Requirements for Certification of Teachers, Counselors, Librarians, Administrators for Elementary and Secondary Schools, Seventy-seventh Edition, 2012-2013 Elizabeth A. Kaye, 2012-10-15 This annual volume offers the most complete and current listings of the requirements for certification of a wide range of educational professionals at the elementary and secondary levels Requirements for Certification is a valuable resource making much needed knowledge available in one straightforward volume Public School Teacher Cost Differences Across the United States Jay G. Chambers, William J. Fowler, 1995 This document presents findings of a study that used a hedonic wage model to develop a national geographical teacher cost index TCI The research sought to extend the analysis of teacher compensation to include not only variables that reflect the geographic cost of living but also the amenities of the labor markets in which the public school districts are located Hedonic considerations are those factors that attract workers to an area The result was an estimated average teacher salary cost index for each state and for regions in each state The research drew on a sample of 40 484 public school teachers derived from the Schools and Staffing Survey SASS database for 1990 91 The study examined 1 discretionary factors the effects of teacher and job characteristics on patterns of variation in teacher salaries 2 cost factors the regional and school district characteristics beyond local control and 3 teacher cost differences by the type of school district The TCI model was also compared with two alternative models The data show a salary difference that favored males some evidence points to lower salaries being paid to minorities of the same gender Teachers with higher degree levels received higher salaries Larger districts in more urbanized settings tended to pay higher teacher salaries for teachers with the same qualifications The average TCI tended to be lowest in southern states and highest in northeastern states Large urban school districts tended to have higher teacher costs Finally compensating differentials are necessary to attract teachers to remote regions In conclusion the TCI includes important factors beyond the costs of living that should be considered in examining how much more or less it costs to recruit and employ comparable teachers Appended are technical notes descriptive statistics and parameter estimates variables included in teacher salary regressions and standard errors Contains 48 references LMI *Out-of-field teaching and educational equality* , Out-of-field Teaching and Educational Equality Richard M.
