[The Othering Museum](#) Carrie Westwater,2024-05-23 The term othering refers to a persistent Us

and the dynamic between museums and their participating public To reframe this historically paternalistic subject positioning over the last decade or so many museums have made firm attempts to address this by attempting to move from being providers of engagements to facilitating access to cultural right by embedding co curatorial techniques and participation Through the analysis of three co curated participatory case studies this book examines how power performs in co curatorial museum practice It discusses how it is not just how the participatory process is enacted that is necessary to create this shift to a more socially just profile but systemic pressures of vulnerability and responsibility found in the political economy of the museum and its participants This book will chart how this dynamic performs in museums when working with different groups of people such as volunteers community participants and professional artists presented with differing levels of co curatorial decision making The book further investigates whether performances of power are relational to who the participants are how the processes of participation are constructed and where the participation takes place what language is used when conducting these relationships and what the funded institutional responsibilities do to the co curators the community and museum staff when traditional co curation and co curation in transition to non selective curation is applied Grounding this discussion is the development of this test method of non selective curation which further illuminates some of these challenges and aims to successfully mitigate them through a radically open and inclusive approach to co curation

Gray introduces the audience to a perspective on console gaming environments called Multi mediated Interactive Console Environments This new chapter provides a necessary understanding of these dynamic digital communities adding console games which have been heretofore left out of conversations on gaming to platform studies and addressing troubling examples on race gender and other identities While the majority of scholarship on gaming comes from disciplines related to media studies and communication it is imperative that other scholars engage the narrative and help move the focus on gaming beyond acts of violence or as a space that propels the military industrial complex By bringing together cultural studies criminology media studies game studies and others this text offers interdisciplinary approaches to making sense of not only the technology and its impact on users and cultures but also the impact that sub cultures have had on gaming It is essential reading for scholars and practitioners seeking solutions to some of gaming s biggest challenges such as how to reduce harm in online gaming **The Routledge Handbook of Translation and Media** Esperança Bielsa,2021-12-24 The Routledge Handbook of Translation and Media provides the first comprehensive account of the role of translation in the media which has become a thriving area of research in recent decades It offers theoretical and methodological perspectives on translation and media in the digital age as well as analyses of a wide diversity of media contexts and translation forms Divided into four parts with an editor introduction the 33 chapters are written by leading international experts and provide a critical survey of each area with suggestions for further reading The Handbook aims to showcase innovative approaches and developments bridging the gap between currently separate disciplinary subfields and pointing to potential synergies and broad research topics and issues With a broad ranging critical and interdisciplinary perspective this Handbook is an indispensable resource for all students and researchers of translation studies audiovisual translation journalism studies film studies and media studies The Open Access version of Chapter 1 available at <http://www.taylorfrancis.com> has been made available under a Creative Commons CC BY NC ND license **Alternative and Mainstream Media** Linda Jean Kenix,2011-11-01 This book is available as open access through the Bloomsbury Open Access programme and is available on

www.bloomsburycollections.com Historically alternative media have been viewed as fundamental albeit at times culturally peripheral forces in social change In this book however Kenix argues that these media do not uniformly subvert the hierarchies of access that are so central to mainstream media in fact their journalistic norms and routines have always been based on the professional standards of the mainstream Kenix goes on to posit the perception of mainstream and alternative as a misconception She argues that although alternative media can and do construct distinct alternative communications they have always existed on the same continuum as the mainstream and the two will continue to converge Through comparative analysis this book argues that many alternative and mainstream media are merging to create a continuous spectrum rooted in commercial ideology Indeed much of what is now considered alternative media actually draws very little from principles of the independent press whereas many contemporary mainstream media now use communication techniques more commonly associated with media that do not operate for financial gain This book puts forward a controversial but convincing argument around the relationship between alternative and mainstream media drawing on examples from the UK US Australia and New Zealand to strengthen and develop the central premise *Prime Time Soap Operas on Indian Television* Shoma Munshi, 2012-07-26 This book focuses on urban family soaps on television and analyses them as an important resource for anthropological insights into contemporary social issues and practices It studies the popular and everyday while also concentrating on the middle class *Congoism* Johnny Van Hove, 2017-10-04 To justify the plundering of today's Democratic Republic of the Congo U S intellectual elites have continuously produced dismissive Congo discourses Tracing these discourses in great depth and breadth for the first time Johnny Van Hove shows how U S intellectuals and their influential European counterparts have been using the Congo in similar fashions for their own goals Analyzing intellectuals as diverse as W E B Du Bois Joseph Conrad and David Van Reybrouck the book offers a theorization of Central West Africa a case study of normalized narratives on the Other and a stirring wake up call for all contemporary writers on international history and politics **Policing Pain** Kevin Revier, 2025-11-11 How the medicalization of addiction during the U S opioid crisis has driven mass incarceration and mass policing in rural and deindustrialized communities The nationwide opioid public health emergency has led many advocates and public officials to call for drug policy reforms that reject traditional law and order approaches In *Policing Pain* Kevin Revier approaches the opioid epidemic from an abolitionist framework that seeks to treat people who use opioids not as so called criminals but as people in need of health care Based on two years of ethnographic research in Upstate New York a region highly impacted by overdoses job loss and deindustrialization Revier shows that incorporation of treatment within the criminal justice system has ultimately expanded the scope of the drug war turning individuals into treatable carceral subjects who are both medicalized and criminalized He argues that the incorporation of medical rhetoric and treatment within the criminal legal system maintains a carceral approach in rural and low income areas facing high rates of opioid overdose and economic disinvestment further entrenching the carceral state in

the lives of people who use drugs Ultimately Policing Pain explores alternative strategies to promote harm reduction from an abolitionist ethic of care that advocates for people who use drugs while seeking to minimize criminal justice involvement in drug related issues
