Enhancing the Quality of Life of People with Intellectual Disabilities Ralph Kober, 2010-09-24 This book contains a series of articles written by international experts in the fields of intellectual disability and quality of life that explore a broad range of issues that impact on the quality of life of people with intellectual disabilities and their families The book commences with a general discussion on defining quality of life and family quality of life and the appropriateness of using these constructs in the field of intellectual disability and is followed by an analysis on the effects of living arrangements and employment on quality of life The book concludes with discussions on the unique issues facing children with intellectual disabilities and people living in developing countries and the effect these issues have upon their quality of life

Quality of Life in Epilepsy Gus A Baker, Gus A. Baker, Ann Jacoby, 2013-05-13 Though clinical aspects of epilepsy such as seizure control are crucially important to its management increasing attention is being given to wider quality of life issues Epilepsy continues to be an often misunderstood and stigmatising condition for the vast majority of people whose seizures can be well controlled the social and psychological repercussions are often of greater significance than the seizures themselves The increasing emphasis on the importance of non clinical outcomes in the assessment of new treatments and management strategies for chronic conditions such as epilepsy has stimulated interest in methodological issues in assessing quality of life This book reviews the recent literature on the impact of epilepsy on everyday experience and the methodological issues involved in assessing that impact

It also considers the perspectives of a range of health professionals involved in caring for people with epilepsy and how through appropriate management the impact on their lives can be minimised

Statistical Methods for Quality of Life Studies Mounir Mesbah, Bernard F. Cole, Mei-Ling Ting Lee, 2013-06-29

On October 16 and 17 2000 we hosted an international workshop entitled Statistical Design Measurement and Analysis of Health Related Quality of Life The workshop was held in the beautiful city of Arradon South Brittany France with the main goal of fostering an interdisciplinary forum for discussion of theoretical and applied statistical issues arising in studies of health related quality of life HRQoL Included were biostatisticians psychometricians and public health professionals e g physicians sociologists psychologists active in the study of HRQoL In assembling this volume we invited each conference participant to contribute a paper based on his or her presentation and the ensuing and very interesting discussions that took place in Arradon All papers were peer reviewed by anonymous reviewers and revised before final editing and acceptance Although this process was quite time consuming we believe that it greatly improved the volume as a whole making this book a valuable contribution to the field of HRQoL research The volume presents a broad spectrum of papers presented at the Workshop and thus illustrates the range of current research related to the theory methods and applications of HRQoL as well as the interdisciplinary nature of this work Following an introduction written by Sir David Cox it includes 27 articles organized into the following chapters

Quality of Life: From Nursing and Patient Perspectives Cynthia R. King, Pamela S. Hinds, 2011-05-24

Handbook of Quality of Life in African Societies Irma Eloff, 2019-08-09 This handbook reflects on quality of life in societies on the continent of Africa It provides a widely interdisciplinary text with insights on quality of life from a variety of scientific perspectives The handbook is structured into sections covering themes of social context culture and community the environment and technology health education and family It is aimed at scholars who are working towards sustainable development at the intersections of multiple scientific fields and it provides measures of both objective and subjective quality of life The scholarly contributions in the text are based on original research and it spans fields of research such as cultures of positivity wellbeing literacy and multilingualism digital and mobile technologies economic growth food and nutrition health promotion community development teacher education and family life Some chapters take a broad approach and report on research findings involving thousands and in one case millions of participants Other chapters zoom in and illustrate the importance of specificity in quality of life studies Collectively the handbook illuminates the particularity of quality of life in Africa the unique contextual challenges and the resourcefulness with which challenges are being mediated This handbook provides empirically grounded conceptualizations about life in Africa that also encapsulate the dynamic ingenious ways in which we as Africans enhance our quality of life

Handbook of Quality-of-Life Research M. Joseph Sirgy, 2001-11-30 This handbook provides students of quality of life QOL research with an understanding of how QOL research can be conducted from an ethical marketing perspective a perspective based on positive social change The

handbook covers theoretical philosophical and measurement issues in QOL research The handbook also approaches selected QOL studies in relation to various populations in various life domains The marketing approach is highly pragmatic because it allows social and behavioral scientists from any discipline to apply marketing concepts to plan social change and assess the impact of intervention strategies on the QOL of targeted populations

Validity and Validation in Social, Behavioral, and Health Sciences Bruno D. Zumbo, Eric K.H. Chan, 2014-09-26 This book combines an overview of validity theory trends in validation practices and a review of standards and guidelines in several international jurisdictions with research synthesis of the validity evidence in different research areas An overview of theory is both useful and timely in view of the increased use of tests and measures for decision making ranking and policy purposes in large scale testing assessment and social indicators and quality of life research Research synthesis is needed to help us assemble critically appraise and integrate the overwhelming volume of research on validity in different contexts Rather than examining whether any given measure is valid the focus is on a critical appraisal of the kinds of validity evidence reported in the published research literature The five sources of validity evidence discussed are content related response processes internal structure associations with other variables and consequences The 15 syntheses included here represent a broad sampling of psychosocial health medical and educational research settings giving us an extensive evidential basis to build upon earlier studies The book concludes with a meta synthesis of the 15 syntheses and a discussion of the current thinking of validation practices by leading experts in the field

Work and Quality of Life Nora P. Reilly, M. Joseph Sirgy, C. Allen Gorman, 2012-05-31 Employees have personal responsibilities as well as responsibilities to their employers They also have rights In order to maintain their well being employees need opportunities to resolve conflicting obligations Employees are often torn between the ethical obligations to fulfill both their work and non work roles to respect and be respected by their employers and coworkers to be responsible to the organization while the organization is reciprocally responsible to them to be afforded some degree of autonomy at work while attending to collaborative goals to work within a climate of mutual employee management trust and to voice opinions about work policies processes and conditions without fear of retribution Humanistic organizations can recognize conflicts created by the work environment and provide opportunities to resolve or minimize them This handbook empirically documents the dilemmas that result from responsibility based conflicts The book is organized by sources of dilemmas that fall into three major categories individual organizational internal policies and procedures and cultural social forces external to the organization including an introduction and a final integration of the many ways in which organizations can contribute to positive employee health and well being This book is aimed at both academicians and practitioners who are interested in how interventions that stem from industrial and organizational psychology may address ethical dilemmas commonly faced by employees

Food Security and Soil Quality Rattan Lal, B.A. Stewart, 2010-06-23 Just five years ago it was generally believed that the number of food insecure people in the world was on continuous decline Unfortunately widespread soil

degradation along with resistance to recommended agronomic practices and little attempt to restore degraded soils have conspired with significant droughts in regions that could least tolerate them.

Handbook of Assessment in Mindfulness Research Oleg N. Medvedev, Christian U. Krägeloh, Richard J. Siebert, Nirbhay N. Singh, 2025-08-03 This handbook provides comprehensive coverage of assessment instruments used in mindfulness research. It discusses traditional and modern approaches used to develop psychometric measures and to establish their reliability and validity such as classical test theory, item response theory, and Rasch model generalizability theory, facet benchmarking, and network analysis. The handbook provides information on conceptual foundations, development, and psychometric properties of assessment instruments used to measure mindfulness in children, adolescents, and adults. In addition, it provides similar information on scales used in specific contexts and for various purposes. It reviews behavioral, cognitive, and psychophysiological assessment measures of mindfulness. The handbook examines a broad range of psychological, physical health, and mental health and related measures that are used in mindfulness research. This reference work enables researchers to choose appropriate measurement tools for a broad range of mindfulness research. Key areas of coverage include: Nature and theoretical foundations of assessment; Origins and definitions of mindfulness; Mindfulness scales for children and adolescents; Mindfulness scales for adults; Mindfulness scales for specific contexts and purposes; Mindfulness and Buddhist-related scales; Behavioral assessments of mindfulness; Cognitive and psychophysiological assessments of mindfulness. The Handbook of Assessment in Mindfulness Research is an essential reference for researchers, professors, and graduate students, as well as clinicians, therapists, and other mental health practitioners in clinical psychology and affiliated medical and mental health disciplines, including complementary and alternative medicine, social work, occupational, and rehabilitation therapy.

Measurement in Medicine Henrica C. W. de Vet, Caroline B. Terwee, Lidwine B. Mokkink, Dirk L. Knol, 2011-08-11 The success of the Apgar score demonstrates the astounding power of an appropriate clinical instrument. This down-to-earth book provides practical advice underpinned by theoretical principles on developing and evaluating measurement instruments in all fields of medicine. It equips you to choose the most appropriate instrument for specific purposes. The book covers measurement theories, methods, and criteria for evaluating and selecting instruments. It provides methods to assess measurement properties such as reliability, validity, and responsiveness and interpret the results. Worked examples and end-of-chapter assignments use real data and well-known instruments to build your skills at implementation and interpretation through hands-on analysis of real-life cases. All data and solutions are available online. This is a perfect course book for students and a perfect companion for professionals, researchers in the medical and health sciences who care about the quality and meaning of the measurements they perform.
