Quest For Charisma

Oh

Quest For Charisma:

The Quest for Charisma Craig R. Smith, 2000-03-30 Smith examines the major canons of classical rhetorical theory by demonstrating their influence on Christian speakers. He begins by explaining why charisma has become a misused term. He then explores why writing about charisma has been so difficult in terms of the academic prejudice in favor of objectivity and reason. He then constructs a three level definition of charisma to replace the current one. After analyzing the charisma of Jesus in terms of the three personae he developed as teacher, human and messiah, Smith argues that his power arose from this rich development of character. The textual charisma of the Gospel narrators is explored in terms of their narrative techniques and Smith then examines the concept of ethos, the use of emotion in persuasion and explicates the theories of leading existential thinkers to develop advanced notions of human responsibility and transcendent spirituality. These two notions are used to refine and improve previous definitions of charisma. Smith then establishes a matrix that crosses levels of charisma with different types of identification. This work will be of particular interest to scholars, students and researchers involved with Christianity, philosophy and persuasion. New Sacred Writing and Charisma Claudia Jetter, 2025-03-10 Mid nineteenth century America was a vibrant period marked by charismatic leaders who produced new sacred writing. This book explores the lives and works of Mormon founder Joseph Smith Jr, Methodist revivalist Phoebe Palmer and Transcendentalist Ralph Waldo Emerson, focusing on how their textual productions contributed to a diverse discourse community grappling with a perceived loss of religious authority. It identifies shared motifs and practices these modern prophets employed to establish new carriers of religious authority. Claudia Jetter examines the concept of religious authority, highlighting the dynamic ascription processes between charismatic leaders and interactive social communities within the historical context of nineteenth century America. **Charismatic Leadership** Elesä Zehndorfer, 2015-08-11 Why is charisma so crucially important to today's corporations? And how might its misuse have been responsible for bringing the world's financial system crashing to its knees? **Charismatic Leadership** The role of charisma in the global financial crisis provides a theory driven and intuitively appealing analysis of the role that charisma played in the global financial crisis of 2008. It looks at how charismatic leadership can contribute to organizational effectiveness but also considers the destructive potential of its darker side. It examines the role of charisma in fuelling investor irrationality and the endogenous instability and boom and bust cycles that characterize the markets. This book unites both academic and practitioner led approaches to produce a text that is at once stimulating and informative. Expert insights written by financial sector leaders in the View from the Markets sections alongside mini case studies and end of chapter questions enable the reader to consolidate key theoretical points covered in each chapter. It will be of interest to advanced students and scholars in the fields of leadership and organizational studies as well as professionals with a keen interest in this area. **Charismatic Leadership in Organizations** Iga Maria Lehman, 2024-09-04 History is full of examples of how the skilful use of language is a fundamental aspect of charismatic

leadership Traditionally this phenomenon has been studied focusing on oratory skills The book argues that the relationship between a leader and a follower has points of similarity to that which exists between a writer and a reader and that in each case former party is the agenda setter but satisfactory outcomes require a mutual endeavor Given that scholarly writing about management and organizations is inevitably a mix of the presentation of empirical truths and value judgements the ability to engage the reader intellectually and emotionally is critical in the successful dissemination of disciplinary knowledge and belief claims The book proposes a multi faceted construct of textual charisma which is created through the use of metaphors stories and personal accounts as well as the ancient construct of *pistis* and the contemporary notion of metadiscourse The proposed framework provides guidance for management and organization studies authors seeking to present themselves as convincing and engaging writers

On Charisma and Institution Building Max Weber, 1968-12-15 This selection from Max Weber s writings presents his variegated work from one central focus the relationship between charisma on the one hand and the process of institution

building in the major fields of the social order such as politics law economy and culture and religion on the other That the concept of charisma is crucially important for understanding the processes of institution building is implicit in Weber s own writings and the explication of this relationship is perhaps the most important challenge which Weber s work poses for modern sociology Max Weber on Charisma and Institution Building is a volume in The Heritage of Sociology a series edited by Morris Janowitz Other volumes deal with the writings of George Herbert Mead William F Ogburn Louis Wirth W I Thomas Robert E Park and the Scottish Moralists Adam Smith David Hume Adam Ferguson and others

[The Emergence of Charismatic Business Leadership](#) Richard S. Tedlow,2021-09-14 The author of Giants of Enterprise examines the evolving role of business leaders in the 21st century with essential lessons from today s trailblazers In The Emergence of Charismatic Business Leadership Harvard Business School Emeritus professor Richard S Tedlow reveals how a

handful of individuals have transformed modern day leadership making charisma essential to the role. He looks at leaders like Oprah Winfrey, Elon Musk and Steve Jobs, three pioneers who found success by innovating their management style and using their charisma to champion their vision. Through Tedlow's in-depth accounts of modern business history, we see how former outsiders attain power and influence and how charismatic leadership enables the creation of revolutionary products like the battery electric vehicle and the smart phone. But Tedlow also considers the careers of people who used their charisma to mislead, such as Jeff Skilling of Enron and Elizabeth Holmes of Theranos. In this thorough examination, Tedlow shows how charisma when combined with genuine character can get you far.

Reinventing Khomeini Daniel Brumberg, 2001-04-15

Reinventing Khomeini offers a new interpretation of the political battles that paved the way for reform in Iran. Brumberg argues that these conflicts did not result from a sudden ideological shift nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution. To the contrary, the struggle for a more democratic Iran can be traced to the revolution itself and to the contradictory agendas of the revolution's founding father, Ayatollah Ruhollah Khomeini. A complex figure, Khomeini was a fervent champion of Islam, but while he sought a Shi'ite vision of clerical rule under one Supreme Leader, he also strove to mesh that vision with an implicitly Western view of mass participatory politics. The intense magnetism and charisma of the ayatollah obscured this paradox. But reformers in Iran today, while rejecting his autocratic vision, are reviving the constitutional notions of government that he considered and even casting themselves as the bearers of his legacy. In **Reinventing Khomeini**, Brumberg proves that the ayatollah is as much the author of modern Iran as he is the symbol of its fundamentalist past.

The Challenge of Religion after Modernity Raymond L. M. Lee, Susan E.

Ackerman, 2018-05-08 This title was first published in 2003. If God has departed as Baudrillard claims, is religion still relevant? A new religious landscape is appearing in the new millennium. The middle classes, with their electronic technologies, are producing a culture of commodified images and signs that is radically transforming the religious landscape and re-enchanting the world. Ecstatic experiences pervade the reenchanted world. Both fundamentalism and the New Age movement promote the free flow of charisma, reshaping religion in unforeseen directions. Analysing the crisis of modernity, this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium. The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re-enchantment that will usher in new ideas about charisma, consciousness and spirituality. These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment.

Charisma and Fascism Antonio Costa Pinto, Roger Eatwell, Stein Ugelvik Larsen, 2014-02-25 Fascism remains a topic that fascinates both academic and general audiences This is the first book to look systematically at the leaders of fascism and related movements in the inter war era It shows how fascist leaders came to personify their movements and why the Führerprinzip was applied in all fascist organizations It also explains how fascist leadership was of a very particular kind It was almost unlimited in political discipline and required complete subordination The legitimacy was based on a very vague notion of the organic unity of the state and the people giving the leaders competence to rule without accountability to a party organization or state bodies Thus we can observe in all fascist parties movements a practical form of leadership where policies of split and rule were common in absence of principles of representation and opposition feedbacks The fascist Führer was the leader the party the ideology and when in power the state itself This book was previously published as a special issue of Totalitarian Movements and Political Religions
