Representative Government In Modern Europe:

Representative Government in Modern Europe Michael Gallagher, Michael Laver, Peter Mair, 1995 eBook:
Representative Government in Modern Europe, 5e GALLAGHER, 2021-04-09 eBook Representative Government in Modern Europe 5e **Representative Government in Modern Europe** Gallagher, Laver, Mair, 2014-03-01 **Post-communist EU Member States** Susanne Jungerstam-Mulders, 2006 Providing insights into the parties and party systems of post communist EU member states within the framework of each country's specific conditions and developments this volume examines the cases of Estonia Lithuania Latvia Poland Czech Republic Slovakia Hungary and Slovenia It is suitable for courses on party systems and EU politics *Contemporary Europe* Richard Sakwa, Anne Stevens, 2012-03-28 This fully revised third edition provides a wide ranging introduction to political economic and social life across the whole continent Ideal for students new to the subject this popular text stimulates fresh thinking on issues and debates **On Parties, Party Systems and Democracy** Peter Mair, 2014-09-01 This collection brings together some of the most significant and influential work by leading comparativist Peter Mair 1951 2011 The selection ranges from considerations on the relevance of concept formation to the study of party systems and party organisations and from reflections on the democratic legitimacy of the European Union to the future of party democracy Including frequently cited papers alongside lesser known work the writings collected in this volume attest to the broad scope and depth of Mair's insights into comparative party politics and the changing realities of party government As such they form an important and enduring contribution to the study of politics and a fitting tribute to an inspirational and much missed figure in the global political science community Edited and introduced by Ingrid van Biezen with an intellectual portrait of Peter Mair by Stefano Bartolini and Hans Daalder **Green Parties and Political Change in Contemporary Europe** Michael O'Neill, 2019-05-20 Published in 1997 This book offers an up to date guide to the Green parties of Western Europe as the optimism of the 1980s confronts the Green fatigue of the 1990s The approach is both thematic and comparative Green politics in Europe is located in its historical and cultural context There is a comparative analysis of the principal ideological questions policy issues and strategic dilemmas that have confronted the European Greens There are national profiles of Green politics throughout the European Union The conclusion addresses the critical issue of political change in post industrial societies It discusses the contribution of Green parties to the New Politics and assesses their likely impact on post modern politics *European Politics Today* Patricia Hogwood, Geoffrey K. Roberts, 2003-10-17 In this new edition Patricia Hogwood and Geoffrey Roberts offer a comprehensive introduction to the political systems and processes of Western Europe The book begins with an overview of the features and events that have shaped the political landscape of Europe up to the end of the 20th century The authors go on to discuss liberal democracy historical sources of conflict between countries electoral systems political parties and interest groups governments and parliaments The final section looks at federalism and EU decision making and concludes with a consideration of how liberal

democracies in western Europe have attempted to provide stable government while remaining responsive to changes in society This book has been fully updated to take account of the French British and Italian general elections that have occurred in recent years as well as the momentous changes that have taken place in global politics as a result 9 11 and the preparations for EU enlargement The chapters on the European Union and democracy in Western Europe have also been substantially revised to take account of globalization and recent political corruption issues

Representative Democracy in the EU Steven Blockmans, Sophia Russack, 2019-07-30 Representative democracy is beset by a crisis of legitimacy across the world but in Europe this crisis is compounded by the inadequacy of national governments to address citizens frustrations and to achieve transnational unity on common issues How representative are national parliaments in their decision making on EU matters This volume investigates the relationship between the democratic institutions of the member states and those of the EU With a focus on polity rather than policy it looks at voting and decision shaping mechanisms in selected member states in particular the Europeanisation of representative democracy at national level It also assesses the state of parliamentary democracy at the EU level Expert analysts share their insights into the changing nature of our political eco systems and the dis connections within and between them Representative Democracy in the EU Recovering Legitimacy is part of the Towards a Citizens Union project co funded by the EU s Erasmus Programme It is the product of collaboration with 20 renowned think tanks from the European Policy Institutes Network EPIN This volume follows the first in the series Direct Democracy in the EU The Myth of a Citizens Union A third and final publication will offer ideas for how democratic institutions and processes can meet the challenges facing Europe today

The extreme Right in Western Europe Elisabeth Carter, 2013-07-19 Parties of the extreme right have experienced a dramatic rise in electoral support in many countries in Western Europe over the last two and a half decades This phenomenon has been far from uniform however and the considerable attention that the more successful right wing extremist parties have received has sometimes obscured the fact that parties of the extreme right have not recorded high electoral results in all West European democracies Furthermore the electoral scores of these parties have also varied over time with the same party recording low electoral scores in one election but securing high electoral scores in another This book available in paperback for the first time examines the reasons behind the variation in the electoral fortunes of the West European parties of the extreme right in the period since the late 1970s It proposes a number of different explanations as to why certain parties have performed better than others at the polls and it investigates each of these different explanations systematically and in depth As well as offering a comprehensive analysis of the reasons behind the uneven electoral success of the West European parties of the extreme right this book provides up to date information on all right wing extremist parties that have contested elections at national level across Western Europe since the late 1970s In addition to examining the parties ideology and organisation it discusses their relationship with the parties of the mainstream and it investigates the impact that electoral institutions have on their ability

to attract votes This book is aimed at both scholars and students interested in the extreme right in party politics and in comparative politics more generally

Why Minority Governments Work Bonnie N. Field, 2016-01-26 This book is an examination of minority government performance in conjunction with the territorial distribution of state power and the territorial interests of political parties It examines political institutions and the reconcilability of party goals and the contingent bargaining circumstances in multilevel and territorial perspectives Routledge Handbook of European Politics

José Magone, 2014-12-17 Since the Treaty of the European Union was ratified in 1993 the European Union has become an important factor in an ever increasing number of regimes of pooled sovereignty This Handbook seeks to present a valuable guide to this new and unique system in the twenty first century allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national polities to Europe and the global community Adopting a pan European approach this Handbook brings together the work of leading international academics to cover a wide range of topics such as the historical and theoretical background the political systems and institutions of both the EU and its individual member nations political parties and party systems political elites civil society and social movements in European politics the political economy of Europe public administration and policy making external policies of the EU This is an invaluable and comprehensive resource for students scholars researchers and practitioners of the European Union European politics and comparative politics

The European Union and the Rise of Regionalist Parties Seth Kincaid Jolly, 2015-08-27 Rather than weakening the forces of nationalism among member states the expanding power of the European Union actually fosters conditions favorable to regionalist movements within traditional nation states Using a cross national quantitative study of the advent of regionalist political parties and their success in national parliamentary elections since the 1960s along with a detailed case study of the fortunes of the pro independence Scottish National Party Seth K Jolly demonstrates that supranational integration and subnational fragmentation are not merely coincidental but related in a theoretical and predictable way At the core of his argument Jolly posits the Viability Theory the theory that the EU makes smaller states more viable and more politically attractive by diminishing the relative economic and political advantages of larger sized states European integration allows regionalist groups to make credible claims that they do not need the state to survive because their regions are part of the EU which provides access to markets financial institutions foreign policy and other benefits Ultimately Jolly emphasizes scholars and policy makers must recognize that the benefits of European integration come with the challenge of increased regionalist mobilization that has the potential to reshape the national boundaries of Europe

Party Transformations in European Democracies André Krouwel, 2012-12-01 Political parties regularly change and adapt in response to ever changing circumstances Until now these changes have frequently prompted both scholars and the media to suggest a whole new type of political party and over time the number of models and types has proliferated to the point of confusion contradiction and a loss of explanatory power In this sophisticated yet accessible study

Andr Krouwel rejects this m lange of models as inadequate He utilizes a wide range of data sources to analyze the ideological organizational and electoral change undergone by more than one hundred European parties in fifteen different countries from Scandinavia to the Iberian Peninsula between 1945 and 2010 The result is one of the most comprehensive empirically grounded studies to date of the genesis development and transformation of political parties in advanced democratic states

European Politics Walter C. Opello,Katherine A. R. Opello,2009 This text explores the nature of European politics in the context of the origin and institutional development of the European state system How Ireland Voted 2011 M.

Gallagher,M. Marsh,2015-12-11 The collapse of the Irish Celtic Tiger economy in the wake of a banking disaster provoked a joint EU IMF rescue plan in late 2010 The election that followed saw Europe s most successful ever party lose more than half of its vote and almost three quarters of its seats This book provides the definitive analysis of an electoral earthquake

Against Elections David Van Reybrouck,2016-07-07 Whenever there are elections the results are the same fear mongering division and broken promises Against Elections offers a new diagnosis and an ancient remedy Excellent Why does our system keep electing people whose incomes assets interests and psychology are hugely at variance with ours Because that is what it is designed to do George Monbiot Guardian Very persuasive invigorating Daniel Finkelstein The Times As this ingenious book shows the original purpose of elections was not democracy it was to exclude the people from power by appointing an elite to govern over them In fact for most of its 3000 year history democracy did not involve elections at all members of the public were appointed to positions in government through a combination of volunteering and lottery Based on studies and trials from around the globe this hugely influential manifesto presents the practical case for a true democracy one that actually works Urgent heretical and completely convincing Against Elections leaves only one question to be answered what are we waiting for Riveting Irish Examiner Persuasive Financial Times A convincing case Observer

American Difference Lori M. Poloni-Staudinger,Michael R. Wolf,2019-01-31 Examining democracies from a comparative perspective helps us better understand why politics or as Harold Lasswell famously said who gets what when and how differ among democracies American Difference A Guide to American Politics in Comparative Perspective takes the reader through different aspects of democracy political culture institutions interest groups political parties and elections and unlike other works explores how the United States is both different from and similar to other democracies The fully updated Second Edition has been expanded to include several new chapters and discussion on civil liberties and civil rights constitutional arrangements elections and electoral institutions and electoral behavior This edition also includes data around the 2016 general election and 2018 midterm election *Politics in Ireland* Maura Adshead,Jonathan Tonge,2009-04-21 Politics in Ireland is the first major text to provide an accessible and systematic analysis of the politics of Ireland North as well as South With the development of a new Northern Irish political system and increasing links across the island the authors argue that the time is ripe to study together the two polities which share so much of a common history but which

have had very different evolutions through the 20th century Drawing upon an exceptionally wide range of sources and their own original research the authors deploy a thematic approach to the study of political institutions political behaviour and public policy in both the Republic and Northern Ireland in order to produce a detailed but highly readable assessment of governance and politics in both political systems This approach enables them both to outline the differences and similarities between the polities and to explain how they relate to the wider world in particular to the UK and to Europe Coalition Politics and Cabinet Decision Making Juliet Kaarbo, 2012-04-17 Kaarbo assesses the nature and quality of coalition decision making in foreign policy

Getting the books **Representative Government In Modern Europe** now is not type of challenging means. You could not single-handedly going as soon as book deposit or library or borrowing from your associates to admission them. This is an very simple means to specifically get guide by on-line.
