Courageous Dreaming Dr. Alberto Villoldo,2009-03-01 Modern physics tells us that we re dreaming the world into being with every thought Courageous Dreaming tells us how to dream our world with power and grace The ancient shamans of the Americas understood that we re not only creating our experience of the world but are dreaming up the very nature of reality itself that is life is but a dream When you don t dream your life you have to settle for the nightmare being dreamed by others This book shows how to wake up from the collective nightmare and begin to dream a life of courage and grace a sacred dream that shamans throughout time have known and served Alberto Villoldo reveals ancient wisdom teachings that explain how to birth reality from the invisible matrix of creation and reveals how we can interact with this matrix to dream a life of peace health and abundance He shows us that courage is all that is required to create the joy we desire Wisdom of the Psyche Ginette Paris,2013-12-16 In the quest for identity and healing what belongs to the humanities and what to clinical psychology Ginette Paris uses cogent and passionate argument as well as stories from patients to teach us to accept that the human psyche seeks to destroy relationships and lives as well as to sustain them This is very hard to accept which is why so often the body has the painful and dispiriting job of showing us what our psyche refuses to see In jargon free language the

author describes her own story of taking a turn downwards and inwards in the search for a metaphorical personal death If this kind of mortality is not attended to then more literal bodily ailments and actual death itself can result Paris engages with one of the main dilemmas of contemporary psychology and psychotherapy how to integrate findings and insights from neuroscience and medicine into an approach to healing founded upon activation of the imagination At present she demonstrates what is happening is damaging to both science and imagination

Ideas of Authorship in the English and Scottish Dream Vision Laurie Atkinson, 2024 An investigation of English and Scottish dream visions written on the cusp of the Renaissance teasing out distinctive ideas of authorship which informed their design The fifteenth and sixteenth centuries have long been acknowledged as a period of profound change in ideas of authorship in which a transition from a medieval to a modern paradigm took place In England and Scotland changing approaches to Chaucer have rightly been considered as a catalyst for the elevation of English as a literary language and the birth of an English literary history There is a tendency however when moving from Chaucer's self-professed poetic followers of this time to the philological approach associated with William Caxton and the 1532 Works to pass over the literary careers of the English and Scots poets belonging to the intervening half century John Skelton William Dunbar Stephen Hawes and Gavin Douglas This volume redresses that neglect Its close and comparative readings of these poets stimulating but critically neglected dream visions and related first person narratives reveal a spectrum of ideas of authorship four distinct engagements with tradition and opportunity united by their utilisation of a particular form It regards authorship as a topic of invention a discourse for appropriation which is available to but not inevitable in late medieval and early modern writing Overall it facilitates newly focussed study of an often obscured literary historical period one with a heightened interest in the authors of the past Chaucer Lydgate Petrarch Virgil but also an increasingly acute perception of the conditions of authorship in the present

Idylls of the King Alfred, Lord Tennyson, 2012-03-05 Tennyson interprets the Arthurian myth as an epic poem tracing the birth of a king the founding fellowship and decline of the Round Table and the king's inevitable departure
