Handbook of Archaeological Methods Herbert D. G. Maschner,Christopher Chippindale,2005 The Handbook of Archaeological Methods comprises 37 articles by leading archaeologists on the key methods used by archaeologists in the field in analysis in theory building and in managing cultural resources The book is destined to become the key reference work for archaeologists and their advanced students on contemporary archaeological methods *The Attacking Ocean* Brian Fagan,2013-06-11 The past fifteen thousand years the entire span of human civilization have witnessed dramatic sea level changes which began with rapid global warming at the end of the Ice Age when coastlines were more than seven hundred feet below modern levels Over the next ten millennia the oceans climbed in fits and starts These rapid changes had little effect on those humans who experienced them partly because there were so few people on earth and also because those people were able to adjust readily to new coastlines Global sea levels stabilized about six thousand years ago except for local adjustments that caused often significant changes to places such as the Nile Delta The curve of inexorably rising seas flattened out as urban civilizations developed in Egypt Mesopotamia and South Asia The earth s population boomed quintupling from the time of Christ to the Industrial Revolution The threat from the oceans increased with our crowding along shores to live fish and trade Since 1860 the world has warmed significantly and the ocean s climb has accelerated The sea level changes are cumulative and gradual no one knows when they will end The Attacking Ocean from celebrated author Brian Fagan tells a tale of the rising complexity of the relationship between humans and the sea at their doorsteps a complexity created not by the oceans which have changed little What has changed is us and the number of us on earth

The Complete Idiot's Guide to Human Prehistory Robert J. Meier,2003 From the 3 5 million year old Lucy one of our most famous early ancestors to the rise of Homo sapiens and the spread of our species throughout the globe this guide explores everything curious readers want to know about prehistory Voyages of the Pyramid Builders Robert M. Schoch,2004-05-24

Is it a mere coincidence that pyramids are found throughout our globe Did cultures ranging across vast spaces in geography and time such as the ancient Egyptians early Bud dhists the Maya Inca Toltec and Aztec civilizations of the Americas the Celts of the British Isles and even the Mississippi Indians of pre Columbus Illinois simply dream the same dreams and envision the same structures Robert M Schoch one of the world s preeminent geologists in recasting the date of the building of the Great Sphinx believes otherwise In this dramatic and meticulously reasoned book Schoch like anthropologist Thor Heyerdahl in his classic Kon Tiki argues that ancient cultures traveled great distances by sea Indeed he believes that primeval sailors traveled from the Eastern continent primarily Southeast Asia and spread the idea of pyramids across the globe particularly to the New World of the Americas where they abounded until the days of the Conquistadors
