Survival and Witness at Europe's Border Karina Horsti, 2023-09-15 No detailed description available for Survival and Witness at Europe's Border      **European Series**, 1947      **Re-making of Europe. European powers to-day. The British Empire. The Atlantic Ocean** Arthur Mee, 1909      The United States and Europe in the Twentieth Century David Ryan, 2016-02-17 The relationship between the US and Europe in the 20th century is one of the key considerations in any understanding of international relations international history during this period David Ryan first sets the context by looking at the trends and traditions of America's foreign relations in the 19th century and then considers the changing nature of America's vision of Europe from 1900 to the present The book examines America's response to and involvement in the two World Wars including the structure of international power after the First World War and American reaction to the rise of Nazi Germany American European relations during the Cold War 1945 1970 are discussed and Ryan considers the contentious debate that America was trying to establish an empire by invitation Finally the book looks at the ever increasing unification of Europe and how this has affected America's role and influence      **From Left to Right** Nancy Sinkoff, 2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz From Left to Right Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not only because of her scholarship but also due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz's rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five archival collections From Left to Right chronicles Dawidowicz's life as a window into the major events and issues of twentieth century Jewish life      Intercultural Transmission in the Medieval Mediterranean Stephanie L. Hathaway, David W. Kim, 2012-11-02 This volume presents evidence of the extent and effects of intercultural contacts across Europe and the Mediterranean rim opening up a new understanding of early medieval civilisation and its continuing influence in both Western and Eastern cultures today From the perspectives of textual transmission cultural memory religion art and cultural traditions this work explores the central question of how ideas travelled in the medieval world challenging the conventional notion of insular communities in the Middle Ages Despite the schism between East and West that took hold after the thirteenth century this volume reveals a rich and extensive cultural exchange and demonstrates that transmission of ideas and culture across borders began much earlier than the Crusades It contributes to new perspectives on medieval cities Christian Europe's history with the Byzantine and Islamic Mediterranean the landscape of power and the power plays of the medieval Church and the way in which cross cultural transmission affected all of these areas      **Deleuze and Theology** Christopher Ben Simpson, 2012-11-02 What can

a theologian do with Deleuze While using philosophy as a resource for theology is nothing new Gilles Deleuze 1925 1995 presents a kind of limit case for such a theological appropriation of philosophy a thoroughly modern philosophy that would seem to be fundamentally hostile to Christian theology a philosophy of atheistic immanence with an essentially chaotic vision of the world Nonetheless Deleuze's philosophy can generate many potential intersections with theology opening onto a field of configurations a fractious middle between radical Deleuzian theologies that would think through theology and reinterpret it from the perspective of some version of Deleuzian philosophy and other theologies that would seek to learn from and respond to Deleuze from the perspective of confessional theology to take from the encounter with Deleuze an opportunity to clarify and reform an orthodox Christian self understanding

### **At Europe's Edge**

Cetta Mainwaring, 2019-09-05

The Mediterranean Sea is now the deadliest region in the world for migrants Although the death toll has been rising for many years the EU response remains fragmented and short sighted Politicians frame these migration flows as an unprecedented crisis and emphasize migration control at the EU's external boundaries In this context *At Europe's Edge* investigates why the EU prioritizes the fortification of its external borders why migrants nevertheless continue to cross the Mediterranean and to die at sea and how EU member states on the southern periphery respond to their new role as migration gatekeepers The book addresses these questions by examining the relationship between the EU and Malta a small state with an outsized role in migration politics as EU policies place it at the crosshairs of migration flows and controls The chapters combine ethnographic methods with macro level analyses to weave together policymaker practitioner and migrant experiences and demonstrate how the Mediterranean is an important space for the contested construction of Europe This book provides rich insight into the unexpected level of influence Malta exerts on EU migration governance as well as the critical role migrants and their clandestine journeys play in animating EU and Maltese migration policies driving international relations and producing Malta's political power By centring on the margins the book pushes the boundaries of our knowledge of the global politics of migration asylum and border security

*Histories of Nations*

Peter Furtado, 2014-11-10 Now in paperback this global bestseller is an engaging and informative read on the history of a

diverse array of countries Global histories tend to be written from the limited viewpoint of a single author and a single perspective which results in an inevitable bias In this book however twenty eight different writers and scholars from around the world contribute giving engaging often passionate accounts of their own nation's history The countries featured in *Histories of Nations* have been selected to represent every continent and type of state large and small mature democracies

and religious autocracies states that have existed for thousands of years and those born as recently as the twentieth century Each of these countries has a different relationship with history In the United States for example the myth of the nation s historylessness remains strong but in China history is seen to play a crucial role in legitimizing three thousand years of imperial authority History wars over the content of textbooks rage in countries as diverse as Australia Russia and Japan Some countries such as Iran or Egypt are blessed or cursed with a glorious ancient history that the present cannot equal others such as Germany must find ways of approaching and reconciling the pain of the recent past Original thought provoking and handy in its new paperback format Histories of Nations is a crucial primer for the Global Age

Increasing Legal Rights for Zoo Animals Jesse Donahue,2017-04-12 We are on the precipice of momentous legal changes for animals that may soon give some of them rights of personhood and citizenship Companion animals in particular are gaining rights to public representation in government access to housing inheritance and increased protection through the criminal justice system Nonhuman primates used as research subjects are also gaining limited rights of personhood in some countries This book examines how zoo animals could benefit from that revolution as well Reviewing zoo law and politics in the United States New Zealand and Southeast Asia scholars and zoo directors grapple with how the current law in those regions of the world impacts zoo animals and how it could be changed to serve them better They discuss the ways in which zoo animals could benefit from some re worked companion animal law in the United States the challenges of reintroductions and their legal barriers how we can extend ideas of human research subject rights to zoo animal research the stark problems of too few animal welfare laws in South East Asia the need for a central governing body focused solely on exotic captive animals in New Zealand and the need for stricter laws preventing the exotic pet problem that is increasingly affecting both zoos and sanctuaries The book starts a dialogue that moves the scholarship about zoos beyond a general discussion of ethics to a concrete dialogue and set of suggestions about how to extend legal rights to this group of animals

**War and Peace in Europe 1815-1870** E. L. Woodward,2019-05-23 Published in 1963 The three essays bound together in this book are based upon lectures given by the author as a University Lecturer in Modern History at Oxford The Lectures were not intended as a substitute for the excellent textbooks of modern European history published in recent years The choice of subject and more of treatment were determined by the questions of students and others attempting to find in this history of modern Europe something more than a chronicle of events a list of dates and names a catalogue of political and consitutional changes
