Republics Nations And Tribes:

Republics, Nations, and Tribes Martin Thom, 1995 A comprehensive introduction to the work of one of the outstanding intellectuals of the twentieth century Raymond Williams is a towering presence in cultural studies most importantly as the founder of the approach that has come to be known as cultural materialism Yet Williams method was always open ended and fluid and this volume collects together his most significant work from over a twenty year period in which he wrestled with the concepts of materialism and culture and their interrelationship Aside from his more directly theoretical texts however case studies of theatrical naturalism the Bloomsbury group advertising science fiction and the Welsh novel are also included as illustrations of the method at work Finally Williams identity as an active socialist rather than simply an academic is captured by two unambiguously political pieces on the past present and future of Marxism *At the Roots of Italian Identity* Edoardo Marcello Barsotti, 2021-02-10 This book investigates the relationship between the ideas of nation and race among the nationalist intelligentsia of the Italian Risorgimento and argues that ideas of race played a considerable role in defining Italian national identity The author argues that the racialization of the Italians dates back to the early Napoleonic age and that naturalistic racialism or race thinking based on the taxonomies of the natural history of man emerged well before the traditionally presumed date of the late 1860s and the advent of positivist anthropology The book draws upon a wide number of sources including the work of Vincenzo Cuoco Giuseppe Micali Adriano Balbi Alessandro Manzoni Giandomenico Romagnosi Cesare Balbo Vincenzo Gioberti and Carlo Cattaneo Themes explored include links to antiquity on the Italian peninsula archaeology and race thinking America After Tocqueville Harvey Mitchell, 2006-11-02 America after Tocqueville complements Harvey Mitchell s previous book Individual Choice and the Structures of History Alexis de Tocqueville as Historian Reappraised 1996 This study draws on Democracy in America to study the condition of democracy in the United States in our own time Three aspects of Americanism inform Harvey Mitchell s book and cannot be separated from Tocqueville s consideration of the three races First he addresses tensions in the United States between ideas of equality and a political system that tries to keep it within bounds He turns to the relationship between this system and the dynamics of American capitalism and he analyses the criteria for inclusion and exclusion in American life Overall he asks if Americans have surrendered to what Tocqueville called the materialization of life if that compromise means their abandonment of their original spiritual quest and if they are on the way to a radical alienation from politics The Modern Origins of the Early Middle Ages Ian Wood, 2013-09-27 The Early Middle Ages which marked the end of the Roman Empire and the creation of the kingdoms of Western Europe was a period central to the formation of modern Europe This period has often been drawn into a series of discourses that are more concerned with the eighteenth nineteenth and twentieth centuries than with the distant past In The Modern Origins of the Early Middle Ages Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society Using historical records and writings about the Fall of

Rome and the Early Middle Ages Wood reveals how these influenced modern Europe and the way in which the continent thought about itself He asks and answers the important question why is early medieval history or indeed any pre modern history important This volume promises to add to the debate on the significance of medieval history in the modern world

The Shaping of French National Identity Matthew D'Auria,2020-12-03 The Shaping of French National Identity casts new light on the intellectual origins of the dominant and official French nineteenth century national narrative Focussing on the historical debates taking place throughout the eighteenth century and during the Restoration Matthew D Auria evokes a time when the nation s origins were being questioned and discussed and when they acquired the meaning later enshrined in the official rhetoric of the Third Republic He examines how French writers and scholars reshaped the myths symbols and memories of pre modern communities Engaging with the myth of our ancestors the Gauls and its ideological triumph over the competing myth of our ancestors the Franks this study explores the ways in which the struggle developed and the values that the two discourses enshrined the collective actors they portrayed and the memories they evoked D Auria draws attention to the continuity between ethnic discourses and national narratives and to the competition between various groups in their claims to represent the nation and to define their past as the true history of France
