

ATHLETIC TRAINING RESEARCH AGENDA

The purpose of the athletic training research agenda is to identify research priorities and unify research with clinical practice to improve patient care and advance the profession. The inter-association task force used a mixed-methods research approach. Through focus groups, content analysis expert review, and the survey of athletic trainers, the research priorities were identified.

HEALTH CARE COMPETENCY

Applying effective interventions (eg, rehabilitation, modalities, pharmacology)

Establishing evidence to support return-to-life/play/work decisions

Preventing musculoskeletal injuries

Recognizing and referring patients with behavioral (mental) health conditions

Reducing public health risks across the lifespan (eg, sudden death, concussion, osteoarthritis)

VITALITY OF THE PROFESSION

Advancing the reputation of the profession and the value of an athletic trainer

Determining the effectiveness of interprofessional practice

Evaluating the medical model and independent medical care free of influence or bias

Exploring solutions to improve work-life balance

Improving retention of athletic trainers

Investigating issues related to diversity in the profession

HEALTH PROFESSIONS EDUCATION

Exploring educational pathways for developing clinical specialists

Exploring methods to maintain and advance competence

Investigating and advancing teaching and learning in professional preparation

HEALTH CARE ECONOMICS

Demonstrating return on investment, cost effectiveness, and revenue generation associated with employing athletic trainers

Establishing appropriate patient/practitioner ratios to ensure patient safety and high-quality care

Evaluating the ability to minimize health care costs for patients and maximize efficiency of patient care across the lifespan

HEALTH INFORMATION TECHNOLOGY

Determining the effectiveness of standardized communication and/or electronic medical record systems in clinical practice

Generating, analyzing, and applying "big data" to inform clinical decisions

Evaluating comprehensive point-of-care data that includes patient- and clinician- rated outcome measures

Improving medical documentation compliance and quality

Research In Athletic Training

Melanie Adams, Wanda Swiger

Research In Athletic Training:

Research in Athletic Training Christopher D. Ingersoll, 2001 Research is an essential element to the practice of athletic training Research encourages the exploration of new methods techniques and approaches to patient care and enhance the effectiveness of care provided by athletic trainers Research in Athletic Training is a definitive textbook designed to directly enhance and improve the athletic trainer s knowledge and growth in research Organized in a user friendly format this text will guide the reader through the different stages of research such as identifying areas to be researched the basics of developing a project and types of research in athletic training One of the essential elements to Research in Athletic Training is the myriad of tables that provide information on all of the key steps in beginning and completing a research project These tables will not only guide the beginning students through their first research project but they can also be used as a reference text for the practicing clinician Additional benefits included in this comprehensive resource are a glossary of common research terms bibliographies and recommended readings and practical examples Research in Athletic Training is a unique and necessary text that will benefit students from the beginning of their athletic training education to their integration into clinical practice Topics Outlined in Tables Inside Comparison of research areas to time in practice How to organize information for a literature review The development of protection of human subjects Research funding sources for athletic trainers Preparation of a budget for a research grant Research activities that can be integrated into a curriculum

Evidence-Based Practice in Athletic Training Raab, Scot, Craig, Deborah, 2015-10-19 Evidence Based Practice in Athletic Training provides essential information on the fundamentals of evidence based practice EBP for students who are working toward certification in athletic training and for athletic trainers who wish to stay up to date on best practices in the field

Research Methods in Athletic Training Brent L. Arnold, Bruce Michael Gansneder, David H. Perrin, 2005 The NATA Education Competencies require that students be able to demonstrate the ability to prepare and interpret sample design for scientific research This innovative text provides a precise roadmap for AT students conducting research projects from conceptualizing a topic to submitting a paper for publication Provides a basic yet solid understanding of SPSS Statistical Package for the Social Sciences software using actual SPSS screen captures and printouts *Pfeiffer and Mangus's Concepts of Athletic Training* Cynthia Trowbridge, Cheryl M. Ferris, 2022-06-15 Each new print copy includes Navigate 2 Advantage Access that unlocks a comprehensive and interactive eBook student practice activities and assessments a full suite of instructor resources and learning analytics reporting tools Written for the introductory course the Eighth Edition of Concepts of Athletic Training focuses on the care and management of sport and activity related injuries while presenting key concepts in a comprehensive logically sequential manner that will assist future professionals in making the correct decisions when confronted with an activity related injury or illness in their scope of practice Key Features Include Time Out boxes provide additional information related to the text such as NATA Athletic Helmet Removal Guidelines how to

recognize the signs of concussion and first aid for epilepsy Athletic Trainers Speak Out boxes feature a different athletic trainer in every chapter who discusses an element of athlete care and injury prevention Anatomy Reviews introduce body parts to students unfamiliar with human anatomy and acts as a refresher for those students with some anatomy background

Epidemiology for Athletic Trainers Melanie Adams,Wanda Swiger,2024-06-01 Evidence based practice requires clinicians to be knowledgeable of the current standards of care and be willing to consider the effectiveness of new methods Athletic Trainers especially must understand how epidemiology shapes healthcare practices for physically active patients To meet this need Epidemiology for Athletic Trainers Integrating Evidence Based Practice is a succinct and comprehensive reference meant to develop and refine student and clinician evidence based practice skills This text addresses the prevalence risk factors and surveillance of sports related injury and illness at youth college and professional levels Inside Epidemiology for Athletic Trainers Integrating Evidence Based Practice Drs Wanda Swiger and Melanie M Adams guide the reader through the steps of evidence based practice by presenting basic research and statistical methods needed to read medical literature Key sport epidemiology studies are reviewed for both historical and clinical significance This foundation is built on with a deeper discussion of injury and illness prevention and future research Chapters cover a wide range of topics including the health benefits of physical activity concussion return to play guidelines ACL prevention and mental health concerns This text provides an exceptional approach to integrating evidence based practice skills with clinical practice Features Meets the Commission on Accreditation of Athletic Training Education CAATE outcomes Includes classroom activities to make the text interactive and expand the student s or clinician s research skills Fosters the use of prevention practices and health promotion within athletic training Included with the text are online supplemental materials for faculty use in the classroom Epidemiology for Athletic Trainers Integrating Evidence Based Practice is a must have for any athletic training student or clinician looking to improve his or her decision making skills within an evidence based context Evidence-Based Practice in Sport and Exercise Brent L Arnold,Brian K Schilling,2016-08-24 What is the evidence Why do you need it How do you evaluate it How do you use it to make decisions Put the evidence to work for your patients Master the knowledge and clinical decision making skills you need to provide the very best care for your clients based on the evidence Step by step you ll learn how to find and evaluate the existing research and determine whether there is sufficient clinical evidence to support a specific treatment and whether it should be recommended or used to address a client s need A wealth of examples drawn from the literature illustrates its role in everyday practice Athletic Training Student Primer Andrew P Winterstein, PhD, Atc,Andrew P. Winterstein,2009 The Athletic Training Student Primer A Foundation for Success is a dynamic text that supplements the core concepts terminology and educational requirements of athletic training with the combination of academic and clinical education to establish a foundation of knowledge This valuable resource is designed for both prospective and current athletic training students Topics include the history of the National Athletic Trainers Association

diversity employment settings emerging trends and educational resources Unlike other introductory athletic training texts much of the information is derived from interviews with a diverse group of professionals This method allows for insight and advice on work environments ethics professional preparation maximizing clinical education opportunities and building a successful career The reader is provided with a multitude of answers to many real life athletic training situations To further facilitate learning an interactive website companion has been developed to complement the text Through this website you will find a range of helpful features including web resources pertaining to the corresponding chapter topics flash cards teaching important concepts and quizzes testing the knowledge presented The Athletic Training Student Primer A Foundation for Success effectively blends the core concepts in athletic training with guidance on the human elements of the profession to provide a springboard for future study

Improving Patient Care in the Secondary School Athletic Training Setting Jeremy Michael Eusea, 2015 The Dissertation of Clinical Practice Improvement highlights the major constructs of the Doctorate of Athletic Training DAT program including the need for scholarship that leads to professional growth and a focus of action research that displays clinical outcomes of professional practice My scholarship and professional growth began with the creation of a Plan of Advanced Practice PoAP outlined in Chapter 2 that captured my strengths weaknesses and goals along with accomplishments for advancing my clinical professional practice within the DAT and for the next 5 10 years of professional practice Through the PoAP I reflected on the desire to improve my patient care through the utilization of new interventions and paradigms while reflecting upon the need to improve my clinical setting the secondary school setting to provide quality patient care In Chapter 3 I present clinical patient oriented outcomes while within the DAT program that focused on learning and implementing new interventions into my own clinical practice Chapter 4 is a literature review that synthesizes the current and previous research related to athletic trainers in the secondary school setting and research relating to the study and improvement of quality health care in other medical fields Once the problems and needs for improvement in the secondary school setting were addressed I focused the majority of my research project Chapter 5 on performing a quantitative and qualitative assessment of the secondary school setting from a third party stakeholder s perception of the athletic training services The research study was through an action research process that deals with real problems and real life situations by evaluating the local effectiveness of professional practice based on the interpreter s individual paradigm and then the practitioner can create an outstanding solution to a local issue that can be used everywhere After performing the research study I was able to determine the focus of stakeholders in the secondary school setting in regards to the athletic trainer s time spent on duties related to patient care

The Athletic Trainer's Pocket Guide to Clinical Teaching Thomas G. Weidner, 2009 The Athletic Trainer s Pocket Guide to Clinical Teaching is a user friendly handbook designed to provide practical information on effective clinical teaching With an understanding that athletic trainers are sometimes unfamiliar with their specific roles and responsibilities when serving as Approved Clinical Instructors

Dr Thomas Weidner has created the go to resource that can be called upon while in the clinical setting The Athletic Trainer's Pocket Guide to Clinical Teaching is a condensed well organized reference tool that will assist Approved Clinical Instructors Clinical Instructor Educators and others associated with clinical education with the roles and responsibilities of the clinical education team Each chapter concludes with reflection questions to help make connections with one's own unique environment and situation Features include A general background on effective clinical teaching Relevant educational theory Specific ideas and strategies for teaching in different clinical settings and situations Evaluation and feedback Content on how to approach challenges in clinical teaching Information for conducting initial and continuing Approved Clinical Instructor ACI training The Athletic Trainer's Pocket Guide to Clinical Teaching has answered the call to provide a book that offers information specific to the athletic training clinical instructor
