Recapturing the Constitution Stephen B. Presser, 1994-10-06 Presser makes a compelling case that the original understanding of the Constitution was that religion morality and law were inextricably connected Forrest McDonald The Women of Hull House Eleanor J. Stebner, 1997-11-13 This group biography explores the lives work and personal relations of nine white middle and upper middle class women who were involved in the first decade of Chicago's premier social settlement This galaxy of stars as they were called in their own day were active in innumerable political social and religious reform efforts The Women of Hull House refutes the humanistic interpretation of the social settlement movement Its spiritual base is highlighted as the author describes it as the practical ethical side of the social gospel movement and as an attempt to transform late nineteenth century evangelical and doctrinal Christian religion While the women of Hull House differed from one another in their theological beliefs and were often critical of orthodox Christianity they were motivated by Christian ideals By showing the interconnections of spirituality vocation and friendship the author argues that individual actions for social changes must take place within communities which provide a level of uniting vision yet allow for diverse actions and viewpoints **Religion and Politics in the Early Republic** Daniel Dreisbach, 2021-12-14 The church state debate

currently alive in our courts and legislatures is strikingly similar to that of the 1830s A secular drift in American culture and the role of religion in a pluralistic society were concerns that dominated the controversy then as now In *Religion and Politics in the Early Republic* Daniel L Dreisbach compellingly argues that the issues in our current debate were framed in earlier centuries by documents crucial to an understanding of church state relations the First Amendment and our present concern

with the constitutional role of religion in American public life Reflection on this national discussion of more than 150 years ago casts light on both past and future relations between church and state in America In an 1833 sermon *The Relation of Christianity to Civil Government in the United States* the Reverend Jasper Adams of Charleston South Carolina an eminent educator and moral philosopher offered valuable insight into the social and political forces that shaped church state relations in his time Adams argued that the Christian religion is indispensable to social order and national prosperity Although he opposed the establishment of a state church he believed that a Christian ethic should inform all civil legal and political institutions Adams's remarkably prescient discourse anticipated the emergence of a dominant secular culture and its inevitable conflict with the formerly ascendant religious establishment His treatise was the first major work from the embattled religious traditionalists controverting Thomas Jefferson's vision of a secular polity and strict church state separation Eager to confirm his analysis Adams sent copies of the sermon to scores of leading intellectuals and public figures of his day In this volume Dreisbach brings together for the first time Adams's sermon a critical review of the treatise and transcripts of previously unpublished letters written in response to it by James Madison John Marshall Joseph Story and J S Richardson These letters provide a rare glimpse into the minds of several influential statesmen and jurists who were central in shaping the republic and its institutions The Story and Madison letters are among their authors' final and most perceptive pronouncements on church state relations The documents that Dreisbach has assembled in this edition provide a vivid portrait of early nineteenth century thought on the constitutional role of religion in public life Our ongoing national discussion of this topic is illuminated by the debate encapsulated in these pages

**Thomas Jefferson and the Wall of Separation Between Church and State** Daniel Dreisbach, 2003-10 No phrase in American letters than Thomas Jefferson's phrase wall of separation between church and state has had a more profound influence on church state law policy and discourse and few metaphors have provoked more passionate debate Introduced in an 1802 letter to the Danbury Connecticut Baptist Association Jefferson's wall is accepted by many Americans as a concise description of the U S Constitution's church state arrangement and conceived as a virtual rule of constitutional law Dreisbach offers an in depth examination of the origins controversial uses and competing interpretations of this powerful metaphor in law and public policy from publisher information
