The Ashgate Research Companion to Minimalist and Postminimalist Music Keith Potter, Kyle Gann, 2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy *The Ashgate Research Companion to Minimalist and Postminimalist Music* provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject

Resonant Matter Lutz Koepnick, 2020-12-10 In *Resonant Matter* Lutz Koepnick considers contemporary sound and installation art as a unique laboratory of hospitality amid inhospitable times Inspired by Ragnar Kjartansson's nine channel video installation *The Visitors* 2012 the book explores resonance the ability of objects to be affected by the vibrations of other objects as a model of art's fleeting promise to make us coexist with things strange and other In a series of nuanced readings Koepnick follows the echoes of distant unexpected and unheard sounds in twenty first century art to reflect on the attachments we pursue to sustain our lives and the walls we need to tear down to secure

possible futures The book's nine chapters approach The Visitors from ever different conceptual angles while bringing it into dialogue with the work of other artists and musicians such as Lawrence Abu Hamdan Guillermo Galindo Mischa Kuball Philipp Lachenmann Alvin Lucier Teresa Margolles Carsten Nicolai Camille Norment Susan Philipsz David Rothenberg Juliana Snapper and Tanya Tagaq With this book Koepnick situates resonance as a vital concept of contemporary art criticism and sound studies His analysis encourages us not only to expand our understanding of the role of sound in art of sound art but to attune our critical encounter with art to art's own resonant thinking **Music in the Horror Film** Neil

O'Brien, 2023-04-25 A revisionist history of minimalism's transformative rise through the voices of the musicians who created it When composers like Philip Glass and Steve Reich began creating hypnotically repetitive music in the 1960s it upended the world of American composition But minimalism was more than a classical phenomenon minimalism changed everything Its static harmonies and groovy pulses swept through the broader avant garde landscape informing the work of Yoko Ono and Brian Eno John and Alice Coltrane Pauline Oliveros and Julius Eastman and many others On Minimalism moves from the style's beginnings in psychedelic counterculture through its present day influences on ambient jazz doom metal and electronic music The editors look beyond the major figures to highlight crucial and diverse voices especially women people of color and LGBTQ musicians that have shaped the genre Featuring more than a hundred rare historical sources On Minimalism curates this history anew documenting one of the most important musical movements of our time *The Oxford Handbook of*
