Moore, 1952 **Railway Age** , 1943-07 Resources in Education , 1981 *Current Law Index* , 1996 Daily Labor Report , 1990 **Statistical Abstract of the United States** , 1965 **Tax Court Digest** Lois G. Moore, 1951 **The Cumulative Daily Digest of Corporation News** , 1926 **Railroad Age Gazette** , 1910 **The Intellectual Sword** Bruce A. Kimball, Daniel R. Coquillette, 2020-05-26 In the early twentieth century Harvard Law was on the brink of financial and scholarly ruin Discriminatory intellectually arid and nearly broke the school struggled through World War II Bruce Kimball and Daniel Coquillette chronicle the downfall and dramatic restoration of HLS as arguably the world s most influential law school **Tax and Spend** Molly C. Michelmore, 2011-12-30 Taxes dominate contemporary American politics Yet while many rail against big government few Americans are prepared to give up the benefits they receive from the state In *Tax and Spend* historian Molly C Michelmore examines an unexpected source of this contradiction and shows why many Americans have come to hate government but continue to demand the security it provides Tracing the development of taxing and spending policy over the course of the twentieth century Michelmore uncovers the origins of today s antitax and antigovernment politics in choices made by liberal state builders in the 1930s 1940s and 1950s By focusing on two key instruments of twentieth century economic and social policy Aid to Families with Dependent Children and the federal income tax *Tax and Spend* explains the antitax logic that has guided liberal policy makers since the earliest days of Franklin Roosevelt s presidency Grounded in careful archival research this book reveals that the liberal social compact forged during the New Deal World War II and the postwar years included not only generous social benefits for the middle class including Social Security Medicare and a host of expensive but hidden state subsidies but also a commitment to preserve low taxes for the majority of American taxpayers In a surprising twist on conventional political history Michelmore s analysis links postwar liberalism directly to the rise of the Republican right in the last decades of the twentieth century Liberals decision to reconcile public demand for low taxes and generous social benefits by relying on hidden sources of revenues and invisible kinds of public subsidy combined with their persistent defense of taxpayer rights and suspicion of tax eaters on the welfare rolls not only fueled but helped create the contours of antistate politics at the core of the Reagan Revolution **The World Factbook** , 1987 **Sovereign Choices and Sovereign Constraints** Gus Van Harten, 2013-10-03 Investment arbitrators rely on sovereignty for their legal status just as investor state disputes usually stem from disagreements about the role of the state in society As a result investment arbitration is a vehicle for the exercise of sovereign authority and a site for contesting sovereign choices This book investigates and evaluates the decision making record and policy trajectory of international investment arbitration from theoretical doctrinal and empirical perspectives It analyses the extent to which the system used to resolve disputes impacts on the role of government affecting diverse constituencies as opposed to limiting itself to case specific disputes between a single business enterprise and state entity The book provides a comprehensive review of known

awards in order to determine the types of government measures that have triggered disputes It investigates how investment arbitrators have exercised their authority in recent case law It provides a review of the approaches adopted in the reasoning of investment treaty tribunals on questions of judicial deference and respect for sovereign decision makers In doing so it determines whether investment tribunals have taken a predominantly assertive approach to investor protection without regard to their relative lack of accountability capacity or proximity in some cases This approach does not sit comfortably with the relative restraint seen by domestic and international courts in similar contexts The book argues that the unique characteristics of investment treaty arbitration make the experience of domestic judicial review more pertinent to international investment arbitration than to any other contexts for international adjudication However it argues that mediating devices in some form should be incorporated into the process in order to solve the tension between the extensive scope and potency of international investment arbitration as an important site of global governance and the challenges of the review function in reviewing decisions which have strong claims to having comprehensive regulatory expertise inclusive decision making electoral or other public accountability or greater proximity to the underlying facts and context Online
