for border migration and critical security studies Hence the book is driven by two interrelated research questions what does the assertion of moments of autonomy of migration refer to in the context of border regimes that use biometrics to turn migrants bodies into a means of mobility control And how do migrants appropriate mobility via Schengen visa within and against biometric border regimes This book will be of great interest to scholars in border migration and critical security studies as well as researchers engaged in citizenship studies surveillance studies political theory critical IR theory and international political sociology **A**

Postcolonial Political Theology of Care and Praxis in Ethiopia's Era of Identity Politics Rode Molla, 2022-12-15 The author argues that identity politics eliminates Ethiopians in between spaces and identities and defines in between spaces as

political social religious and geographical spaces that enable Ethiopians to co exist with equity solidarity and justice The elimination of in between spaces and in between identities creates either or class religious ethnic and gender categories Therefore the author proposes an in between theology that invites Ethiopians to a new hybrid way of being to resist fragmented and hegemonic identities The author claims that postcolonial discourse and praxis of in between pastoral care disrupts and interrogates hegemonic definitions of culture home subjectivity and identity On the other hand in between pastoral care uses embodiment belonging subjectivity and hybridity as features of care and praxis to create intercultural and intersubjective identities that can co construct and co create in between spaces In the in between spaces Ethiopians can relate with the Other with intercultural competencies to live their difference similarity hybridity and complexity *The Rise of Tamil Separatism in Sri Lanka* Gnanapala Welhengama, Nirmala Pillay, 2014-03-05 Among the examples of civil wars armed secessionist movements and minority uprisings in the world today many involve conflict between a minority group s aim for political self determination and the nation state s resistance to any diminution of sovereignty With the expansion of the international regime of human rights minority groups have reconceptualised their struggle with the understanding that a minority which is linguistically religiously or ethnically distinctive is entitled to self determination if their aspirations cannot be met This book explores the relationship between minority rights self determination and secession within international law by contextualising these issues in a detailed case study of the rise of Tamil separatism in Sri Lanka Welhengama and Pillay show how Tamil communalism hardened into secession and assess whether the Sri Lankan government has met its obligations with respect to the right to self determination short of secession Focusing on the legal and human rights arguments for secession by the Tamil community of the North and East of Sri Lanka the book demonstrates how the language of international law and international human rights played a major role in the development of the arguments for secession Through a close examination of the case of the Tamil s secessionist movement the book presents valuable insights into why modern nation states find themselves threatened by separatist claims and bids for independence based on ethnicity

Conflict: Human Needs Theory John Burton, 1990-09-25 *The Quest for Self Determination* Christopher Atang, 2007-01-01 *Negotiating Nationalism* W. J. Norman, 2006-05-25 There are at least three times as many nations as states in the world today This book addresses some of the special challenges that arise when two or more national communities re the same multinational state As a work in normative political philosophy its principal aim is to evaluate the political and institutional choices of citizens and governments in states with rival nationalist discourses and nation building projects The first chapter takes stock of a decade of intense philosophical and sociological debates about the nature of nations and nationalism Norman identifies points of consensus in these debates as well as issues that do not have to be definitively resolved in order to proceed with normative theorizing He recommends thinking of nationalism as a form of discourse a way of arguing and mobilizing support and not primarily as a belief in a principle A liberal nationalist then is someone who uses

nationalist arguments or appeals to nationalist sentiments in order to rally support for liberal policies The rest of the book is taken up with the three big political and institutional choices in multinational states First what can political actors and governments legitimately do to shape citizens national identity or identities This is the core question in the ethics of nation building or what Norman calls national engineering Second how can minority and majority national communities each be given an adequate degree of self determination including equal rights to carry out nation building projects within a democratic federal state Finally even in a world where most national minorities cannot have their own state how should the constitutions of multinational federations regulate secessionist politics within the rule of law and the ideals of democracy More than a decade after Yael Tamir's ground breaking *Liberal Nationalism* Norman finds that these three great practical and institutional questions have still rarely been addressed within a comprehensive normative theory of nationalism

The Anticolonial Transnational Erez Manela, Heather Streets-Salter, 2023-08-24 This volume is the first to explore transnational anticolonialism as a general global phenomenon that spanned the entire twentieth century Its collected essays

model both a broadening of the issues under consideration and the collaboration necessary to do justice to the scope of this vibrant field. They showcase new work by scholars who explore the anticolonial transnational in multiple geographical regions from a variety of perspectives and at many different times across the long twentieth century. Revealing that anticolonial movements everywhere in this period were invariably transnational in terms of their imaginaries, mobilities and networks, these essays also demonstrate that centering transnational connections can change our understanding of the anticolonial past. The legacies of transnational anticolonial strategies and networks fundamentally shaped the present. Together, these essays present a fresh kaleidoscopic view of the geographical, chronological and thematic possibilities of the global anticolonial transnational.

Secession in International Law Milena Sterio, 2018-08-31. Secession in International Law argues that the effective development of criteria on secession is a necessity in today's world because secessionist struggles can be analyzed through the legal lens only if we have specific legal rules to apply. Without legal rules, secessionist struggles are dominated by politics and *sui generis* approaches which validate secessionist attempts based on geo-politics and regional states' self-interest as opposed to the law. By using a truly comparative approach, Milena Sterio has developed a normative international law framework on secession which focuses on several factors to assess the legitimacy of a separatist quest.

Passion and Paradox Joan Cocks, 2009-01-10. From Kosovo to Quebec, Ireland to East Timor, nationalism has been a recurrent topic of intense debate. It has been condemned as a source of hatred and war yet embraced for stimulating community feeling and collective freedom. Joan Cocks explores the power, danger and allure of nationalism by examining its place in the thought of eight politically engaged intellectuals of the nineteenth and twentieth centuries: the antagonist of capital, Karl Marx; the critics of imperialism, Rosa Luxemburg, Hannah Arendt and Frantz Fanon; the liberal pluralist, Isaiah Berlin; the neonationalist, Tom Nairn; and the post-colonial writers, V.S. Naipaul and Edward Said. Cocks not only sheds new light on the complexities of nationalism but also reveals the tensions that have inspired and troubled intellectuals who have sought to lead lives between detached criticism and political passion. In lively conversational prose, Cocks assesses their treatment of questions such as the mythology of national identity, the right to national self-determination and the morality of nationalist violence. While ultimately critical of nationalism, she engages sympathetically even with its defenders. By illuminating the links that distinguished minds have drawn between thought and action on nationalism in politics, this stimulating work provides a rich foundation from which we ourselves might think or act more wisely when confronting a phenomenon that in fundamental and perplexing ways has shaped our world.

Nations and Nationalism Philip Spencer, Howard Wollman, 2005. Nationalism is a key area of political theory with a huge amount of literature available. This text includes both the core texts in this area and a selection of less mainstream pieces with the aim of engaging readers with contemporary debates which have reconfigured understanding of nationalism.

Human Rights in the World Community Richard Pierre Claude, 1992. *Less Than a Roar* Colonial Resistance Amelia Khatri, 2025-03-29. *Colonial Resistance*

explores how indigenous populations worldwide met the challenges of colonialism moving beyond simple narratives of domination to reveal strategies of resistance that encompassed political negotiation cultural preservation and economic adaptation The book examines how power dynamics played out in different colonial contexts and highlights the cultural resilience demonstrated by indigenous groups For example many groups strategically adapted their economies to maintain some level of independence The book argues that indigenous resistance was not a uniform response but a complex adaptive process shaped by specific historical and environmental factors Analyzing armed conflicts political negotiations and cultural revitalization movements the book demonstrates the diverse approaches taken by indigenous groups It draws on a wide range of primary and secondary sources to support its analysis providing a nuanced perspective on world history Structured in three parts the book begins by defining key concepts then examines various resistance strategies across different regions and periods such as the Zulu Wars analyzing their long term impacts By emphasizing indigenous agency and adaptability Colonial Resistance offers valuable insights for anyone interested in indigenous history colonial studies and the pursuit of social justice

Critical Rationalism, the Social Sciences and the Humanities I.C. Jarvie, N. Laor, 2013-06-29 An outstanding feature of this book is the broad range of the contributors drawn from Europe the Middle East and North America testifying both to the range of Professor Agassi's interests and the geographical spread of his influence Most contributors use Agassi's ideas as a springboard to engage in debate on issues or offer a contribution in an area that interests him In this volume contributors consider such questions as Agassi's philosophy of education in practice as well as in theory the impact of psychologism in philosophy the origins of critical rationalism in the Bible the debates in economics stimulated by the work of Popper and Agassi and many other topics Besides the special topics the reader gains some sense of the fruitfulness of critical rationalism in the hands of Agassi's friends and colleagues

State Power, Autarchy, and Political Conquest in Nigerian Federalism Kalu N. Kalu, 1955-01-01 This book shows how specific historical events and societal forces within Nigeria transcend the choices its political leaders have made to influence the course of the state's political development Kalu N. Kalu describes a variety of factors that have contributed to the challenges facing state building and political institutions in Nigeria Chief among them are the nature of interest aggregation the dynamics of conflict and the patterns of state intervention in matters dealing with secularism distributive politics economy security and autonomy Kalu succeeds in constructing a more organic concept of political development in Nigeria by creating a model based on rentier politics that captures the critical relationship between state power and economy By doing so he goes beyond current scholarship about Nigeria and demonstrates the need for a restructuring of its institutions offering insight into an enduring narrative that continues to shape Nigerian politics
