Loanwords in the World's Languages

Martin Haspelmath, Uri Tadmor, 2009-12-22 This book is the first work to address the question of what kinds of words get borrowed in a systematic and comparative perspective It studies lexical borrowing behavior on the basis of a world wide sample of 40 languages both major languages and minor languages and both languages with heavy borrowing and languages with little lexical influence from other languages The book is the result of a five year project bringing together a unique group of specialists of many different languages and areas The introductory chapters provide a general up to date introduction to language contact at the word level as well as a presentation of the project s methodology All the chapters are based on samples of 1000 2000 words elicited by a uniform meaning list of 1460 meanings The combined database comprising over 70 000 words is published online at the same time as the book is published For each word information about loanword status is given in the database and the 40 case studies in the book describe the social and historical contact situations in detail The final chapter draws general conclusions about what kinds of words tend to get borrowed what kinds of word meanings are particularly resistant to borrowing and what kinds of social contact situations lead to what kinds of borrowing situations

Los castellanos del Perú Luis Andrade Ciudad, Sandro Sessarego, 2020-09-08 Este libro reúne contribuciones de destacados investigadores de la lingüística

hispánica para ofrecer un panorama integral de los castellanos del Perú incluidos algunos que han sido tradicionalmente objeto de discriminación como el castellano andino, el amazónico y el afroperuano. Los capítulos se concentran en diferentes variedades habladas en el Perú desde distintos enfoques teóricos y metodológicos atendiendo a su formación, su contexto social e histórico y los fenómenos de contacto que las caracterizan. De este modo, aunque el volumen tiene un foco regional muy específico, los problemas que aborda son de interés y relevancia para el estudio de otras variedades del español para el tratamiento de otros problemas derivados del contacto lingüístico y para la dialectología e historia de los castellanos latinoamericanos en general. Escrito en castellano, este volumen será de interés para estudiantes graduados en lingüística hispánica e investigadores dedicados a la dialectología, la sociolingüística y la lingüística del contacto.

The Routledge Handbook of Spanish in the Global City Andrew Lynch, 2019-08-08. The Routledge Handbook of Spanish in the Global City brings together contributions from an international team of scholars of language in society to offer a conceptual and empirical perspective on Spanish within the context of 15 major cosmopolitan cities from around the world. With a unique focus on Spanish as an international language, each chapter questions the traditional and modern notions of language, place and identity in the urban context of globalization. This collection of new perspectives on the sociology of Spanish provides an insightful and invaluable resource for students and researchers seeking to explore lesser-known areas of sociolinguistic research.

Hispanisation Thomas Stolz, Dik Bakker, Rosa Salas Palomo, 2008-08-27. Literally hundreds of languages world-wide have experienced direct or indirect Hispanisation during the heyday of the Spanish colonial empire. The number of languages which continue to borrow from Spanish on a daily basis is considerable, especially in Latin America. This volume gives the reader a better idea of the range of contact constellations in which Spanish functions as the donor language. Moreover, the contributions to this collection of articles demonstrate that it is not only possible to compare the contact-induced processes in the Hispanised languages of Austronesia and the Americas. It is emphasized that one can draw far-reaching conclusions from the presented borrowing facts for the theory of language contact in general. The volume is divided into two sections according to geographical principles: section I is devoted to contacts of Spanish in Latin America. Two contributions look at the Hispanisation of varieties of Nahuatl: Classical Nahuatl studied by Anne Jensen and modern varieties studied by Jos Antonio Flores Farfán. Martina Schrader Kniffki discusses Spanish-Zapotec contacts and their relations to language mixing and purism. Luciano Giannelli and Raoul Zamponi address the issue of Hispanisms in Kuna, a language from Panama. For South America, Jorge Gómez Rendón discusses whether or not there are constraints on lexical borrowing from Spanish into Imbabura Quichua. Suzanne Dikker studies the intertwined language Media Lengua in her attempt at redefining the notion of relexification. Section II focuses on the impact of Spanish on the languages of Austronesia and South East Asia. Steven Roger Fischer shows that the heavy Hispanisation of Rapanui is currently being reverted. Steve Pagel compares Hispanisation processes and their results in the Mariana Islands and on Rapa Nui. The second comparative study is by Patrick O'Steinkruger who reviews a

variety of Philippinian languages and their degrees of Hispanisation The attitudes of native speakers of Chamorro as to Hispanisms is the topic of the study by Rosa Salas Palomo and Thomas Stolz The volume is especially interesting for students of language contact But also scholars with a background in Romance linguistics or Hispanic philology will find the assembled articles very useful as well as Austronesianists and Amerindianists

socio linguistic scenarios Its primary goal is to expand our understanding of how native and non native varieties of Spanish co exist with other languages and dialects under the influence of several linguistic and extra linguistic forces While some papers analyze the linguistic dynamics affecting Spanish grammars from a cross dialectal perspective others focus more closely on the relations established between Spanish and other languages with which it is in contact In particular some of these studies show how power and prestige may support or not the use of Spanish in different social contexts and educational realities given that the attitudes toward this language vary greatly across the Spanish speaking world On the one hand in some regions Spanish represents the variety spoken by the majority of the population typically related to prestige and power Spain and Latin America On the other hand in other contexts the same language is conceived as a minority variety which may or may not be associated with stigmatized immigrant groups i e in the US
