Representative Sonnets by American Poets Charles H. Crandall, 2015-06-24 Excerpt from *Representative Sonnets by American Poets With an Essay on the Sonnet Its Nature and History Including Many Notable Sonnets of Other Literatures Also Biographical Notes Indexes Etc*. The design of this work is to group as many of the best sonnets in American literature as can be included in a volume of convenient size and to make the selection as widely representative as possible while giving to the most eminent sonnet writers a proper prominence by more numerous examples of their work. The editor has endeavored to apply to every sonnet the test of merit first for genuine poetic thought, second for melodious expression, and a reasonable regard for the accepted forms. Sonnets of merit in imagination and structure have been rejected in some cases because they contained some repellent idea or discordant note. Again it has seemed well to allow some subjects to be represented by several sonnets in order to secure the best work of each author regardless of subject as well as to give the additional interest of comparing the various views of the same theme. Generally it has been intended to place the finest of an author's sonnets at the head, but occasionally it has been put at the close or else where when the exceptional arrangement enhanced the general effect.
