Report From The Border:

India's Approach to Border Management Pushpita Das, 2022-12-29 This book attempts to provide a comprehensive understanding of the circumstances which have shaped India's approach towards its international borders and the framework it has developed to better manage its borders. The book argues that persistence of various cross border threats and challenges and an absence of robust intra regional trade among its neighbouring countries forced India to employ a security centric and unilateral approach to border management with emphasis on hardening the borders to cross border trade and travel and keeping the border areas underdeveloped to act as a buffer against external conventional threats. Besides discussing the threats and challenges that India faces along the borders, the book aims to develop an understanding of India's border management practices by analysing various programmes and initiatives such as the raising of border guarding forces, building of physical and electronic fences, the establishment of modern facilities for smoothening legitimate cross border travel, the development of the border areas through special programmes and increasing trade and connectivity as well as other cooperative bilateral mechanisms. Customs and Border Protection: Performance and Accountability Report Eugene H. Schied, 2010-08 The U.S. Customs and Border Protection CBP FY 2009 Performance and Accountability Report (PAR) is a comprehensive report that combines CBP's Annual Performance Report with its audited financial statements, assurances on internal control, accountability reporting and agency assessments. CBP's PAR provides financial and performance information that enables Congress and the public to assess the performance of the agency as it relates to the CBP mission. CBP is America's frontline border agency; it guards our boundaries. The CBP PAR discusses the agency's strategic goals and objectives and provides a comparison of agency performance targets to actual performance results. Bureau of Customs and Border Protection, 2007 **House of Commons - Home Affairs Committee: The Work of the UK Border Agency (January-March 2013) - HC 616** Great Britain: Parliament: House of Commons: Home Affairs Committee, 2013-11-08 The Border Agency backlogs by the time it was wound up had fallen to 432,000. However, most of the 70,400 reduction was achieved by simply loading pending cases onto the computer, and in some categories such as those applying for further leave to remain on the basis of marriage or civil partnership, the backlog had actually grown. The Committee has no objection in principle to the introduction of a charge for access to the National Health Service for those who are in the UK only temporarily. However, it expresses concerns about the possible application of the scheme to vulnerable people who have been trafficked into the country and recommends that the Government should pilot an alternative option for visa applicants to take out private health insurance instead. This has been a chaotic summer for immigration policy. First, we

had the controversial AdVans which were rightly ridiculed and then it was revealed that Capita had botched the contract to clear the migration refusal pool by asking British citizens to leave their own country Finally we saw a u turn on visa bonds however the uncertainty has already done damage A more effective and less menacing message would be that the Government is willing and able to support those who are here illegally to return home if they want to Tough enforcement action should be taken against those who are determined to remain here illegally but for the target audience of potential voluntary returners the effectiveness of the carrot is potentially undermined by the ostentatious brandishing of the stick

The Work of the UK Border Agency (April-June 2012) Great Britain: Parliament: House of Commons: Home Affairs Committee,2012-11-09 The Agency s backlog is growing at an alarming rate it has increased by over 25 000 cases since the first quarter of this year The backlog consists of the Migration Refusal Pool which contains records of individuals without leave to remain in the UK who cannot be traced and has grown by 24 000 records since the first quarter of this year it now totals 174 000 ex Foreign National Offenders with 3 954 ex FNOs living in the community whilst deportation action against them proceeds the so called controlled archive with cases the Agency has no control over it does not even know where the applicants are there were 95 000 cases in archive at the end of June this year and senior management promised to clear it by 31st December which would mean writing off 81 000 files Asylum and migration live cohorts where the UKBA has managed to trace an applicant thought to have been lost and is working to close their case with 29 000 cases in the live cohorts at the end of June this year The UKBA must adopt a transparent and robust approach to tackling the backlogs instead of creating new ways of camouflaging them Until the entire backlog is cleared the Committee does not believe that senior staff should receive any bonuses The Committee also doubts that the Agency is adequately equipped to deal with the increase in asylum applications Cases waiting for an initial decision after 6 months have risen by 36% since June 2011 The Committee is further concerned about the quality of decision making Poor decision making may result in people being returned home when they face persecution and torture

Governing Cross-Border Data Flows Svetlana Yakovleva,2024-02-27 Governing Cross Border Data Flows explores how the European Union can simultaneously reconcile and pursue two important legal and policy objectives namely protecting fundamental rights guaranteed under the EU Charter of Fundamental Rights EU Charter concerning privacy and personal data while also maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation

from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area *Border Security: Fraud Risks Complicate State's Ability to Manage Diversity Visa Program*, 2007 Monitoring Border Violence in the EU Elspeth Guild, 2023-08-11 This book examines EU external border violence and the role of Frontex and how it can be made legally and politically accountable for these incidents The volume sets out what the international standards are for monitoring border violence and how monitors independence must be guaranteed and where these standards come from The book provides realistic options to resolve the crisis by focusing on how effective and independent border monitoring can ensure better human rights compliance at EU external borders At the centre of the book is the question how can we achieve effective monitoring of border police including Frontex by competent and independent state authorities which have as a mission human rights implementation The goal of the book is to examine how states can prevent and investigate allegations of such violence and diminish the apparent impunity of those border police who engage in it This book will be of interest to students of EU policy law migration and refugee studies and International Relations Border Security, 2015 United States.
