**Rescued Images** Ruth Jacobsen, 2001 The regained memories of a Jewish woman who spent her childhood years in the Netherlands hiding from the Nazis      **Killer Images** Joram ten Brink, Joshua Oppenheimer, 2013-01-08 Cinema has long shaped not only how mass violence is perceived but also how it is performed Today when media coverage is central to the execution of terror campaigns and news anchormen serve as embedded journalists a critical understanding of how the moving image is implicated in the imaginations and actions of perpetrators and survivors of violence is all the more urgent If the cinematic image and mass violence are among the defining features of modernity the former is significantly implicated in the latter and the nature of this implication is the book's central focus This book brings together a range of newly commissioned essays and interviews from the world's leading academics and documentary filmmakers including Ben Anderson Errol Morris Harun Farocki Rithy Phan Avi Mograbi Brian Winston and Michael Chanan Contributors explore such topics as the tension between remembrance and performance the function of moving images in the execution of political violence and nonfiction filmmaking methods that facilitate communities of survivors to respond to recover and redeem a history that sought to physically and symbolically annihilate them      **Seventy Images of Grace in the Epistles . . .** Norma Cook Everist, 2015-07-07 How can faith speak directly to people's real lives How can conversation around Scripture make all the difference in the arenas of one's daily world People who have heard the Bible many times or for the first time want to know in the terms and images of their life situation When my world seems to be shaking all around me why doesn't it help to hear You are forgiven And further What can I say to someone who feels totally alienated from God Seventy Images of Grace in the Epistles will help people make connections and empower them for their ministries in daily life The book presents an interplay of stories of people's actual lives and Epistle images of grace Readers will begin to recognize the depth of the human predicament and the power of the gospel thereby becoming equipped for Christian discipleship and vocation not from duty or guilt but from freedom Guides for Engagement will help readers turn the book into a learning event      **Flood of Images** Bernie Cook, 2015-04-01 Anyone who was not in New Orleans during Hurricane Katrina and the subsequent flooding of the city experienced the disaster as a media event a flood of images pouring across television and computer screens The twenty-four hour news cycle created a surplus of representation that overwhelmed viewers and complicated understandings of the storm the flood and the aftermath As time passed documentary and fictional filmmakers took up the challenge of explaining what had happened in New Orleans reaching beyond news reports to portray the lived experiences of survivors of Katrina But while these narratives presented alternative understandings and more opportunities for empathy than TV news Katrina remained a mediated experience In Flood of Images Bernie Cook offers the most in-depth wide-ranging and carefully argued analysis of the mediation and meanings of Katrina He engages in innovative close and comparative visual readings of news coverage on CNN Fox News and NBC documentaries including Spike Lee's When the Levees Broke and If God Is

Willing and Da Creek Don't Rise Tia Lessin and Carl Deal's *Trouble the Water* and Dawn Logsdon and Lolis Elie's *Faubourg Tremé* and the HBO drama *Tremé* Cook examines the production practices that shaped Katrina as media event exploring how those choices structured the possible memories and meanings of Katrina and how the media's memory making has been contested In *Flood of Images* Cook intervenes in the ongoing process of remembering and understanding Katrina

"Striking Images, Iconoclasm Past and Present" Stacy Boldrick, 2017-07-05 All cultures make and break images *Striking Images Iconoclasm Past and Present* explores how and why people have made and modified images and other cultural material from pre history into the 21st century With its impressive chronological sweep and disciplinary breadth this is the first book about iconoclasm the breaking of images and the transformation of broader sets of signs that includes contributions from archaeologists curators and museum conservators as well as historians of art literature and religious studies The chapters examine themes critical to the study of iconoclasm violence punishment memory intentionality ruins and relics and their survival The conclusion shows how cross disciplinary debate amongst the contributors informed Tate Britain's *Art under Attack* exhibition 2013 and addresses the challenges iconoclasm presents to the modern museum By juxtaposing objects and places usually considered in isolation *Striking Images* raises provocative questions about our understandings of cross cultural differences and the value of representational objects from the broken swords of pre historical bog graves to the Bamiyan Buddhas and contemporary art Are any such objects ever finished or are they simply subject to constant transformation In dialogue with each other the essays consider this question and expand the field of iconoclasm and cultural studies

*Shrines and Miraculous Images* William B. Taylor, 2019-02-15 The vast literature on Our Lady of Guadalupe dominates the study of shrines and religious practices in Mexico But there is much more to the story of shrines and images in Mexico's religious history than Guadalupe and Marian devotion In this book a distinguished historian brings together his new and recent essays on previously unstudied or reconsidered places themes patterns and episodes in Mexican religious history during the seventeenth eighteenth and nineteenth centuries William Taylor explores the use of local and regional shrines as well as devotion to images of Christ and Mary including Our Lady of

Guadalupe to get to the heart of the politics and practices of faith in Mexico before the Reforma Each of these essays touches on methodological and conceptual matters that open out to processes and paradoxes of change and continuity exposing the symbolic complexity behind the material representations

**The Domain of Images** James Elkins, 2018-08-06 In the domain of visual images those of fine art form a tiny minority This original and brilliant book calls upon art historians to look beyond their traditional subjects painting drawing photography and printmaking to the vast array of nonart images including those from science technology commerce medicine music and archaeology Such images James Elkins asserts can be as rich and expressive as any canonical painting Using scores of illustrations as examples he proposes a radically new way of thinking about visual analysis one that relies on an object's own internal sense of organization Elkins begins by demonstrating the arbitrariness of current criteria used by art historians for selecting images for study He urges scholars to adopt instead the far broader criteria of the young field of image studies After analyzing the philosophic underpinnings of this interdisciplinary field he surveys the entire range of images from calligraphy to mathematical graphs and abstract painting Throughout Elkins blends philosophic analysis with historical detail to produce a startling new sense of such basic terms as pictures writing and notation

**Photography and September 11th** Jennifer Good, 2020-09-13 It is all but impossible to think of September 11th 2001 and not at the same time recall an image The overwhelmingly visual coverage in the world's media pictured a spectacle of terror from images of the collapsing towers to injured victims and fatigued firefighters In the days weeks and months that followed this vast collection of photographs continued to circulate relentlessly This book investigates the psychological impact of those photographs on a stunned American audience Drawing on trauma theory this book asks whether the prolonged exposure of audience to photographs was cathartic or damaging It explores how first the collective memory of the event was established in the American psyche and then argues that through repetitive use of the most powerful pictures the culture industry created a dangerously simple 9/11 metanarrative At the same time people began to reclaim and use photography to process their own feelings most significantly in communities of photographic memorial websites Such exercises were widely perceived as democratic and an aid to recovery This book interrogates that assumption providing a new understanding of how audiences see and process news photography in times of crisis

**The Fruit Thief** Peter Handke, 2025-09-23 A major new novel from the Nobel laureate Peter Handke one of his most inventive and dazzlingly original works On a summer day under a blue sky a man is stung on his foot by a bee The sting signaled that the time had come to set out to hit the road Off with you The hour of departure has arrived The man boards a train to Paris crosses the city by Metro then boards another disembarking in a small town on the plains to the north He is searching for a young woman he calls the Fruit Thief who like him has set off on a journey to the Vexin plateau What follows is a vivid but dreamlike exploration of topography both physical and affective charting the Fruit Thief's perambulations across France's internal borderlands alongside rivers and through ravines beside highways and to a bolt hole under the stairs of an empty

hotel Chance encounters with a man scrambling through the underbrush in search of his lost cat and with a delivery boy who abandons his scooter to become a fellow traveler for a day are like so many throws of the dice each exposing new facets of this mysterious individual in the manner of a cubist portrait In prose of unrivaled precision lucidly rendered into English by Krishna Winston *The Fruit Thief* elevates the terrain of everyday life to epic status and situates the microgeography of an individual at the center of a book like few others This is one of Nobel laureate Peter Handke s most significant and original achievements

*In His Image* Matthew Lee Smith, 2007-02-22 In His Image is the next step for those who have read *The Purpose Driven Life* Following the Life Purpose of Mission this book explores God s great love for humanity from every book of the Bible From the creation of Genesis to the culmination in Revelation God s love shines through every page Never is this ever clearer than in the times of Israel s great betrayal of their God His passionate pursuit of His children can be heard dripping from his voice as He calls them and us by proxy back to His shelter and protection This book was written To convince the reader of God s intense and immense love for them To encourage the reader to reach out to the God who is passionately in love with them To strengthen the reader s faith in God s compassion and To motivate the reader to share the love of God with every person they meet It is very clear God loves people of all races and ethnicities Therefore whenever appropriate to the passage of the day emphasis is made on the issue of racial reconciliation around God s love His love becomes the motivation for evangelism and for community In each daily devotional There is a Biblical Scripture they are encouraged to read There is a passage of Scripture to read in the devotional itself There is the devotional to read which focuses the reader on a single thought broken into two three or four practical ideas they can utilize that day in

their lives and There is a thought to take with the reader each day which summarizes the theme concerning God's great love for them **Theory of the Image** Ann Kibbey, 2005 A refreshing critique that offers a new paradigm for film studies

Judaism and the Visual Image Melissa Raphael, 2009-02-19 The widespread assumption that Jewish religious tradition is mediated through words not pictures has left Jewish art with no significant role to play in Jewish theology and ethics Judaism and the Visual Image argues for a Jewish theology of image that among other things helps us re-read the creation story in Genesis 1 and to question why images of Jewish women as religious subjects appear to be doubly suppressed by the Second Commandment when images of observant male Jews have become legitimate even iconic representations of Jewish holiness Raphael further suggests that devout beholding of images of the Holocaust is a corrective to post-Holocaust theologies of divine absence from suffering that are infused by a sub-theological aesthetic of the sublime Raphael concludes by proposing that the relationship between God and Israel composes itself into a unitary dance or moving image by which each generation participates in a processive revelation that is itself the ultimate work of Jewish art
