Questioning Foundations Truth Subjectivity And Culture:

Questioning Foundations Hugh J. Silverman, 2014-02-25 The continental tradition in philosophy has long focused its energies on the question of foundations These essays reopen conventional understandings of the classical themes on which philosophy has been based since its inception *Questioning Foundations* Hugh J. Silverman, 1993 **Cosmopolitanism without Foundations?** Tamara Caraus, Dan D. Lazear, 2015-06-10 Nu s au introdus date **Derrida and Foucault** Paul Rekret, 2017-09-20 Derrida and Foucault offers a major contribution to the interpretation of these two highly influential thinkers By tracing the moments where Derrida and Foucault's arguments converge but also where they deviate this book fundamentally recasts our understanding not only of these two philosophers but of the political more broadly Organised thematically around questions of epistemology ethics and politics this is the only work to bring Derrida and Foucault's whole oeuvres into dialogue with one another This book frames a dialogue not only between their works of the 1960s and 1970s but also their works that deal with political questions around liberalism capitalism and democracy This book offers the first substantial critical assessment of Derrida and Foucault's political work and also situates these crucial thinkers in contemporary debates in political theory *Boundary Lines* Emanuela Fornari, 2018-12-27 In this book Emanuela Fornari systematically examines the philosophical implications of postcolonial studies She considers postcolonial critique not as a school or a current of thought but rather as a multiform constellation that from the celebrated Orientalism of Edward Said to the contributions of authors like Homi Bhabha Gayatri Spivak Ranajit Guha and Dipesh Chakrabarty has called into question the assumptions that underlie key concepts in the history of philosophy Fornari addresses themes such as history and memory borders the subject and translation engaging classical authors such as Kant Hegel and Marx alongside more contemporary theorizations by authors such as Walter Benjamin Michel Foucault Jacques Derrida tienne Balibar and Jacques Rancière Losing the Sacred Ritual and Liturgy David Torevell, 2004-11-11 This book argues that the liturgical reforms initiated by the second Vatican Council may have seriously undermined contemporary Roman Catholic worship Drawing on important work by Durkheim Bauman Foucault Turner Duffy Flanagan and Pickstock David Torevell focuses on the most crucial element of Catholic worship the experience of the sacred and examines how it has been eroded since pre modern times largely due to the marginalisation of ritual expression and its consequences A devastating critique of the loss of the sacred in worship this striking interdisciplinary study is a call for revitalisation of Roman Catholic liturgy through a reform of the reform and the reclamation of the importance of the body in ritual expression Intermedialities Henk Oosterling, Ewa Plonowska Ziarek, 2012-07-10 Bringing together an international and interdisciplinary group of scholars *Intermedialities* Philosophy Arts Politics is a comprehensive collection devoted to the new field of research called intermedialities The concept of intermedialities stresses the necessity of situating philosophical and political debates on social relations in the divergent contexts of media theories avant garde artistic practices continental philosophy feminism and political theory The intermedial

approach to social relations does not focus on the shared identity but instead on the epistemological ethical and political status of inter being in between At stake here are the political analyses of new modes of being in common that transcend national boundaries the critique of the new forms of domination that accompany them and the search for new emancipatory possibilities Opening a new approach to social relations intermedialities investigates not only engagements between already constituted positions but even more the interval antagonism and differences that form and decenter these positions Consequently in opposition to the resurgence of cultural and ethnic particularisms and to the leveling of difference produced by globalization the political and ethical analysis of the in between enables a conception of community based on difference exposure and interaction with others rather than on an identification with a shared identity Investigations of in betweenness both as medium specific and between heterogeneous sites of inquiry range here from philosophical conceptuality to artistic practices from the political circulation of money and power to the operation of new technologies They inevitably invoke the crucial role of embodiment in creative thought and collective acting As a mediating instance between the psyche and society matter and spirit nature and culture and biology and technology the body is another interval forming and informed by socio linguistic relations As these com *Between Philosophy and Non-Philosophy* Donald A. Landes, Leonard Lawlor, Peter Gratton, 2016-11-01 Engages the work and career of a central figure in contemporary philosophy Hugh J Silverman was an inspiring scholar and teacher known for his work engaging and shaping phenomenology hermeneutics psychoanalysis structuralism poststructuralism and deconstruction As Professor of Philosophy and Comparative Literary and Cultural Studies at Stony Brook University State University of New York Silverman's work was marked by the between a concept he developed to think the postmodern in the space between philosophy and non philosophy In this volume leading scholars explore and extend Silverman's philosophical contributions from reflections on the notions of care time and responsibility to presentations of the practices and possibilities of deconstruction itself They provide an assessment of Silverman's life and work at the intersection of philosophy ethics and politics Intercultural Christology in John's Gospel Biju Chacko, 2022-07-19 Christology with a planetary vision blurring the boundaries and breaking the rhetoric of polarities of domination and exclusion is the need of the hour It is only by taking seriously these two dimensions intercultural and subaltern that christological articulations can be made intelligible understandable and relevant Intercultural Christology in John's Gospel unravels the intercultural intersections and subaltern dimensions of John's Christology John's Christology crossing the boundaries of traditional Messianic categories of Judaism even while echoing those traditions in an intercultural milieu and creating a hybrid space of inter by blurring the categories of above and below gives an impetus for developing such new expressions in any given subaltern context Christological articulation in John has a multidimensional orientation toward God world and life Therefore John's Christology could be termed a Christology with a planetary vision John's Gospel articulates its Christology through an intercultural route from a subaltern negotiating space The Johannine Messiah is a

subaltern Messiah and the Johannine community is a subaltern community The evangelist is not the one who collaborated with the colonizers Therefore the text cannot be treated as a colonial document as some of the postcolonial readers do Rather the evangelist resists and disrupts even while resonating with the surrounding linguistic and conceptual milieu Therefore a hermeneutical framework of intercultural resonance and subaltern subversive rhetoric is a key to unlock the Gospel Such a hermeneutical approach is a viable option in any subaltern context *Post-Foundational Political Thought* Oliver

Marchart,2007-07-06 A wide ranging overview of the emergence of post foundationalism and a survey of the work of its key contemporary exponents This book presents the first systematic coverage of the conceptual difference between politics the practice of conventional politics the political system or political forms of action and the political a much more radical aspect which cannot be restricted to the realms of institutional politics It is also the first introductory overview of post foundationalism and the tradition of left Heideggerianism the political thought of contemporary theorists who make frequent use of the idea of political difference Jean Luc Nancy Claude Lefort Alain Badiou and Ernesto Laclau After an overview of current trends in social post foundationalism and a genealogical chapter on the historical emergence of the difference between the concepts of politics and the political the work of individual theorists is presented and discussed at length Individual chapters are presented *Corporeal Generosity* Rosalyn Diprose,2012-02-01 Rosalyn Diprose contends that generosity is not just a human virtue but it is an openness to others that is critical to our existence sociality and social formation Her theory challenges the accepted model of generosity as a common character trait that guides a person to give something they possess away to others within an exchange economy This book places giving in the realm of ontology as well as the area of politics and social production as it promotes ways to foster social relations that generate sexual cultural and stylistic differences The analyses in the book theorize generosity in terms of intercorporeal relations where the self is given to others Drawing primarily on the philosophy of Nietzsche Merleau Ponty and Levinas and offering critical interpretations of feminist philosophers such as Beauvoir and Butler the author builds a politically sensitive notion of generosity

Comparative and International Education (Re)Assembled Florin D. Salajan,tavis d. jules,2022-11-03 Drawing on a post foundational approach to Deleuze and Guattari's seminal work on assemblage theory this book explores the scholarly field of comparative and international education CIE Written by a diverse collection of international scholars from Australia Ireland Italy Malaysia South Africa Sweden Switzerland the UK and the USA the chapters use the assemblage paradigm as an analytical tool to examine the continuously evolving field of CIE The theoretical chapters unpack assemblage theory and its core components whilst others draw on examples and international case studies to show how assemblage theory could be applied to future CIE research The field of CIE is prone to constant re configurations and this book casts the shaping of the field in a fresh light prompting new discussions on the field's variability and flexibility South Korean Education and Learning Excellence as a Hallyu Young Chun Kim,Jae-seong Jo,Jung-Hoon Jung,2023-08-11 This book constitutes a

sociological anthropological and curricular inquiry into the factors surrounding high academic achievement rates of students in South Korea Taking root in similar studies conducted around the exemplary nature of the Finnish education model it explores the phenomenon of success in South Korea uniquely connecting it to the scholarship and models for examining the recent shift in attention and popularity of Korean culture The authors argue that Korean education or K edu can also be studied and understood as a Hallyu and an exemplary form of education Drawing on longitudinal qualitative studies spanning over 15 years the authors advance understandings of Korean academic success beyond more generalized understandings of how Asian students learn and towards a holistic explanation for the case of Korea As such the book challenges the perception of Korean students as passive learners with a controlled learning culture and instead advocates the ways in which Korean students are leading a changing culture by utilizing all available resources and opportunities in the space of South Korea s evolving ecological system of education In addition this book provides one explanation as to how students from East Asian countries achieve such excellent academic performance A crucial exploration of the culture and growth of education systems in Asian countries this book will appeal to scholars and researchers with interests in Korean education and Korean students academic achievement as an emerging inquiry for both Korean studies and East Asian Cultural Studies In addition this book will also be informative for scholars of comparative education sociology of education educational policy and postcolonial educational research in the world

Decolonising International Law Sundhya Pahuja, 2011-09-29 The universal promise of contemporary international law has long inspired countries of the Global South to use it as an important field of contestation over global inequality Taking three central examples Sundhya Pahuja argues that this promise has been subsumed within a universal claim for a particular way of life by the idea of development As the horizon of the promised transformation and concomitant equality has receded ever further international law has legitimised an ever increasing sphere of intervention in the Third World The post war wave of decolonisation ended in the creation of the developmental nation state the claim to permanent sovereignty over natural resources in the 1950s and 1960s was transformed into the protection of foreign investors and the promotion of the rule of international law in the early 1990s has brought about the rise of the rule of law as a development strategy in the present day

Feminist Epistemology and American Pragmatism Alexandra L. Shuford, 2011-10-20 Feminist philosophy identifies tensions within mainstream theories of knowledge To create a more egalitarian epistemology solutions to these problems have been as diverse as the traditions of philosophy out of which feminists continue to emerge This book considers two equally formidable approaches theorized by Louise Antony and Lynn Hankinson Nelson The American philosopher W V O Quine locates knowledge as a branch of empirical science Shuford shows how both Antony and Nelson use Quine s naturalized epistemology to create empirically robust feminist epistemologies However Shuford argues that neither can include physical embodiment as an important epistemic variable The book argues that John Dewey s theory of inquiry extends beyond Quine s insight that knowledge must be interrogated as an empirical

matter Because Dewey insists that all aspects of experience must be subject to the experimental openness that is the hallmark of scientific reasoning Shuford concludes that physical embodiment must play an important part in knowledge claims

The Practice of Political Theory Clayton Chin, 2018-08-28 Recent political thought has grappled with a crisis in philosophical foundations how do we justify the explicit and implicit normative claims and assumptions that guide political decisions and social criticism In *The Practice of Political Theory* Clayton Chin presents a critical reconstruction of the work of Richard Rorty that intervenes in the current surge of methodological debates in political thought arguing that Rorty provides us with unrecognized tools for resolving key foundational issues Chin illustrates the significance of Rorty's thought for contemporary political thinking casting his conception of philosophy as cultural politics as a resource for new models of sociopolitical criticism He juxtaposes Rorty's pragmatism with the ontological turn illuminating them as alternative interventions in the current debate over the crisis of foundations in philosophy Chin places Rorty in dialogue with continental philosophy and those working within its legacy Focused on both important questions in pragmatist scholarship and central issues in contemporary political thought *The Practice of Political Theory* is an important response to the vexed questions of justification and pluralism
