Bibliography of Asian Studies ,1994 *Guide to Indian Periodical Literature* ,1999 *Bibliography of Periodical Literature on the Near and Middle East* ,1947 **Directory of American Scholars** ,1982 Low-Carbon Economy and Sustainable Development: Driving Force, Synergistic Mechanism, and Implementation Path Zhen Liu, Wang Pei, Jing Lan,Jingchao Zhang,2024-11-25 In recent years with global economic development and population growth environmental issues have become increasingly prominent Climate change and energy crisis have become global problems that restrict human development and so need to be solved urgently As a comprehensive economic development model the low carbon economy can greatly reduce energy and resource consumption mitigate and adapt to climate change promote economic development and thus achieve the goal of sustainable development Therefore exploring efficient paths toward sustainable development through carbon reduction is an urgent and challenging research topic currently This Research Topic aims to conduct scientific research and exchange from the perspectives of clarifying the drivers behind carbon reduction investigating the synergistic mechanism between the low carbon economy and sustainable development and then exploring the pathways to low carbon development Through comprehensive research and comparative analysis of the relationship between low carbon economy and sustainable development we will verify the feasibility of innovations and updates of carbon reduction applications for sustainable development provide scientific strategies in terms of low carbon economy for sustainable development design technical routes and propose corresponding policy recommendations Bibliographic Index ,2007 **Whitaker's Cumulative Book List** ,1940 The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1903 **Research Grants Index** National Institutes of Health (U.S.). Division of Research Grants,1969 Research Awards Index , Pipeline Pedagogy: Teaching About Energy and Environmental Justice Contestations Valerie Banschbach,Jessica L. Rich,2021-03-06 The proliferation of pipelines to transport oil and natural gas represents a major area of contestation in the landscape of energy development Battles over energy pipelines pit private landowners local community representatives and environmentalists against energy corporations and industry supporters sometimes drawing opposition and attention from well beyond the impacted regions as in the case of the Standing Rock Dakota Access Pipeline Stakeholders must navigate complex government regulatory processes interpret technical and scientific reports and endure lengthy and expensive court battles As with other forms of environmental injustice the contentious construction of pipelines often disproportionately impacts communities of lower economic development people of color and indigenous peoples pipelines also pose potential short and long term health and safety threats With the expansion of energy pipelines carrying fracked oil and gas across the United States and abroad the moment is ripe for teaching about pipeline projects and engaging students and community members in learning about methods for mobilization Our volume examines pedagogical opportunities challenges and interventions that campus community engagement and other kinds of community engagement

produce in relation to infrastructuring in the form of pipeline development From an Ethic of Sufficiency to its Policy and Practice in Late Capitalism Manu V. Mathai, Sylvia Lorek, Wolfgang Sachs, 2023-12-13 That the notion of sufficiency is essential for a good life is an idea that enjoys support across many ethical philosophical religious and cultural persuasions This notion reasserted itself in the study of sustainability once modern society reluctantly took cognizance of the limited low entropy energy and matter available for human appropriation There is today therefore a general recognition of i e not necessarily wide agreement on the merits of or needs for notions of sufficiency as a species of environmentalism within secular communities In this context a critical question that invites our attention is how to effect sufficiency and in particular of dealing with the daunting challenge of injustice as well as questions of distribution within and between countries that it brings to attention Given sufficiency's original home as it were in tradition the modern world has tended to dismiss it or to plead to individual voluntary simplicity when faced with evidence asserting its necessity Sufficiency is also often written away as a spiritual problem The domain of ascetics and the religious How to habilitate sufficiency in a political economy for the secular modern facing its biggest existential challenge yet in the form of the environmental crisis An Integrated Positive Psychology Approach Into Counseling in Different Settings Christos Pezirkianidis, Anastassios Stalikas, Panagiotis Parpottas, 2023-06-01 **Bibliography of the History of Medicine** , *Books in Print* ,1982 *International Books in Print* ,1997 **Arts & Humanities Citation Index** ,2000 **Subject Guide to Books in Print** ,1984 *The Cumulative Book Index* ,1996 A world list of books in the English language **Green Building Transitions** Julia Affolderbach, Christian Schulz, 2018-05-15 This volume analyzes sustainability related innovations in the building sector and discusses how regional contexts articulate transition trajectories toward green building It presents biographies of drivers and processes of green building innovation in four case studies Brisbane AUS Freiburg GER Luxembourg LU and Vancouver CA Two of them are relatively well known for their initiatives to mitigate climate change particularly in the building sector whereas the other two have only recently become more active in promoting green building The volume places emphasis on development paths learning processes and innovations The focus of the case studies is not restricted to purely technological aspects but also integrates regulatory procedural institutional and other processes and routines and their influence on the variations of the building sector The diversity of the selected case studies offers the reader the opportunity to gain a thorough understanding of how sustainability developments have unfolded in different city regions Case study specific catalogues of transition paths provide insights to inform policy debates and planning processes The catalogues identify crucial innovations technological regulatory etc and explain the factors and circumstances that have led to their success and broader acceptance in Freiburg Vancouver Luxembourg and Brisbane With the help of a number of micro case studies within each of the four city regions the case studies also offer ground for comparison and identification of differences The book represents the outcome of the GreenRegio project which stands for Green building in regional strategies for sustainability multi actor governance and
