Reproducing Narrative Gender Reproduction And The Law:

Reproducing Narrative Michael Thomson, 2018-12-20 First published in 1998 *Reproducing Narrative* sets out to interrogate a number of medico legal reproductive discourses Recognizing that these dialogues are heavily imprecated in broader social political and economic discourses it is contended that responses to reproductive issues are influenced and possibly determined by non reproductive concerns both at a parochial and more general level Whilst a number of such influential narratives are recognized the book concentrates on the narratives of gender which appear implicit within the discourses and practices considered Given the productive nature of discourse and the traditional premising of gender on sexual difference it becomes apparent that the explicit figuring of the female reproductive body becomes a means of realizing the implicit gender narratives within these discourses Privileged medico legal discourses become understood as a technology of gender an important site at which gender is constituted *Reproducing Narrative* Michael Andrew Thomson, 1995

Law, Policy and Reproductive Autonomy Erin Nelson, 2014-07-18 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state Law Policy and Reproductive Autonomy examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform *The Cambridge Companion to Gender and the Law* Stéphanie Hennette Vauchez, Ruth Rubio-Marín, 2023-01-26 To what extent is the legal subject gendered Using illustrative examples from a range of jurisdictions and thematically organised chapters this volume offers a comprehensive consideration of this question With a systematic accessible approach it argues that law and gender work to co produce the legal subject Cumulatively the volume s chapters provide a systematic evaluation of the key facets of the legal subject the corporeal the functional and the communal Exploring aspects of the legal subject from the ways in which it is sexed and sexualised to its national and familial dimensions this volume develops a complete account of the various processes through which legal orders produce gendered subjects Across its chapters each theoretically ambitious in its own right this volume outlines how the law not only acts on the social

world but genders it *Ethics, Law and Society* Søren Holm, 2017-07-05 This key collection brings together a selection of papers commissioned and published by the Cardiff Centre for Ethics Law Society It incorporates contributions from a group of international experts along with a selection of short opinion pieces written in response to specific ethical issues The collection addresses issues arising in biomedical and medical ethics ranging from assisted reproductive technologies to the role of clinical ethics committees It examines broader societal issues with particular emphasis on sustainability and the environment and also focuses on issues of human rights in current global contexts The contributors collect responses to issues arising from high profile cases such as the legitimacy of war in Iraq to physician related suicide The volume will provide a valuable resource for practitioners and academics with an interest in ethics across a range of disciplines Ethics, Law and Society Professor Søren Holm, Dr Jennifer Gunning, 2013-02-28 This volume brings together selected papers commissioned and published by the Cardiff Centre for Ethics Law Society It includes contributions from a group of international experts along with a selection of short opinion pieces written in response to specific ethical issues

Regulating Reproduction Emily Jackson, 2001-10-10 This new book provides a clear and accessible analysis of the various ways in which human reproduction is regulated A comprehensive exposition of the law relating to birth control abortion pregnancy childbirth surrogacy and assisted conception is accompanied by an exploration of some of the complex ethical dilemmas that emerge when one of the most intimate areas of human life is subjected to regulatory control Throughout the book two principal themes recur First particular emphasis is placed upon the special difficulties that arise in regulating new technological intervention in all aspects of the reproductive process Second the concept of reproductive autonomy is both interrogated and defended This book offers a readable and engaging account of the complex relationships between law technology and reproduction It will be useful for lecturers and students taking medical law or ethics courses It should also be of interest to anyone with a more general interest in women's bodies and the law or with the profound regulatory consequences of new technologies *Well Women* Anne Morris, Susan Nott, 2018-02-05 This title was first published in 2002 This invaluable collection of essays critically evaluates the treatment received by women as recipients and providers of health care It looks at how their role and needs are perceived and constructed by the law by health care organizations by the health care professions and by commercial organizations operating in the health care sector In doing so it constitutes a significant advancement in the current research in this area **Feminist Perspectives on Public Law** Susan Millns, Noel Whitty, 2013-03-04 Feminist scholarship can provide public lawyers with the critical tools and insights to respond to these new challenges This collection begins a dialogue between public law and feminism by offering a range of perspectives on contemporary public law themes and topics **A Jurisprudence of the Body** Chris Dietz, Mitchell Travis, Michael Thomson, 2020-08-05 This book brings together a range of theoretical perspectives to consider fundamental questions of health law and the place of the body within it Health and more recently health law has long been animated by

discussions of particular bodies whether they are disordered diseased or disabled but each of these classificatory regimes claim some knowledge about the body This edited collection aims to uncover and challenge the fundamental assumptions that underpin medico legal knowledge claims about such bodies This exploration is achieved through a mix of perspectives but many contributors look towards embodiment as a perspective that understands bodies to be shaped by their institutional contexts Much of this work alerts us to the idea that medical practitioners not only respond to healthcare issues but also create them through their own understandings of normality and fixing Bodies as a result cannot be understood outside of or as separate to their medical and legal contexts This compelling book pushes the possibility of new directions in health care and health justice Chapter 5 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Fragmenting Fatherhood Richard Collier,Sally Sheldon,2008-09-05 Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities *Fragmenting Fatherhood* provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced *Fragmenting Fatherhood* provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women s studies and gender studies
