Report to the King John Severn Leiby,1991

A Nation of Villages Michael Thomas Ducey,2004-09 During the period 1769 1850 republican national institutions slowly replaced colonial and monarchical rule This was a turbulent time in rural Mexico It was a period of political instability marked by violent peasant rebellions that were longer more violent and involved more people than those that occurred in the colonial era Mexican villagers became skilled insurrectionists In this book Michael Ducey analyzes the peasant rebellions in Mexico s Huasteca region over that time beginning with short lived colonial riots progressing through a long and brutal insurrection associated with the war of independence and several region wide uprisings and culminating in the Caste War of the Huasteca of the 1840s He asks not just why villagers revolted but how their discontent fit into the political drama of early national Mexico Ducey shows how the war offered opportunities for villagers to settle scores with members of the local elite as peasants discovered new ways of imagining the state They were far from being the isolated traditionalists who occasionally rebelled against political or economic change described in older scholarship At least until the 1848 1850 Caste War political disputes were more important than land This region s peasants were both remarkably diverse and politically astute Villagers adapted colonial political culture and later republican ideas to fashion local institutions that fit their own needs Over the course of a hundred years peasant tactics and political discourse evolved in a constant dialogue with the changing political climate shifting from rhetorical statements of loyalty to the king to proclamations of federalism and their rights as citizens A Nation of Villages ably demonstrates that rural villagers were more aware of elite ideologies than urban rulers were of the villagers political ideas This long term analysis of one region illuminates how rural people helped shape the republican state

Riot! Jake Frederick,2016-08-01 An exploration of the Totonac native community of Papantla Veracruz during the last half of the eighteenth century Told through the lens of violent revolt this is the first book length study devoted to Papantla during the colonial era The book tells the story of a native community confronting significant disruption of its agricultural tradition and the violence that change provoked Papantla s story is told in the form of an investigation into the political social and ethnic experience of an agrarian community The Bourbon monopolisation of tobacco in 1764 disturbed a fragile balance and pushed long term native frustrations to the point of violence Through the stories of four uprisings Jake Frederick examines the Totonacs increasingly difficult economic environment their view of justice and their political tactics Riot argues that for the native community of Papantla the nature of colonial rule was even in the waning decades of the colonial era a process of negotiation rather than subjugation The second half of the eighteenth century saw an increase in collective violence across the Spanish American colonies as communities reacted to the strains imposed by the various Bourbon reforms Riot provides a much needed exploration of what the colony wide policy reforms of Bourbon Spain meant on the ground in rural communities in New Spain The narrative of each uprising draws the reader into the crisis as it unfolds providing an entree into an analysis of the event The focus on the community provides a new understanding of the demographics of this rural community including an account of the as yet unexamined black population of Papantla **Colonial Bureaucrats and the Mexican**

Economy John S. Leiby,1986 By the late eighteenth century the Mexican economy was highly centralized Bourbon economic reforms succeeded in augmenting the powers of the crown and its vast colonial officialdom The Mexican economy became largely patrimonial Colonial officials with miners and merchants controlled the evolution of the economy The bureaucratic state dictated policy and gave Mexico a centralized economy which persists to the present day The Hispanic American

Viewed from the City Efraín Kristal,1987 Drawing on literary historical and political documents Kristal examines the fictional representation of the Indian in Peruvian narrative He reconsiders a major but neglected period of literary production and provides a methodology for the study of literary themes that happen to be significant topics of debate or controversy in the political arena Novels and short stories can reflect or react to views on the Indian expressed in political programs literary salons and sociological treatises but they can also become major factors in the development of political or sociological discourse on the Indian Kristal demonstrates that the literary representation of the Indian is a complex urban phenomenon
